

ROBIN MULLINS, left, is congratulated by Kenneth Westcott, Burroughs High School vice-principal, upon being named the winner of the Bob Kelly Memorial award, which is presented each year to the outstanding senior class member of the Burros varsity football team. Mullins, who was elected honorary co-captain of the 1953 grid team at the close of the season, played end on offensive and safety man on defense. Announcement of the Kelly award winner was made at the final assembly of the school year held last Friday at the Station theater.

VARIED FILM FARE SET

The Children's Film Society will offer a mixed fare for its program at the Station theater tomorrow from 10 to 11:10 a.m. Featured will be "American Folk Music," starring Burl Ives; a color film entitled, "Swimming for Beginners," and three Disney cartoons.

Starting Times: 6 and 8 p.m. daily.
Kiddies' Matinee (Special Movies):
1 p.m. Saturday
Matinee: 1 p.m. Sunday

TODAY JUNE 11
"FLAME AND THE FLESH" (104 Min.)
Lana Turner, Carlos Thompson
Shorts: "Dig the Dog" (7 Min.)
News (10 Min.)

SAT. JUNE 12
"LONE GUN" (74 Min.)
George Montgomery, Dorothy Malone
Shorts: "What's Wrong Here" (10 Min.)
Armed Forces Screen Report No. 150

MATINEE
"PISTOL HARVEST" (60 Min.)
Tim Holt
Shorts: "Wonder Dog" (7 Min.)
"Gunfighters of the Northwest" No. 4

SUN.-MON. JUNE 13-14
"MEN OF THE FIGHTING LADY" (80 Min.)
Van Johnson, Keenan Wynn
Shorts: "Perils of the Forest" (18 Min.)

TUES.-WED. JUNE 15-16
"SECRET OF THE INCAS" (101 Min.)
Charlton Heston, Thomas Mitchell
Shorts: "Hare Today, Gone Tomorrow" (7 Min.)
News (10 Min.)

THURS.-FRI. JUNE 17-18
"KISS ME KATE" (110 Min.)
Kathryn Grayson, Howard Keel
Shorts: News (10 Min.)

Awards Assembly Marks Close Of School Year at Burroughs High

Honors and awards won by Burroughs High School students during the 1953-54 school year were presented last Friday at the final assembly program held in the Station theater.

Six members of the graduating class received scholarships to assist them in continuing their education. Scholarship recipients, and the donors, are:

Carolyn Wilson, China Lake branch of the AAUW; Jeannie Carr, Future Teachers of America award, presented by the China Lake Education Association; Bruce Blackerby, U. S. Alumni Association; Jim Lotko, NOTS Repertory Group; and Robin Mullins and Franklin Childs, who received athletic scholarships from the University of Redlands and Brigham Young University, respectively. Mullins also received the Kelly Memorial award presented annually to the outstanding senior class member of the football squad.

Frances Farley, a graduating senior, received the annual award presented by the local Rotary Club to the outstanding commercial studies student, and Girls' and Boys' State awards were given to delegates Joy Nelson and John Holmes.

Winners of the Americanism Essay Contest—Ann Lipp and Zoe Ann Taulbee—received awards from the John M. Armitage American Legion Auxiliary, and the Edith Karner Award, sponsored by the China Lake PTA and presented to the school club which was of the most service to the school during the past year, was given to Beth Shewan, president of the Pep Club, by Mrs. John A. Clemente, PTA president.

Life membership seals in the California Scholastic Federation were presented to Bruce Blackerby, Sally Cashore and Ann Lipp, while novice membership awards in CSF went to Jeannie Carr, Dawn Hay-

ford and George Stillwell.

Trophy cups winners in the Bank of America achievement competition were Robert Weinland and Sally Cashore, who excelled in general fields of study. Bank of America achievement certificates in various fields of study also went to Bruce Blackerby, mathematics; Mary Dreibelbis, music; James Frerkes, art; Carolyn Wilson, English; Robbie Terro, foreign languages; Frances Farley, business; Jeannie Carr, home economics, and Edgar Cresswell, trades and industrial arts.

In the field of art, county awards were presented to Sylvia Pallenberg, Robin Mullins, Elizabeth Pike, Michael Madison and Lucretia Madison, and the Glen Biggers Memorial award in music was won by Bruce Blackerby.

Other music students chosen for membership in the all county orchestra, band and chorus were:

Mary Dreibelbis, Carolyn Neipp, Bruce Blackerby and Virginia Williams, in the orchestra; Harry Bird, Lawrence Ferris, Michael Pierce and Joy Westcott, in the band; Kathleen Coger, Janet Hoenshell, Richard Howell, LaVonne Martinez, Diane McDonald, Barbara Mussler, Ronald Parish, Norma Schimmick, Mary Shewan and Patricia Stevens, in the chorus.

Burroughs High School band awards went to Harry Bird, Harold and Mary Dreibelbis, Lawrence Ferris, Vernon Green, Carolyn Neipp, Kent Osborn, Michael Pierce, Ned Pierce, Charles Rekosh, Stanley Smith, Peter Spooner, George Stillwell, Joy Westcott, Fred Witnack, Robert Wick and Marie Winen.

The awards program was concluded by presentation of a gift from the graduating class to the school. The class of '54 gave the school a set of national and state flags and standards for use at the new multi-use room on the Burroughs campus.

Survey Work Set On Girls Camps At Greenhorn Mt.

A second outing is planned tomorrow and Sunday by fathers of local Girl Scouts to Greenhorn Mountain, where survey work is being carried out by volunteers to obtain information needed to make a topographic map of the proposed Girl Scout camp in the area.

This map is necessary before the camp architect will be able to develop plans for construction of permanent buildings at the camp site.

Over the Memorial Day weekend, eight fathers of local Girl Scouts took part in the survey project. They were Ed Barsell, chairman; Ed Snearly, Earl Love, Francis Wentink, George Todd, Ronald Henry, Wilmer Stark and Harold Harney.

Persons interested in helping out tomorrow or Sunday are asked to call either Mr. Barsell or Mr. Harney for further information.

THE WEATHER

Mostly clear, visibility unlimited. Surface winds light and variable, increasing to 10 to 18 knots in the afternoon. Maximum temperature 86. Minimum temperature 55.

Local Rescue Squad Given High Praise For Saving Child

Praise by Rear Admiral M. F. Schoeffel, Chief, Bureau of Ordnance, for life-saving action here by the fire department and Infirmary personnel on April 5, when an apparently drowned child was revived, has been received by Captain D. B. Young, Station Commander.

Admiral Schoeffel wrote, "I desire to extend my congratulations to the Commander, Naval Ordnance Test Station, Inyokern, for the excellent performance of the rescue squad in saving the life of James Lewis Pratt on 5 April 1954.

"I am certain that the prompt response, and efficient manner in which the emergency was met is a source of comfort to all personnel at the Naval Ordnance Test Station, Inyokern."

To which Captain Young added, "I admire and appreciate the splendid performance of the Naval Ordnance Test Station rescue squad in this instance. You will pass the admiral's and my congratulations to those individuals who directly contributed to the saving of the Pratt child's life and, where appropriate, have suitable entries made in personnel records."

The child, 14-month-old son of Mr. and Mrs. Alfred V. Pratt, was left alone a moment during his morning bath, and his mother returned to find him face down in the tub and not breathing. The fire department rescue squad, aided by Infirmary personnel, worked for an hour and a half before the infant's breathing and pulse were restored.

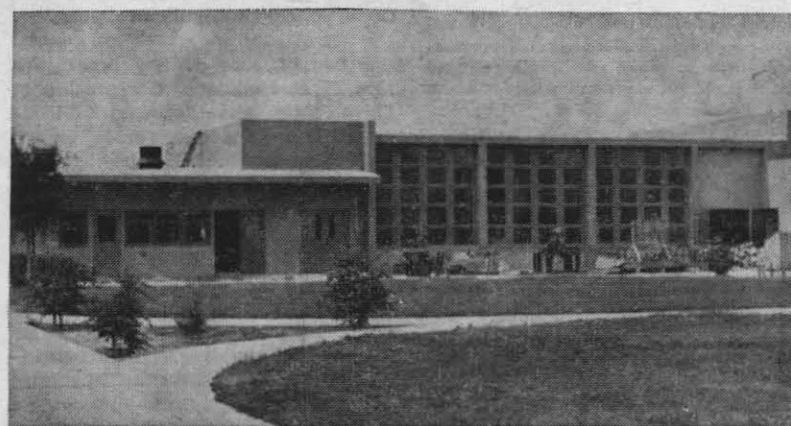

Power Increase On TV Channel 2 Expected Soon

Additional equipment has been ordered for installation on channel 2 at the television repeater station located on Laurel Mountain.

It is expected that the new equipment will quadruple the power on that channel, resulting in a stronger, clearer picture for local television viewers.

The aluminum elements formerly in use on the receiving antennae have been replaced with steel-fabricated elements thus resulting in fewer replacements and picture interruptions, it was reported.

Tests are currently being conducted on the strength of signals received from the repeater station.

IT WON'T BE LONG NOW before the work started last November on construction of three new buildings at Burroughs High School will be completed. The combination cafeteria-auditorium building, largest of the three new structures with a total of 7680 square feet, is shown above. An order was sent out this week for equipment which will make possible the serving of warm noon meals to high school students next fall.

Finishing Touches Being Added At New High School Buildings

Finishing touches are now being put on three new buildings at Burroughs High School by the J. A. McNeil Construction Co., Inc.

With the exception of black topping for walks and driveways around the new buildings, which won't be started until next week, the entire \$238,116 project is pretty well wrapped up and is expected to be complete around the first of July, construction officials reported.

The installation of hardwood flooring in the combination cafeteria-auditorium building has been finished, and interior cabinet work and painting will be completed next week, as will the laying of asphalt tile flooring.

In addition to the multi-purpose building, the project also includes construction of an addition to the home economics department and a life-science laboratory.

An order requesting \$20,800 worth of equipment and furniture for the three new buildings was sent out this week with the hope that the equip-

Navy Flier Killed In Crash on Range

A Navy flier from Attack Squadron 155, temporarily based at Moffett Field, was killed last week in a plane crash on the Station's aircraft ground range.

Victim of the fatal accident was LCDR Kermit Q. Ellis, squadron executive officer, from Sunnyvale, Calif. He was flying a Skyraider, propellor-driven craft.

The accident occurred on Thursday, June 3, at approximately 10 a.m.

Local Voters Follow Statewide Trend In Primary Election

Eight polling places at China Lake attracted a total of 1795 voters for the statewide direct primary election held last Tuesday.

Local balloting for congressional and state offices followed the trend throughout the rest of California, which found voters generally adhering to party lines rather than voting independently for candidates from the opposing party who cross filed on their ballot.

As an indication of how local voting followed the pattern set throughout the state, Edmund G. (Pat) Brown, Democratic candidate for reelection to the office of attorney general and the only statewide candidate to receive the nomination of both parties in the primary, also was supported locally by both Republicans and Democrats. An unofficial count showed him with 1283 votes, as compared to 224 for Fred N. Howser, his nearest rival.

The only noticeable exception locally to the party-line voting trend occurred in the race for the 14th Congressional District seat held by Harlan Hagen of Hanford. Congressman Hagen, a Democrat, in addition to drawing strong support from his

W. E. Donaldson Elected To Head China Lake Community Council

William E. Donaldson, associate head of the materials engineering division in the Design and Production Department, was elected Tuesday night to succeed Captain T. F. Connolly as president of the China Lake Community Council.

This will be Mr. Donaldson's second term as Community Council president. He previously served in this capacity from August 1950 until August 1951, when he was succeeded by B. Arthur Breslow.

An election of two new members to the council's board of directors preceded the balloting to select a new president. Frank Christie, a laboratory general mechanic in development division two of the Aviation Ordnance Department, was chosen to represent Precinct Three, replacing Henry Strauss, and Mr. Donaldson was elected to fill the representative-at-large vacancy created by the recent resignation of Clarence Weinland.

At the next meeting of the council board of directors, on June 22, members will vote on a successor as representative-at-large to replace Captain Connolly.

One candidate, Jack Springer of

Community Services Scheduling Parties, Picnics at Sandquist Spa

Sandquist Spa, a leisure-hours recreation area for local residents, is now officially open for the summer. The facility includes all the necessary features for an outing.

Included in the area are three family size and three larger size barbecue pits, a refreshment stand, picnic tables and a cement slab for dancing and games. A record player and a supply of records are available free of charge from LCDR W. E. Cupp, Special Services Officer, or they can be arranged for by calling 72017, the recreation office.

Parties wishing to use the barbecue pits must bring firewood as a ready supply is not available. The refreshment stand may be reserved by large parties for party picnics but a \$10 deposit must be made at the time the key is picked up. Reservations may be made by calling 72239, but the deposit must be made in person at the Community Services office. The money will be returned when the key is returned and on the condition that the facility has been left in good order.

Dumpsters are available as well as large G.I. cans for depositing refuse and trash. Lights are available for evening activities and may be turned on with a switch located on a telephone pole at the entrance to the Spa.

The road leading to the area is located about five miles west of the Main Gate, however, the road leading to the facility is not paved and community services officials have requested that speeds be kept under 35 miles per hour.

Beer may be sold only by Navy Exchange personnel.

Navy Men Hurt In Auto Accident

Two Navy enlisted men attached to the Naval Air Facility, John D. McKay and Robert W. Miracle, ADAN's, were injured recently in an accident at the intersection of Highway 395 and the Inyokern Road.

The two men were traveling west on the Inyokern Road, about 5:15 a.m., when a second car, driven by Phillip J. Jeffoy, of Lomita, Calif., failed to make the boulevard stop and struck the side of their car, according to Highway Patrol reports. The Navy men were taken to the Station Infirmary for treatment of facial injuries, and a passenger in the other vehicle, Alice Jeffoy, was removed to the Ridgecrest hospital.

The right side of the 1951 Jaguar owned by McKay was demolished and considerable damage was sustained by the 1949 Frazier driven by Jeffoy. All parties involved were treated and released.

CONTAGION REPORT

There were two cases of mumps, three of measles and four cases of chicken pox reported at the Station Infirmary this week.

Mrs. Olds Elected Head of Community Building Directors

Mrs. Marion Olds has been elected president of the board of governors of the new community building, a group which has as its principal purpose the making of recommendations concerning policies governing the use of the new recreation center.

Other officers of the board are Mrs. K. H. Robinson, vice-president; Gaye Ritter, secretary, and LT Robert O. Thurston, treasurer.

LT Thurston also has been named to head the ways and means committee, while Gordon Chantler is head of the entertainment committee, and Marion Kelly will handle publicity.

At the present time the board is pondering the selection of a name for the new building. Under consideration are the more than 50 entries submitted in the month-long contest announced in May by the Community Council.

LCDR Hackwith New Safety Officer

LCDR Charles C. Hackwith, new safety officer who succeeded LCDR F. E. Malley last Friday, comes here from more than 27 months of duty aboard the USS St. Paul as assistant gunnery officer and main battery officer.

His Navy career began when he entered the reserve at Chicago nearly 28 years ago. World War II brought duty aboard the destroyers USS Maury and Yarnell in the Pacific. The Maury received the Presidential citation for the part that she played in several actions.

Mrs. Hackwith and Charles Jr., will come to the Station after the son completes his sophomore term at Poly High in Long Beach on June 17. The family will reside at 509-B Saratoga. Charles Jr., is a promising athlete in several sports, and hopes to take part in the local program.

Extend Fund Drive For Navy Relief

Absence from the Station of many persons on vacation and leave has prompted the continuation of the Navy Relief Fund drive that began earlier this month.

Fund sponsors point out that last year 121 cases among Station personnel, their dependents or widows of deceased personnel received a total of more than \$8500 in benefits. Of this sum, about \$600 was in the form of outright gratuities.

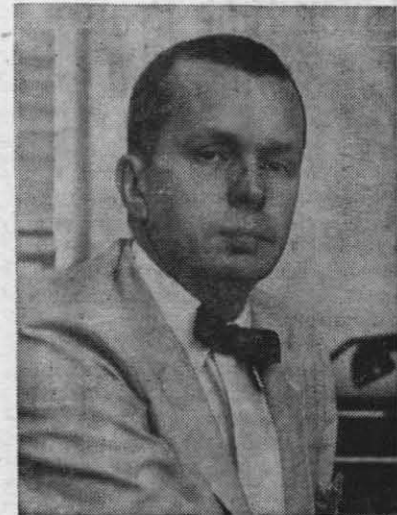

Navy or Marine servicemen in actual financial need may get more information about the fund from the Station chaplain or legal officer.

FUR PRODUCTION UP

U. S. fur farms produced about 2,500,000 mink skins in 1953. (AFPS)

Dr. F. E. Bothwell Named To Head Central Evaluation

Dr. Frank E. Bothwell was named head of the Central Evaluation Group last Monday, replacing Dr. S. H. Browne who went to the Lockheed Aircraft Company's missile division a month ago.

Dr. F. E. Bothwell

Dr. Bothwell has been senior consultant to the Technical Director since his arrival at the Station in November 1951. Prior to coming here, he had spent the summer of 1951 in Japan as consultant to the operations analysis division of the Air Force in making a study of the air defense system of Japan.

A native of Michigan, Dr. Bothwell received his early education in that state, then was at the Massachusetts Institute of Technology from 1938 until 1947, receiving his Ph.D. in mathematics there.

He was with the radiation laboratory at MIT from 1941 to 1945 as a staff member, then research engineer on Project Meteor there from 1945 to 1947. From 1947 until 1950, he was chief of the fire control and guided missile division of Project Chore at the University of Chicago. Next, he was associate professor of electrical engineering at Northwestern University, followed by the summer in Japan.

Dr. and Mrs. Bothwell have four children, Carol Ann, 7, Joseph, 4, Mary Louise, 2 and Charles, 8 months. They reside at 508 Lexington.

Dr. Harper Accepts University Position

Dr. C. Paul Harper, who is completing his first year as instructor of music at Burrroughs High School, has accepted a position as assistant professor of musical education at Taylor University, Upland, Ind.

He received his Bachelor's degree at Asbury College and completed his graduate work at Northwestern University. At Taylor University he will teach music education and give private brass instrumental instruction.

Chaplain's Corner

By JACK SPRINGER, Lay Leader
NOTS Hebrew Congregation

Last Tuesday, world Jewry celebrated the Feast of Shavuot. Coincidentally, millions of Americans went to the polls to nominate their candidates in the primaries, for election in November. These nominations will result in the election of the people's choice of legislators and administrators, who make the laws of our land, state and municipalities. How does the Feast of Shavuot parallel the primary election? What is the significance to each other? Let us examine the origin of both.

Shavuot, or the feast of weeks, occurs seven weeks after the celebration of Passover and stems from the book of Exodus. The tribes of Israel, having left Egypt on the journey to the promised land, stopped at Mt. Sinai. There Moses ascended the mountain to receive the 10 Commandments from God, for all mankind. Moses presented the Tablets to the Hebrews on Shavuot and thereby the first democratic law known to man was created.

Shavuot has become synonymous with democracy throughout the centuries. The democratic principals have been fostered and advanced by the Torah, the Old Testament. Our elections are based on the will of the people to govern themselves, not to bend to the will of a dictator. From the time of the Pilgrim fathers the Talmudic law was emphasized. John Adams and Thomas Jefferson sought the wording of the Declaration of Independence, from the Torah, that "all men are created equal and endowed (by God) with certain inalienable rights to life, liberty and the pursuit of happiness." The Torah and the Talmud teach freedom of thought and expression, freedom of worship and the Golden Rule. Is this not principally the reason we seek to elect the best candidates for public office?

A Jew may not by Talmudic law be other than a member of a democratic society. Totalitarianism, slavery and despotism is not compatible with the Jewish teachings and law. When a Jew forsakes the democratic teachings he ostracizes himself from Judaism just as any American who accepts the doctrine of a dictatorial philosophy, such as communism, breaks his allegiance and his faith with America. Certainly then an American Jew must believe, without reservation, in our democratic way of life or forfeit his heritage.

This is the message of Shavuot. This is the syntax of our elections and the presentment of the 10 Commandments of Moses.

Coming and Going

New employees, 7; terminations, 32.

China Lake

NEW EMPLOYEES:

Research — Carl M. Anderson, chemist.

Office of the Commander—Cathrin A. Clark, clerk-typist.

Supply and Fiscal—Bettie Wright, teletypewriter operator; Robert D. Burkhalter, property and supply clerk.

Test—James S. Evans, electronic mechanic.

Rocket—Donald J. Neil, electronics mechanic helper.

Aviation Ordnance—Richard W. Roddy, student trainee.

TERMINATIONS:

Public Works—Earl W. Self, painter; Charles H. Drake, laborer.

OilCC—Herbert A. Reif, draftsman; Evelyn E. Miller, duplicating operator; John N. Strommen, Chester V. DiPol, civil engineers; Frances E. Laird, clerk-stenographer.

Explosives—Patricia W. Burr, dictation transcriber; Ella M. Eaves, laborer; John G. Meitner, chemist; H. M. Halvorsen, James H. Sphar and Hallie H. Beveridge, ordnance-men.

Test—Wilbur J. Elias, electrical engineer.

Design and Production—Dorothy M. Twyman, machine operator; Gilbert Crittenden, truck operator.

Research—V. Ann Boyls, clerk-stenographer; William H. Golyer, Jr., laborer.

Personnel—Mary L. Mottola, personnel clerk.

Office of the Commander—John E. Walsh, mathematician.

Rocket—Harriet Torkelson, secretary; Reuben Klammer, engineer; Charles H. Hire, toolmaker; Joyce

L. Allred, clerk-typist; George E. Sramstad, laborer.

Pasadena

TERMINATIONS:

Design and Production — Allan Ferguson, engineering draftsman.

Explosives—J. Leonard Replogle and Cullis M. Bennett, engineering draftsmen.

Supply and Fiscal—Robert L. Powell, purchasing agent; Constance C. Caminos, typist.

Underwater Ordnance — Frederick Kref, general engineer; Weldon H. Jackson, electronic technician.

Plans Announced For Bible School

Summer vacation Bible school will be conducted by the NOTS Community Church from June 21 through July 2, according to Mary Ellen Lytle, who will have charge of the school.

There will be classes in Bible study, story-telling, handwork and a music and rhythm band. Assisting Mrs. Lytle will be Ruth Hanes, Donna Rinehart and Jane Evans, who will have charge of the beginning, primary and junior departments, respectively.

The school will be open to children between the ages of 5 and 11, and will be held from 9 to 11 a.m. at Groves School. Registration for the school will be held next Thursday from 9:30 to 11 a.m. in the kindergarten hut at the school.

Job Opportunities

The Personnel Department is seeking persons to fill the following vacancies. Employees and their friends are encouraged to apply for these jobs if they have the required qualifications.

China Lake

Electronic Mechanic, \$2.20 per hour. Call Mrs. Wilde, ext. 72032.

Pasadena

Electronics Engineer (Scientist) GS-11. Experience in electronic instrumentation and electronic control systems such as missile experience desired. Position involves design of electronic systems used in Underwater Ordnance. Call Bob Bennett, ext. 109, Thompson Laboratory.

Torpedo Design Engineer GS-9. Mechanical design applied to the development of torpedo exercise equipment. Experience in design of small mechanical assemblies and knowledge of torpedoes desired. Call Bob Bennett, ext. 109, Thompson Lab.

Typist GS-2. Supply and Fiscal. In addition to typing duties position requires use of ditto and multilith machines. Call Dorothy Seaman, ext. 106, Thompson Lab.

New Procedures Enable Faster Assessment Of Telemetered Data From Guided Missiles

Guided missile test data is currently being reduced and assessed at the Station at a rate many times faster than originally possible because of a suggestion by the Technical Director, Dr. W. B. McLean, and the painstaking development work of D. J. Simmons, an electronics engineer of Development Division 3, Aviation Ordnance Department.

Prior to the local development, pulse-width modulated telemetering data was assessed either by hand or automatically, by measuring the length of lines on a record of film. The automatic equipment was bulky, slow and cost approximately \$30,000 per unit and required considerable maintenance.

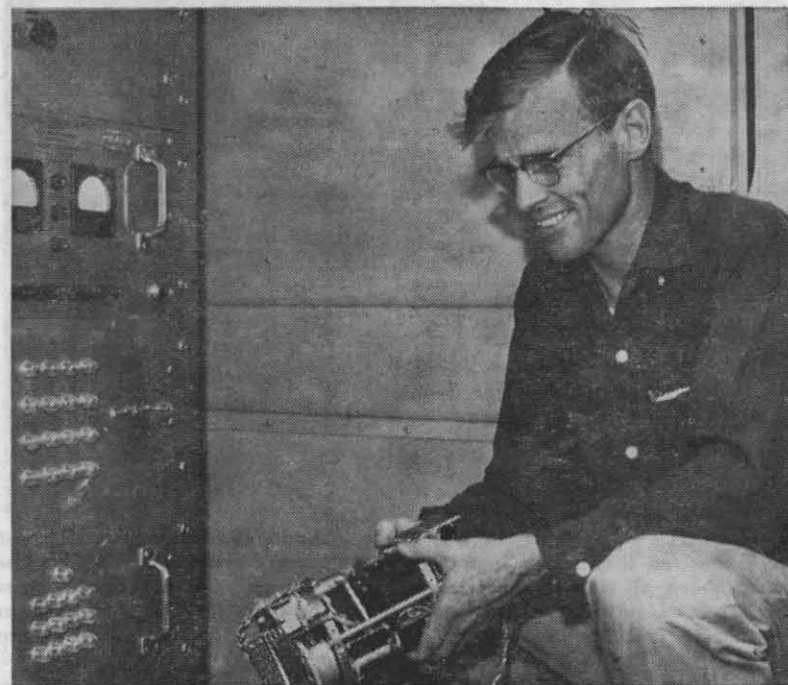

Since the data is transmitted from the guided missile in flight to the ground station as pulses of varying durations, it occurred to Dr. McLean that these durations could be measured by gating a precision oscillator with each pulse and counting the number of sine waves that each pulse permitted to pass.

Following this suggestion, Mr. Simmons developed counter circuitry utilizing plug-in units devised by the Test Department with a binary-coded decimal system that could operate at any frequency up to 600,000 cycles per second.

The answer, that is the number of sine waves that a given pulse has permitted to pass, is displayed for a 300-millionth of a second on a neon tube matrix where it is recorded on 35mm film, as shown in the photograph. The counter is then automatically reset to record the next data pulse.

Since the data pulses are received at the rate of 600 per second, it is necessary for the digitalizer to work very rapidly. The photographic record, for example, displays only approximately 1/30 of one second of a guided missile flight.

The equipment developed by Mr. Simmons is quite small, and the elec-

D. J. SIMMONS, an electronics engineer in Development Division 3 of AOD, holds a missile telemetering unit used to send signals from a missile in flight to the ground station control panel shown above. This particular telemetering unit was developed and manufactured by the Seeburg Corporation of Chicago to meet NOTS specifications.

tronic circuitry requires less chassis space than the average television set with approximately the same number of tubes.

A large number of guided missile flights have been successfully telemetered in this way, and the digitalized film record is automatically converted to IBM cards, utilizing the data converting equipment described in the April 23 issue of the Rocketeer. The IBM cards from this con-

Employee Retires After Long Service At China Lake

Thomas D. Toohig, construction inspection supervisor, retired from Civil Service here last week after being on the Station since February 1946, and left to reside at Pleasant Hill, Calif.

He was guest of honor at a farewell party last Thursday that was climaxed by a ritual by the Ridgecrest Elks Lodge, of which he was a retired grand trustee. He had been a member of the Elks Order for 33 years.

Other organizations to which he belongs include Father Crowley Council, Knights of Columbus, and Piedmont Parlor of the Native Sons of the Golden West.

His son, Thomas D. Jr., was taken prisoner at the surrender of Corregidor early in World War II, and died on a Japanese prison ship when it was torpedoed near Corregidor in October 1944.

Mr. Toohig intends to keep a hand in the construction business at his new residence by selling building materials for swimming pools.

Reports from Technical Departments

Station Employee Given Additional Suggestion Award

Judson B. Eldridge, a snapp ordnanceman in the Rocket Department, was presented recently with a check for \$105, by Dr. E. L. Ellis, head of the department.

The presentation was an additional award for a Beneficial Suggestion which Mr. Judson submitted in March 1952. The award was based on \$80 for savings in excess of \$10,000, \$10 for safety benefits and \$15 for intangible benefits.

The original award of \$275 was based on an estimated annual savings of \$26,000, as well as safety and intangible benefits.

Mr. Judson's suggestion was for a method of controlling propellant composition by heat of explosion.

A letter from the Office of Industrial Relations addressed to Mr. Judson, commended him for his constructive thinking and stated that the second award had been authorized.

Analog Computer Course Is Planned

Students wishing to take an Analogue Computation course during the summer session through UCLA may register in Room 20105 at Michelson Laboratory during the week of June 28, according to H. R. Richardson, director of education.

The instructor will be Donald Lebell, lecturer and assistant engineer on the staff of the UCLA department of engineering since 1946. There will be two class meetings weekly, time to be decided at the first class meeting on July 8 at 4:30 p.m. in Room 1013, Michelson Laboratory.

Prerequisites are Mathematics 110C (Advanced Engineering Math) or equivalent. Course materials will be detailed at the time of registration. The course carries three units of credit, and the tuition fee is \$27.

Lecturer To Outline Uses for Rubber

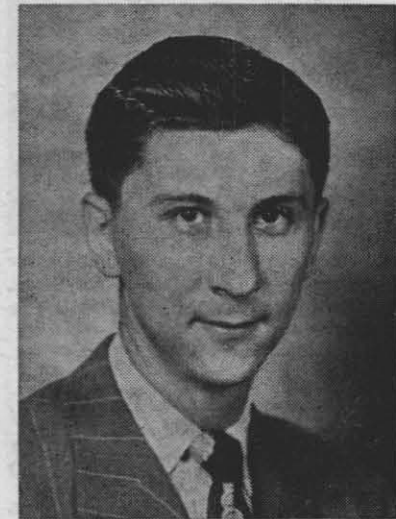

A technical lecture on the uses of rubber, both natural and synthetic in the field of engineering, will be presented next Friday, June 18, at 10 a.m. in Room 2067, Michelson Laboratory.

The speaker, Ross E. Morris, head of the rubber laboratory at the Mare Island Naval Shipyard, will repeat his lecture for Annex personnel on Monday, June 21, at 10 a.m. in the auditorium of Thompson Lab.

News from Pasadena

Research Scientist To Present Paper

Dr. Julius Miklowitz, head of the applied mechanics branch, research division of UOD, will present a paper on elastic waves June 16, before the second U. S. National Congress of

Dr. Julius Miklowitz Applied Mechanics at the University of Michigan, according to George V. Schliestett, acting head of the research division.

Dr. Miklowitz's paper, entitled "Traveling Compressional Waves in an Elastic Rod According to the More Exact One-Dimensional Theory," deals with the propagation of elastic stress waves in solids, and is a report on recent studies conducted by Dr. Miklowitz under exploratory and foundational research funds.

While doing graduate work at Harvard University, Dr. Miklowitz was a Gordon McKay scholar. In 1949 he received his Ph.D. degree from the University of Michigan, under a three-year Westinghouse Research Laboratory scholarship for graduate study.

Safety Slogan Committee Set

The committee to select the safety slogan which will keynote the Annex safety program for the coming year was announced this week by the Executive Safety Committee. Members will be Don Steel and William C. Shealy, Design and Production Department, and Juanita Thompson, Public Works Department.

The week of June 21 to 25 has been designated as Safety Slogan Week at the Annex. Fred Richards, technical publishing division, is designing the prize to be given the person submitting the best slogan—a piece of costume jewelry in the form of an appropriately inscribed safety pin for a woman, or an inscribed tie clasp or belt buckle for a man.

Five-Year Pins Are Awarded

Recognition of five years of service with NOTS was made at a recent all-hands meeting in the Supply and Fiscal Department. New owners of the gold pins are Helen Chambers, Vernon Hayes, Harry Kinard, Rose Weinberg, Florence Williamson, and (though not able to receive them in person) (Beatrice Newell and Richard Lovelace).

Award was made to Dorothy Smith for a recent Beneficial Suggestion that a more private place be provided for the discussion of problems with supervisors. She received \$5.

Donna Lyon Weds Caltech Student

Married last Saturday, June 5, in the chapel of the First Methodist Church, Pasadena, were Donna V. Lyon, clerk-typist in the manufacturing division of the Design and Production Department, and John C. Day, senior student in astronomy at Caltech.

A reception for family and friends was held following the ceremony in the parlors of the church.

The bride has been employed at the Annex for 2½ years. Her husband is an Air Force ROTC student at Caltech, and may serve with the Air Force after he graduates. Mr. and Mrs. Day have not yet chosen a place to live after they return from a three-week wedding trip.

ALWAYS FIRST

A Moscow newscaster claimed that the Russians discovered vitamins in 1880—the latest of a long line of "firsts." (AFPS)

Award Winner

EVELYN McDONALD, placement officer in the personnel division at Pasadena, was the recent recipient of a Meritorious Service Award during presentation ceremonies held at the Annex.

CAPTAIN ROBERT B. SELLARS is relieved of his command at the Pasadena Annex by CDR Robert A. Thompson, right, new Officer-in-Charge.

Captain Sellars Relieved By CDR R. A. Thompson

Orders written by Vice Admiral J. L. Holloway, Chief of Naval Personnel, with a delivering endorsement signed by Captain D. B. Young, Station Commander, were read by Captain Robert B. Sellars at an official relief ceremony in Thompson Lab auditorium last Friday.

After a year and two months as Officer in Charge, Pasadena Annex, Captain Sellars assumes the duties of Executive Officer of the Station, replacing Captain R. H. Solier.

Thanking all with whom he had

Last Days at Annex Were Busy Ones

Before Captain Robert B. Sellars took off for his new duties at China Lake, the Officer in Charge, Pasadena Annex, engaged in a variety of activities. On May 24, he participated in a 15-minute recorded broadcast for the Pasadena City Schools.

He represented the Station on June 2 at Pasadena City College when he presented the Second Year Honor Award to Cadet 2nd Lt. Leslie R. Tracy of the ROTC.

On June 5, Captain Sellars appeared on a television show in Los Angeles, "Seapower for Peace," explaining part of the NOTS research and development program. Pinpointing the savings to taxpayers achieved by the Design and Production Department, Captain Sellars showed actual components on which substantial reductions in cost and weight were obtained by experimenting with alternate methods of manufacture and substitute materials.

Finale of Captain Sellars' adieu to the Pasadena Annex was the dance at the Los Angeles Police Academy Saturday night. High spot of the evening was a skit, written by J. Harry Wolf, Underwater Ordnance Department, directed by Fred Richards, Design and Production Department, and performed by an inspired all-Annex cast.

worked, the supports group particularly, Captain Sellars said, "I leave you with much regret, for I certainly have enjoyed my tour of duty here in Pasadena. You haven't seen the last of me, however, for the Executive Officer has now become a member of the Research Board and every third meeting of that board is held at the Annex.

CDR Robert A. Thompson, in relieving Captain Sellars of command of the Pasadena Annex, detailed his conception of the duties of the Officer in Charge and outlined the structure of the organization. "The prime responsibility of the Officer in Charge is to assure effectiveness, or ability to produce results, in the technical field. More important than the structure of any organization are the people who implement the program.

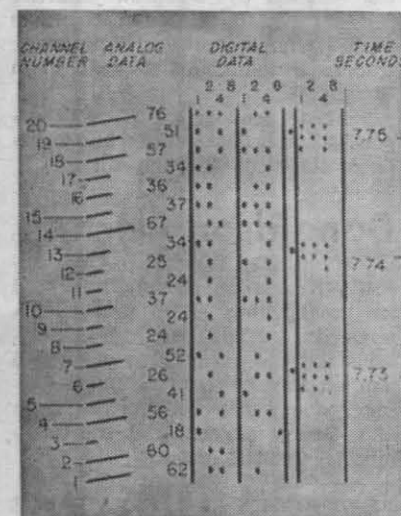

"When you have, as we have here, capable people devoted to the accomplishments that have been set for them, any organization will work. In accepting the position of Officer in Charge at the Annex, I will do everything I can to further the success of our program."

CDR Thompson, who has been the Assistant Officer in Charge for the past two years, was commissioned in the Navy in 1941. During World War II he served on the U.S.S. Mugford, U.S.S. Young, and U.S.S. J. W. Ditter, and was at Okinawa when the war ended. Formerly range officer for the Naval Aviation Ordnance Test Station at Chin-coteague, Va., he came to NOTS from duty aboard the U.S.S. Coral Sea.

CDR H. P. McNeal, military liaison officer in the Underwater Ordnance Department, has assumed the duties of Assistant Officer in Charge.

U.S. HOLDS EDGE

In World War II the Japanese lost 130 submarines and the Germans lost 782. The U.S. lost only 52. (AFPS)

A FILM RECORD of telemetered data from a missile flight is shown above. The Arabic numbers are not on the original record, but have been added for explanatory purposes.

Hunter Safety Courses Scheduled

Young hunting enthusiasts will meet tomorrow at the Ridgecrest Gun Club range in the first of a series of National Rifle Association Hunter Safety Training Courses, sponsored jointly by the China Lake Junior Rifle Club, the VFW Junior Rifle Club, and the Ridgecrest Gun Club.

Starting at 8 a.m., and lasting until 10 a.m., the courses will be held on June 12, 19, and 26. The tuition fee will be \$1.10 per student, and will include the cost of targets and ammunition.

Qualified instructors will be on hand, including Lloyd Phillips, Bruce Lindmark, George Padgett, and Ottow Schneider.

Certificates of competency, identification cards from the National Rifleman's Association, and life honor or shoulder patches will be given to all students who finish the course satisfactorily. The course is open to all persons, youngsters and adults alike.

California State law requires that anyone under 16 years of age must take this course and have a certificate of competency before being issued a hunting license.

Annex Baseball Now in Full Swing

PASADENA—The NOTS Foothill softball boys shellacked the team from Wiancko Engineering when they tangled on May 26 in their first game of the San Gabriel Valley Adult Softball "B" League's first round. The final score was 17 to 5. The following Tuesday, June 1, however, the locals lost a heartbreaker, 11-10, to the Boys Christian League team.

Players were Ken Leisge, Jack Davis, Mike Castaneda, Jim Spillane, Earl Myers, Jim Hall, Pat Bredice, Gene Cowley, Len Franco, John Cooley and Chuck Miller.

Next game, to be played at the Arcadia County Park at 7 p.m. Tuesday, June 8, will be against the Clayton Manufacturing Company team.

The overhand softball team lost to Sierra Madre, 11 to 1, on May 21 and to Consolidated Engineering, 6 to 2, on June 3 in its first two games in the "A" Division of the Pasadena City Recreation Department "Owl" Softball League. The games were played at Brookside Park.

AWARD BANQUET SLATED

League and tournament bowling awards will be presented at the seventh annual award banquet of the China Lake Bowling League to be held at the Village Supper Club tonight at 7.

Local Netters Lose To San Bernardino Tennis Club, 8-6

In the tennis matches held last Sunday on the Station courts against a group of netters from San Bernardino, the China Lake Tennis Club came out on the short end of an 8 to 6 score.

Local winners were: in the men's singles, Don Beresford, Ed Ashburn and Frank Singleton and Rod Weldon; and in the mixed doubles, Jackie Singleton and Jerry Whitnack.

In the singles, Beresford defeated Monte Meyers 6-3, 4-6, 7-5; Ashburn downed Lee Loop 10-8, 1-6, 6-0; and Whitnack beat Lou Kauder 6-1, 6-2. In the doubles Crow-Ashburn defeated Loop-Shier, 6-4, default; Singleton-Weldon edged Kauder-Harblson 6-4, 6-2, and in the mixed doubles, Singleton-Witnack defeated Loop-Kauder 6-1, 7-5.

For San Bernardino, Les Wanee defeated Ned Crowe 6-3, 6-4; Ascher Schier downed Frank Singleton 6-3, 6-4; and Bob Harblson edged Chet DiPol 7-5, 1-6, 6-1, in the men's singles. In the men's doubles, Monte Meyers and Les Wanee defeated Witnack-Beresford 6-0, 6-4, and in the women's singles, Alice Wanee defeated Jackie Singleton 6-1, 6-1; Esther Shier outscored Polly Connable 6-2, 6-2; and Coral Ann Loop defeated Betty Falterman 6-0, 6-1. The team of Loop and Loop defeated Singleton and Connable in the women's doubles, 3-6, 7-5, 8-6.

Little League

Monday
Dodgers vs. Athletics, Diamond 1, 8 p.m.
Red Sox vs. Giants, Diamond 2, 8 p.m.

Tuesday
Yankees vs. Athletics, Diamond 1, 6 p.m.
Tigers vs. Dodgers, Diamond 1, 8 p.m.
Braves vs. Giants, Diamond 2, 6 p.m.
Pirates vs. Red Sox, Diamond 2, 8 p.m.

Thursday
Yankees vs. Tigers, Diamond 1, 8 p.m.
Braves vs. Tigers, Diamond 2, 8 p.m.

Friday
Tigers vs. Athletics, Diamond 2, 6 p.m.
Yankees vs. Dodgers, Diamond 2, 8 p.m.
Pirates vs. Giants, Diamond 1, 6 p.m.
Braves vs. Red Sox, Diamond 1, 8 p.m.

Pony League

(All games played at Schoeffel field)

Monday
Cardinals vs. Indians, 6 p.m.
Cubs vs. Reds, 8 p.m.

Thursday
Cubs vs. Indians, 6 p.m.
Reds vs. Cardinals, 8 p.m.

This Week's Scores

Pony League—Reds 6, Cardinals 2; Cubs 9, Indians 4.
National League—Pirates 14, Red Sox 4; Braves 20, Red Sox 5; Pirates 10, Giants 2.
American League—Dodgers 7, Tigers 2; Yankees 9, Dodgers 1; Athletics 12, Tigers 5.

LOU RADCLIFF, Rockets outfielder, arrived at third base a moment after the ball in last Saturday night's game against the Long Beach All-Stars, and was tagged out by Ralph McAdams, third sacker for the visitors. The Long Beach nine walloped the locals, 19-6.

Rockets Seek End to Losing Streak, To Try Luck Against George AFB

Hoping to end a victory drouth that has extended since the early part of last month when the Rockets took two games out of three from the Hawthorne Marines, the local nine will tangle with another service team—the horsehiders from George Air Force Base in Victorville—tomorrow night at Schoeffel field. Game time will be 8:15.

The Rockets also are scheduled to meet Lone Pine on Wednesday evening at the local diamond, and on Saturday, June 19, will play the M and W Tigers from Los Angeles.

In last Sunday's outing against the Long Beach All Stars, the Rockets were outgunned from start to finish by the visitors, who romped to an easy 19-6 win.

Standings Reported In Golf Tournament

PASADENA—Team standings at the Annex at the end of the third week of golf tournament were announced by Wendell Alexander.

AMBC Golfers led, with 12 points won, 4 lost. The '69ers are right in there with 11 and 5, while the PW's tally shows 10 and 6; the Put-Putts, 9 and 7, and the Duffers 9 and 7. The Hole-in-Oners have won 9 points, lost 5; NOTS Enough stands at 7 and 9; Champs 6 and 10; Perambulators 3 and 13, and Rangers 2 and 12.

Winners of golf balls last week were Leo Enriquez, who shot a 37 for low gross, and Bill Shealy, who carded a low net score of 49-9-36. CDR Fred B. Clark tied Shealy, 46-10-36.

Interest centered this week on the last match to be played by Captain Robert B. Sellars before his departure for China Lake and his new duties. He turned in a creditable card of 41.

The Long Beach nine got off to a three run lead in the first inning when two fly balls to left field were either misjudged or lost in the sun and went for three base hits. A single and a walk did more damage.

Jack Israel, Rockets first baseman, clouted a three-base hit in his first trip to the plate, and then scored on a double by Dick Ramsey, third sacker, who followed him to the plate, but the visitors batted clear around in the third frame, increasing their lead to 7-1 and settling any doubt about the outcome.

The horsehiders from Long Beach wore out a path to home plate as they scored three, four and five runs in the fifth, sixth and seventh innings, respectively, while the Rockets tallied twice in the fourth and ninth frames, and once in the seventh.

Ramsey with a double and a triple to his credit, and Dewey Smith, catcher, with two singles, were the leading hitters for the Rockets. Jim Johnson, catcher, batted out three singles, and Roger Hall and Ralph McAdams, left fielder and third sacker, got two hits each for the winners.

Station League Softball

(All games at Beer Hut Diamond)

Monday
NAF vs. China Lake, 8:30 p.m.

Tuesday
Marine Barracks vs. GMB, 6:30 p.m.

Apprentices vs. Public Works, 8:30 p.m.

Wednesday
Research Department vs. China Lake, 8:30 p.m.

Thursday
Officers vs. Public Works, 6:30 p.m.

Marine Barracks vs. China Lake, 8:30 p.m.

This Week's Scores

NAF 13, Marine Barracks 12; China Lake 10, Officers 15; Public Works 3, GMB 13; Research Department 5, Marine Barracks 21.

Benefit Program Slated Next Week At Vieweg School

Local entertainers will headline the benefit program scheduled Monday and Wednesday, at 8 p.m. in the Vieweg School auditorium. Proceeds from the show will be used to purchase books through the CARE agency, for distribution to children of foreign lands in an effort to create a closer bond between the youngsters of all nations.

Highlights of the show will include selections by the Indian Wells Valley Chapter of the Society for the Preservation and Encouragement of Barbershop Quartet Singing in America; songs and readings by Alice Floyd; two piano selections, "Dance of the Gnomes," by Franz Liszt, and a medley of folk tunes by Stephen Foster, played by Jane Marie Bachinski; a scene from "Alice in Wonderland," presented by the China Lake Players; and a reading entitled "The Giver" written by Ben Keller, presented by Bill Spafford.

Admission price will be 50 cents per person and tickets to the event will be handled by Marvin Backman, Alice Floyd, Bill Spafford, Virginia Cheesman and Roger Coger. Additional donations may be left in a box located at the Station library.

W. C. Olsen Wins Suggestion Award

A \$100 beneficial suggestion award was recently presented to W. C. Olsen, a rigger in the Public Works Department, for an idea concerning the rigging of wire cable on skip loaders.

Mr. Olsen suggested that a poured cable sock be used as a cable anchor, rather than an eye splice type fitting. The new system will practically eliminate cable wear and breakage.

The award was based on an estimated savings to the Navy of 518 man hours and \$2864 per year.

Exchange Date Set For Concert Tickets

The exchange of concert series season ticket vouchers for reserved seat tickets will be conducted Tuesday from 6 to 9 p.m. at the new community building.

This service is only for concert patrons who wish to select new seats for the 1954-55 concert series. Those who indicated earlier that they desire to keep the same seats they held for last year's concert programs can pick up their reserved seat tickets any time after Tuesday at the Community Manager's office.

SUMMER DANCE PLANS SET

Tentative plans call for an enlisted men's dance to be held at the Anchorage every weekend during the summer. They will be held from 8:30 to 12:30 p.m. on Friday or Saturday, depending on future commitments.

Lesson in Nature Study

GIRL SCOUTS attending the Day Camp at Sandquist Spa during the past week received instruction in nature study from Phyllis Wise, right. The group above, all sixth grade youngsters, is listening as Mrs. Wise describes the black widow spider safely enclosed in the glass jar she is holding in her hand. Training in outdoor cooking, trail signs and handling of the flag also was included on the day camp program.

Voters Follow Trend in Primaries...

(Continued from Page One)

own party, also drew several hundred Republican votes to outscore his opponent, Al Blain, 1201 to 401.

Candidates for congressional and state offices who came through strongly on their respective party tickets rated similar support from China Lake voters. Those who qualified for run-off elections in November, together with the total number of votes they received locally, are:

For governor—Goodwin J. Knight (R), 981, Richard P. Graves (D), 489; **lieutenant governor**—Harold J. Powers (R), 582, Edward R. Roybal, 702; **secretary of state**—Frank M. Jordan (R), 784, Daniel Raeburn (D), 838; **controller**—Robert C. Kirkwood (R), 719, George D. Collins Jr. (D), 881; **treasurer**—Charles G. Johnson (R), 686, George E. Johnson (D), 855; **U.S. senator**—Thomas H. Kuchel (R), 723, Samuel W. Yorty (D), 619.

At press time, with county returns not yet complete, Republican Jess R. Dorsey, state senator from the 34th District, appeared to be headed for election in the primaries, as he led by a wide margin on the Republican ballot and held a comfortable lead on the Democratic ticket as well. Locally, he received 833 votes as compared to 737 for James E. Thomason, Democrat.

Dorothy M. Donahoe, Democrat, running unopposed for another term as a member of the State assembly from the 38th District, received the support of 1469 voters.

Voting at China Lake in the sheriff's race ran counter to that reported throughout the remainder of Kern county. Tom Kelly, the incumbent, and Frank X. Berens led the local balloting with 442 and 379 votes, respectively. The run-off in November, however, will be between John E. Loustalot and LeRoy F. Galyen, who received 241 and 289 votes here Tuesday.

BIRTHS

Boys

Branson—David Lee, 7 lbs., 11½ ozs., June 6, at the Ridgecrest Hospital to Mr. and Mrs. Daniel R. Branson, 303-A Ranger.

Eyer—John Robertson, 7 lbs., 3½ ozs., June 1, at the Ridgecrest Hospital to Mr. and Mrs. Lyle C. Eyer, 200-A Fowler.

Holobaugh—Stanley Dale, 9 lbs., 1 oz., June 2, at the Infirmary to AN and Mrs. Dalton D. Holobaugh, 353-D McIntire.

Rupert—David Walter, 7 lbs., 13 ozs., June 2, at the Ridgecrest Hospital to Mr. and Mrs. Robert Rupert, 139-B Hornet.

Girls

Evans—Patricia Kaye, 7 lbs., 1 oz., June 2, at China Lake to Mr. and Mrs. Kenneth E. Evans, Windy Acres, Ridgecrest.

Kelly—Lauren Alyson, 7 lbs., 12 ozs., June 5, at the Ridgecrest Hospital to Mr. and Mrs. Howard R. Kelly, 54-A Randolph.

Romero—Marti Margaret, 8 lbs., 2½ ozs., June 6, at the Ridgecrest Hospital to Mr. and Mrs. Eduardo Romero, 408-A Tyler.

Saunders—Judith Arlene, 6 lbs., 4 ozs., May 31, at the Ridgecrest Hospital to Mr. and Mrs. Joe Saunders, 212-A Fowler.

Sizemore—Margaret Ann, 6 lbs., 7 ozs., June 5, at the Ridgecrest Hospital to Mr. and Mrs. Robert R. Sizemore, 201-A Wasp.

Famed Hypnotist To Appear in Little League Benefit

Ormond McGill, one of the pioneers of television hypnotism, will appear at the Station theater in matinee and evening performances on June 21 and 22.

Mr. McGill, who has been seen on such coast-to-coast television programs as "Life With Linkletter," "G. E. House Party," and "People Are Funny," will present two afternoon and two evening performances of his "East Indian Miracles" show. Curtain time will be 1 and 7:30 p.m.

McGill combines the arts of hypnotism with those of magic. His show is divided into three sections, the first of which consists of illusions from India, and features an act called "Dungeon of Calcutta." The second part includes feats of mental wizardry for which Mr. McGill is famous, and the third is called "Seance of Hypnotism."

Persons from the audience will be invited to take part.

Tickets for the show, priced at 25 cents for the matinees and 50 cents for evening performances, will soon be on sale in the various departments on the Station, and may be bought at the box office on the evenings of the program. Proceeds from the ticket sales will be used to provide funds for the China Lake Little League Association for baseballs, replacement uniforms, officials' salaries, and other necessary expenses.

Troop 3 Scouts On Camping Trip

Boy Scouts and Explorers of Troop 3 of China Lake are now on a camping trip at Lake Hume, near Sequoia National Park. The scouts left last Saturday and will return Sunday.

Gene Harris, scoutmaster, and Otto Phelps, assistant scoutmaster, who are in charge of the outing, are being assisted by Woodrow Chartier and Arthur McNeal, members of the troop's adult committee, and junior leaders Butch Chartier and Dom Wright.

Visits to Sequoia and King's Canyon National Parks are on the agenda of the week-long expedition.

Donaldson Elected

(Continued from Page One)

604-A Kearsarge, already has filed for the opening. Other persons interested in filing nominating petitions for the vacancy have until 5 p.m. on June 22 to do so. The necessary papers may be obtained from Mrs. George Mayberry at the Community Council office.

YEAR BOOKS STILL AVAILABLE

Several copies of the 1954 Burroughs yearbook are still available. They may be obtained by contacting the school, phone 72921. The remaining copies are unbound and may be purchased for \$2.
