

JOINT FAREWELL PARTY—Treva Lee Collins (right), retiring manager of the Station's Day Nursery, and Ethel Drury, Nursery teacher, are honored at a joint farewell party as they both retire after 10 years of local service.

Mrs. Collins Retires from Kid's Nursery With 10-Yr. Pin; Letter of Commendation

Last Monday, Mrs. Treva Lee Collins retired after 10 years of work at the Children's Nursery. A letter of commendation that Mrs. Collins received from Captain Ashworth reads:

"The nursery is a very vital part of the Station's day-to-day operation allowing an average of 50 working mothers to work on the Station. The successful operation of the children's nursery for the last ten years can be attributed in a large part to the work you have done in managing and operating it. It seems fitting that any person who has worked so closely to the Station allowing others to do the Station's work should at least, unofficially, be considered a part of the Station's work force."

"Therefore it is my privilege to write this letter of commendation to you and to award you an honorary Station ten-year pin. I am sure the parents of the children who have been in the nursery under your supervision will join with me to thank you for the work that you have done. Congratulations."

The parents did in fact join in thanking Mrs. Collins for her work when more than one hundred attended a surprise party at the Nursery last Thursday to say goodbye.

Of her years of work in the Nursery and on the Station, Mrs. Collins says that NOTS mothers and fathers are the "finest and most cooperative parents she has ever met."

Originally from Virginia, Mrs. Collins and her husband Tom, a Public Works employee, came to the Station in April of 1947. In 1949 Mrs. Collins took over management of the Nursery and she has been at it ever since. On weekends, the Collins have spent their time deer hunting in Utah, and fishing near Bishop where they have a trailer.

When husband Tom retires at the end of this year, the Collins are going to travel for a year or two before settling down in their home in Long Beach. They will have been married forty years in November.

The Station in April of 1947. In 1949, the Nursery will be closed for maintenance repairs and redecoration during the entire month of July.

Rev. Bunce ...

(Continued from Page 1)

Drew Theological Seminary. He has been serving as Associate Pastor and Minister to Youth at the Methodist Church in Woodbridge, New Jersey, and as coordinator of audio-visual education for Drew Seminary in addition to his studies.

His summer experience has included church camping, YMCA recreational leadership, camping chaplaincy, and work in radio broadcasting. This is Rev. Bunce's second summer season as Minister of Christian Education at NOTS.

NATO Newsmen ...

Cdr. Selden May, officer-in-charge of Guided Missile Unit 61, fired the SIDEWINDER from an F9F "Cougar" jet, and it also let off a smoke puff at the point of interception near enough to the target aircraft to indicate a kill.

Captain Ashworth welcomed the visitors and introduced Dr. Ivar Highberg, Head of Test Department, who spoke on the TERRIER program. Dr. Frank Cartwright, Head of Air-to-Air Missile Division, Weapons Development Department, described SIDEWINDER development here at NOTS.

Sela A. Blaisdell Promoted to Ensign

Recently appointed for duty as a limited duty officer (electronics) was Ensign Sela A. Blaisdell. Blaisdell was appointed from an enlisted status of guided missileman first class. He will be detached to report to Newport, Rhode Island for the LDO indoctrination course commencing July 29 and upon completion will be assigned to the USS COLUMBUS (CA-74) for duty.

Originally from Grand Rapids, Michigan, Ensign Blaisdell enlisted in the Navy in June of 1943. He attended Machinist Mate School at Great Lakes, Submarine and Diesel School at New London, Conn., and Electronics Technician's "A" and "B" school at Treasure Island.

From 1948-51, Blaisdell was aboard the submarine USS DIODON which served in Korean waters. He reported to NOTS in 1955.

NEW ENSIGN—Sela A. Blaisdell (right) is congratulated by Lt. S. V. Bell, officer-in-charge of GMU-25, upon his appointment as Ensign (LDO) at a personnel inspection of the missile unit.

Chief Richmond Retires After 33-Year Service

Chief E. B. Richmond, ADC, former NAF Leading Chief, received word last week from BuPers that he would be retired from active service as of July 1, and placed in the Fleet Reserve. Richmond has completed, with his time served in the National Guard, 33 years and 4 months active and inactive service.

After completing basic training at Hampton Roads, Va. in 1927, Chief Richmond served aboard the USS WRIGHT and the LEXINGTON, while his shore stations included Pearl Harbor, Barber's Point, Santa Ana, and Guam. On December 3, 1954, he reported aboard NAF China Lake and has been here since.

Chief Richmond's future plans call for work here at NOTS in the Test Department and he and his wife, Dorothy, will continue living at 215-B Groves.

60 Navy Facilities Due to Close or Reduce in 1957

The Secretary of the Navy announced this week that the following installations and facilities are planned for closing-or reduction during the period July 1-December 31, 1957.

For Disestablishment: (completely discontinued).

Navy Purchasing Office, San Francisco, California.

Navy Regional Accounts Office, Charleston, S. C.

Navy Regional Accounts Office, Seattle, Wash.

Navy Regional Accounts Office, New Orleans, La.

Navy Medical and Dental Supply Depot, NSC, Oakland, Calif.

Electrical Fittings Inventory Control Division, Portsmouth, NSY.

Naval Supply Depot, Spokane, Wash.

Naval Supply Activities, Command, New York.

Naval Base and Command Headquarters, Mare Island, Calif.

Naval Port Control Office, New York.

Naval Direction Finder Station, Dupont, N. C.

Naval Air Reserve Facility, Birmingham, Ala.

Naval Air Facility, Elizabeth City, N. C.

Assistant Inspector Naval Materiel, Huntington, W. Va.

Assistant Inspector Naval Materiel, Providence, R. I.

Assistant Inspector Naval Materiel, Worcester, Mass.

Eliminate Recruiting Sub-Stations in order to reduce recruiting personnel by 100.

Deputy Commanders and Staffs Pacific and Atlantic ResFlts.

For Inactivation: (temporary close down; RIF).

Naval Ammunition Depot, New Orleans, La.

Naval Station, Coco Solo, C. Z.

U. S. Naval Hospital, Corona, Calif.

U. S. Naval Hospital, Mare Island, Calif.

Naval Station Command and Headquarters, Seattle, Wash.

For Maintenance and Partial Maintenance:

Naval Supply Depot, Scotia, N. Y.

Naval Aviation Supply Depot, Philadelphia, Pa.

Naval Ammunition Depot, Hastings, Neb.

Naval Ordnance Plant, Pocatello, Idaho.

For Reduced Operations:

Naval Ammunition Depot, McAlester, Okla.

Naval Supply Depot, Clearfield, Utah.

Naval Station, Kwajalein, M. I.

Naval Air Reserve Training by approximately 200 Naval personnel.

Naval Air Training by approximately 1430 Naval personnel.

Fleet Activities, SASEBO.

Five Naval Reserve Training Centers (Redesignated "Facilities").

Bureau of Naval Personnel Training Activities by approximately 2900 Naval personnel.

Naval Shipyards by approximately 2100 civilian personnel.

Buships Laboratories by approximately 25 civilian personnel.

Navy Shipbuilding Scheduling Activity: Philadelphia by approximately 90 civilian personnel.

Maags and Missions by twelve percent personnel reduction overall.

Subcomelm/Hq. Support Activities, Naples.

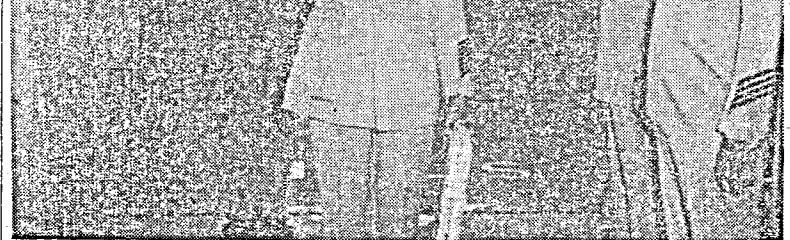

MSTS Atlantic, Pacific, Eastern Atlantic and Mediterranean and Western Pacific by approximately 40 Naval and 170 civilian.

Naval Air Station, Iwakuni, Japan.

Marine Corps Cold Weather Training Center, Bridgeport, Calif.

Marine Barracks, NAD, Hastings, Neb.

Marine Barracks, NAD, McAlester, Okla.

PIPED OVER THE SIDE—Side boys salute as E. B. Richmond, ADC, of Naval Air Facility retires, after 33 years of active and inactive naval service. Richmond plans to remain aboard and work in Test.

Public Works Transportation Center, Fourteenth ND.

District Public Works Office, Fifteenth ND.

Superintendent Shipbuilding, Baltimore, Md.

Industrial Manager, Ninth ND, Chicago Hqtrs.

Assistant Industrial Manager, Jacksonville, Fla.

Assistant Industrial Manager, Astoria, Ore.

Assistant Industrial Manager, San Diego, Calif.

Inspector Machinery, Lynn, Mass.

Inspector Machinery, Essington, Pa.

Inspector Machinery, Cleveland, Ohio.

Shipbuilding Liaison Office, France and Italy.

Daggett Annex, Marine Corps Supply Center, Barstow, Calif.

Lippencott Building, Marine Corps Supply Activity, Philadelphia, Pa.

U. S. Marine Corps Recruiting Station, Honolulu, T. H.

Mobile Ship Repair Unit Number One, Third Naval District.

For Inactivation: (temporary close down; RIF).

Naval Ammunition Depot, New Orleans, La.

Naval Station, Coco Solo, C. Z.

U. S. Naval Hospital, Corona, Calif.

U. S. Naval Hospital, Mare Island, Calif.

Naval Station Command and Headquarters, Seattle, Wash.

For Maintenance and Partial Maintenance:

Naval Supply Depot, Scotia, N. Y.

Naval Aviation Supply Depot, Philadelphia, Pa.

Naval Ammunition Depot, Hastings, Neb.

Naval Ordnance Plant, Pocatello, Idaho.

For Reduced Operations:

Naval Ammunition Depot, McAlester, Okla.

Naval Supply Depot, Clearfield, Utah.

Naval Station, Kwajalein, M. I.

Naval Air Reserve Training by approximately 200 Naval personnel.

Naval Air Training by approximately 1430 Naval personnel.

Fleet Activities, SASEBO.

Five Naval Reserve Training Centers (Redesignated "Facilities").

Bureau of Naval Personnel Training Activities by approximately 2900 Naval personnel.

Naval Shipyards by approximately 2100 civilian personnel.

Buships Laboratories by approximately 25 civilian personnel.

Navy Shipbuilding Scheduling Activity: Philadelphia by approximately 90 civilian personnel.

Maags and Missions by twelve percent personnel reduction overall.

Subcomelm/Hq. Support Activities, Naples.

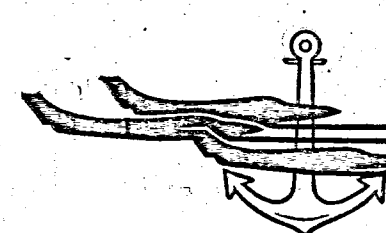

MSTS Atlantic, Pacific, Eastern Atlantic and Mediterranean and Western Pacific by approximately 40 Naval and 170 civilian.

Naval Air Station, Iwakuni, Japan.

International Geophysical Year Rocket Goes Up 80 Miles at Point Mugu

The Navy raised the curtain on the U.S. rocket program for the International Geophysical Year last Monday with the first of a series of 14 test firings off the southern California coast.

Marking the start of the IGY, the 18-month period during which scientists of 62 nations will join in exploring sky, seas and earth, the series is expected to last two to three months, the Navy said.

Dan rockets, combinations of the Deacon rocket and a Nike missile booster, will be fired from San Nicolas Island on the Naval Air Missile Test Center Range, Point Mugu, Calif.

Each of the research rockets will carry ultra-violet and x-ray detectors of measure radiation intensities from solar flares, the outbursts from the sun, near sun spots, that cause interference with short-wave and broadcast radio.

Designed to reach altitudes of 80 miles, the Dams will send data back to receiving stations to provide a variety of information, including what creates sudden solar flare disturbances, which cause a blanket of electrified atmosphere to cover the earth at altitudes above 50 miles.

Because flares reach peak brilliance without warning, Point Mugu has given scientists permission to fire rockets with no more than one minute range clearance, the Navy said.

The rocket fired Monday at Point Mugu hurtled at a speed of more than 3500 miles-per-hour to a height of 80 miles to penetrate the earth's ionosphere, the electrically charged layer 50 to 80 miles above the earth.

At its peak height, before it nosed over and fell into the ocean 35 miles away four minutes after launching, sensitive instruments in the rocket's nose transmitted vital information to a ground station.

Dr. Herbert Friedman, of the Washington Naval Research Laboratories, in charge of this Navy-IGY project, described himself as pleased with the shoot:

"The performance of the rocket was very good. The results were normal. We collected 75 per cent of the information we hoped to get. The ultra-violet signals sent back by the rocket looked weak. Transmission of the X-ray energy found in the ionosphere showed it to be normal."

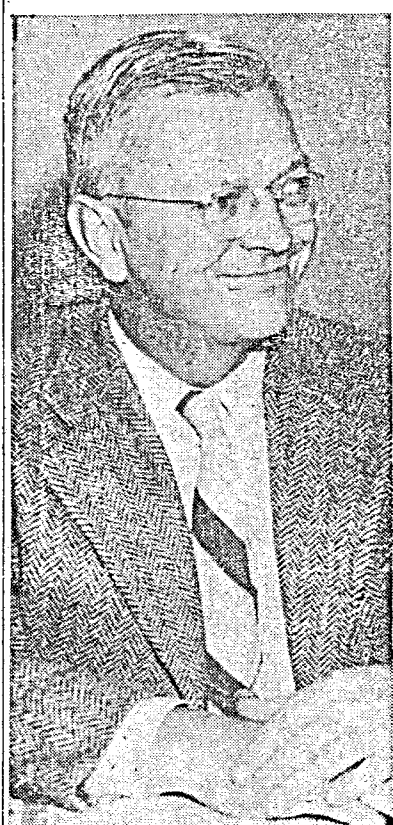

Dr. Friedman said the information telemetered back to the island by the rocket would serve as a baseline against which comparisons can be made from data collected by the 13 other rockets to be fired from Mugu in the next three

T. W. Boyd Named To 11ND Board

Thomas W. Boyd, Head, Transportation Division, Public Works Department, has been nominated by the Station Commander as a member of the Board of U. S. Civil Service Examiners, Eleventh Naval District (Northern Sector).

As a member of the Board of Examiners, Boyd will be the Sta-

Tom Boyd

tion's representative on policy matters, and will advise and render technical assistance in the performance of the Board's functions.

This Board of Examiners serves several naval activities in the northern sector of the Eleventh Naval District by announcing examinations and establishing registers of eligibles in Groups I, II, III, IVa, and IVb in sufficient time to meet the needs of these activities.

The Board offices are located at 1206 South Santee Street, Los Angeles, and the Executive Secretary is Harold Hobbs. This Board of Examiners is represented at NOTS

Elementary Schools' Summer Programs Start Monday, 8th

All phases of the Summer Development Program which is conducted by China Lake Elementary Schools will begin next Monday, July 8. Classes for the primary program, which includes those students who will be in kindergarten or the first, second or third grades next fall, will be held at Groves, Richmond, and Viewegh Schools.

Daily sessions will be from 8:30 to 11:30 a.m. Parents may send their children to the school which they feel is closest to their homes. All children from the Wherry tracts will attend Viewegh School, as transportation will be provided from the Wherry tracts to Viewegh.

Late registrants will be accepted at each of the schools on Monday. The minimum age requirement is the same as that for entrance in kindergarten in the fall—a child must be five years old on or before December 1, 1957.

Registration for the elective program, which is conducted for children who will be in grades 4 through 12 this fall, will begin at 9 a.m., Monday, July 8, in Burroughs Cafeteria. Classes will be in session on Tuesday, July 9. Remedial classes will also be conducted in the afternoon on Burroughs campus. Reading is scheduled at 12:30 to 1:30; arithmetic from 1:30 to 2:30; and spelling from 2:30 to 3:30. Students registered for the remedial classes will report to class on Monday afternoon, July 8.

Transportation will be provided for Wherry residents only. The tentative schedule is as follows:

Primary program—Pick-up points are Sandora and Dorado, 8 a.m.; Wherry housing office, 8:05 a.m.; Toro and Prospect, 8:10 a.m. Shuttle bus runs will be made between Wherry and Viewegh if traffic warrants. Shuttle runs would start at the Wherry housing office with a pick-up point at Toro and Prospect only. Return trips from Viewegh to Wherry will begin at 11:30 a.m.

Elective program—One run will be made in the morning to Burroughs for the elective program enrollees. Pick-up point will be at the Wherry housing office at 8:25 a.m. The return trip will leave Burroughs at 11:20 a.m. For the afternoon academic and elective program pupils, a pick-up will be made at 12:15 at the Wherry housing office. The return trip will leave Burroughs at 3:30 p.m.

Cdr. Leo Jacobson Completes 20 Years Of Reserve Service

Commander Leo M. Jacobson, USNR, was recently presented with the Naval Reserve Medal Bronze Star for completing 20 years service in the Naval Reserve.

The medal was presented by Cdr. Stephen H. Herzog, commanding officer of the Naval Reserve Ordnance Company 11-1, at an award ceremony in Michelson Lab on June 26. Cdr. Jacobson is the first member of the local company to receive this medal.

The awardee was first commissioned as an Ensign in June of 1934. Highlights of his Naval Reserve duty include active duty aboard the USS CALIFORNIA; Assistant Training Officer at Puget Sound Naval Shipyards; Commanding Officer of USS PC-600 (Patrol Craft) in the Aleutians; Executive Officer USS COTTLE (Attack Transport); Director of Training on the Staff of Potomac River Naval Command, Washington, D.C.; and Executive Officer of USS RENVILLE (Attack Transport).

On inactive duty since October 1954, Cdr. Jacobson has served as Training and Staff Officer of the local Reserve Company. He has also been principal of Richmond School during this time.

BRONZE MEDALIST—Cdr. Leo M. Jacobson, (left), USNR, is presented the Naval Reserve Medal Bronze star for completing 20 years of faithful service in the U. S. Naval Reserve, by Cdr. Stephen H. Herzog, USNR. Cdr. Jacobson is the first member of Naval Reserve Ordnance Company 11-1 to receive this medal.

WATCHEZ LE BIRDIE—A French camera crew, part of the NATO news group that visited the Station last week, gets ready to photograph the missile firings. Shown (l. to r.) are: Pierre Fromentin, Jacques Cuetis and Jean Reithberger with their Arriflex movie camera. NOTS missile might impressed the group very much.

NATO Reporters Impressed With NOTS Weapons Show

Amazing, was the word NATO's top eight news correspondents used to describe the spectacular SIDEWINDER and TERRIER guided missiles they observed at NOTS last Thursday.

In referring to this, the Navy's foremost rocket and missile research and development center, Pierre Fromentin, NATO radio and TV correspondent from France, said, "This place here, and the magnificent weapons you develop, they are amazing."

Renato Pachetti-Ciampi, Italian radio reporter commented, "Your place is so new, the people so young, and living in such peaceful surroundings; and yet you are creating such wonderful weapons for the defense of free men. It is truly remarkable."

Henry Sandos of Great Britain, director of the camera group, said, "What we have seen is intensely interesting to the people of the NATO countries. This NATO half of Europe by now is just becoming familiar with the Early Warning System. The problems you have solved here can be applied very effectively."

"Most NATO countries are not so well armed, or as well advanced as you people. England is the only one with missiles of any sort so far. You here have the know-how of defense as well as the weapons."

Jacques Curtis, Marc Nicolas, and Jean Reithberger of France, Wolfgang Broebel of Germany, and Andrew Miller-Jones of Great Britain completed the enthusiastic NATO group which is making a tour of U.S. installations as guests of the Continental Air Defense Command (CONAD).

The visitors saw two perfect test firings. The first, a TERRIER surface-to-air guided missile, was fired by the Marine Corps Guided Missile Test Unit and scored what would have been a hit on the F9F drone had it contained a warhead.

Rev. John H. Bunce Returns to NOTS

The Reverend John H. Bunce was honored with a Church Fellowship dinner held at the Richmond School last Sunday night. The dinner served a two-fold purpose in welcoming back Rev. Bunce to the community as Minister of Christian Education for the NOTS Community Church and to provide an opportunity for the young people and their parents to meet him.

Rev. John H. Bunce

Rev. Bunce graduated from Baldwin-Wallace with an A.B. degree in religious education and spent the summer serving as camping program director for YMCA at Canton, Ohio.

In the Fall of 1954 Bunce entered

WATER—Use It, But...

Public Works Department reports that during the hot spell in June, the Station was using water at a rate that equalled its ability to produce it; that is, there was no "safety factor."

It is not anticipated that there will be any immediate need for rationing. However, the careful cooperation of all Station residents will be necessary during the summer months.

By all means, use it; but don't waste it. Consider the following conservation measures:

- Irrigate your trees—not the street!
- Wash your car—but turn off the hose when not in use!
- Water your lawn—don't drown it!
- A leaky faucet can waste more than ten gallons of water a day—report it!
- If you can think of special ways to save water on the job—suggest them!

Geophysical...

(Continued from Page 1)

months. The Dan rocket was fired from a conventional Nike launcher elevated to 85 degrees and aimed in a southeasterly direction so that the Nike booster would fall away from the launching pad.

The booster detached itself at an elevation of one mile and fell on the beach about a mile from the launching pad. The Deacon rocket, free of the booster, coasted upward for about 13 seconds before its charge was ignited.

Together the two stage rocket weighed 1500 pounds and was 20 feet long. Of the total weight, the solid fuel propellant was 1200 pounds while the instruments weighed only 20 pounds.

Job Opportunities

Administrative Services Officer, GS-10. The incumbent will serve as assistant to the Administrative Officer in Public Works Department. For additional information, call Ann Carter, Ext. 72218.

NOTS Aids Desert Water Emergency In Randsburg

The Randsburg - Johannesburg water emergency that arose when the chief source of supply dropped 25% was solved when NOTS trucked in 15,000 gallons, June 29.

Public Health authorities declared the water shortage a state of emergency after the well was discovered producing only 75% of needed supply. Many Randsburg homes were completely without water, it was reported.

The Public Works Department here responded immediately to the call, and sent five truckloads of drinking water to this community, 25 miles south, in the Mojave Desert. It was felt this amount would sustain the area until private contractors would be able to produce a regular supply.

Captain G. H. Carrithers, Public Works Officer, stated that although the President must declare a disaster area, all Navy installations are authorized to give aid in case of a public emergency such as this Randsburg situation.

THE CLIPPERS—Fifth place inhabitants in the local softball league, the Clippers upset NAF last week for their biggest win of the season. Shown kneeling (l. to r.) are: J. Sims, T. Byrd, B. Rappuchi, W. Peck, H. Platzek. Standing: B. Holder, A. Celestine, R. Eldemiller, K. Rogers, J. Siebold, G. Davis.

Softball All-Star Team Drubbed by Pilot Plant

A good looking all-star team from the local softball league met the league-leading Pilot Plant last Friday night, but it turned into a rout with Coach Joe Striffler's Pilot Planters coming out on the long end of an 18-2 score.

Rock LaRocca started for the All-Stars who were ahead 2-1 up until the fourth inning when the Pilot Plant really landed on him. Leadoff batter Buddy Deffes punched a hit into center field with the bases loaded and two out to score three runs and break up the ball game. From there it turned into a rout.

The All-Star team was composed of Tom Meeks, VX-5, 1b; Don Gladden, MCGMTU, 2b; Harry Smith, NAF, 3b; Don Mitchell, VX-5, shortstop; Jerry Tiehel, VX-5, left field; Piper and Butler, Marine Barracks, center and right field; Rogers, GMU-61, catcher; and LaRocca, pitcher.

Boyd...

(Continued from Page 1)

by a Detached Representative.

Boyd was employed by General Tire and Rubber Company in Pasadena in 1945 and entered Civil Service when General Tire and Rubber Company was taken over by the Navy. He worked at the Pasadena facilities of NOTS until 1953 when he came to China Lake to head the Transportation Division. Boyd has been an active participant in the Station's Beneficial Suggestion Program and was given a Superior Accomplishment Award in 1956 for above-average sustained performance.

Vaughn Stops Pilot Plant for Test Unit; NAF Slips to Third as Clippers Win

"Chub" Vaughn of MCGMTU stopped the Pilot Plant on four hits Tuesday night as the second place Marines won their twelfth ballgame, 2-1.

Hank Green started for the losers but was replaced by Bobby Kochman after giving up two runs in the second inning. Autabee's hit drove in the first one for the Marines and Green walked in the second one which turned out to be the winning run. The brilliant Kochman stopped the winners on one hit the rest of the way.

Outstanding for MCGMTU, besides pitcher Vaughn, was outfielder Gilbertson, who made a fine running catch and throw in the fifth inning to stop a Pilot Plant rally, and then tripled to right of Kochman in the same inning.

Last week, the Clippers knocked off NAF, 10-5, to give the Marine Test Unit undisputed possession of second place. The first place Pilot Planters have a rough road ahead of them, having to meet MCGMTU two more times, and NAF and VX-5 once each before the season ends. All of the top four teams are playing fine ball and any one of them is capable of walking off with first place honors.

The Clippers continue to hang on to fifth place after winning two last week, while the Marine Barracks and Engineers are fighting it out for sixth. GMU-61 and the CPO Club are destined to end up right where they are now in the standings—eighth and ninth. The hapless Chiefs had at least one moment of glory when they upended MCGMTU back on June 6.

As for the question of who will win it? Don't bet against the Pilot Plant.

Mutilation of Passes Is Federal Offense

Several cases have been reported by the Station Security Officer of Station passes having been altered or mutilated by individuals to whom passes have been issued.

These passes are the property of the U.S. Government, therefore, they are not to be altered, mutilated, photographed, duplicated or tampered with in any way. Persons doing so may be subject to prosecution by the U.S. Government.

The printing on the reverse side of each pass states that passes are issued to specific individuals, for a definite official use. Therefore, the loan or use by any other person than the individual recipient for same in the Security Office is defined as misuse for which the responsible person may be penalized. Passes are not to be used as an identification media in conducting personal business and are valid for use only as described in NOTS Instruction 5510.2C of May 8, 1957.

Failure to protect these passes will result in a revocation of Station privileges and may constitute a violation of a Federal statute.

There's no wholly satisfactory substitute for brains, but silence does pretty well.

League Standings

(Through Tuesday)
Little League

| | Won | Lost |

Babe Ruth All-Stars To Play Lancaster

At a meeting held by directors, managers and coaches of the Babe Ruth League last week, the 1957 Babe Ruth League All-Star team was selected for the approaching playoffs.

The team will meet Lancaster's All-Stars in their first playoff game on Sunday, July 14, at 5 p.m. on Schoeffel Field. The boys selected from each team are: Cubs—Dallin Childs, John Dragovich, Richard Cashore, Robert Koehler, Buddy Fisher and Gordon Crenshaw; Reds—Benny Sturgeon, Ron Melia, Dennis Carson and Dennis Sorge; Cards—David Martin, Gary Maxwell, David Taylor and Marvin Jeffris; Indians—John Pinney.

The Cubs are still leading the Babe Ruth League with eight wins and no losses. They have been tied once by the second place Reds, who have won five and lost two. The Cards moved into third place this week by winning their second game. The Indians remain in fourth.

Station Library Has Language Records

Are you planning to take a trip to France, Germany, Spain, Mexico or Italy? If so, learn the language of the country you plan to visit by borrowing living language records now available at the Station Library. The required \$10 deposit on each set will be refunded when the records are returned to the library.

What's Doing IN RECREATION

By Madge Hucek

If you haven't heard the news—read it now! We finally located the guy all you teenagers have been screaming for—none other than the fabulous "JOE HOUSTON" and his band.

Our next Teenage Dance is Thursday night, July 11, and he will be there to play your favorite numbers. The dance will start at 8 p.m. at the Community Center so be there and win one of those trophies we are giving away each Thursday night for the best dance couple. Marietta Martinez, and Herbie Childers, were the winners of the trophy last Thursday. These dances are for "under 21" only.

Pre-Teens Party

All you guys and gals between the ages of 10 and 13 save next Tuesday night for a swim and watermelon party at the Station Swimming Pool from 7 to 9 p.m. Entry must be made through the patio since the pool will be closed to the general public that night and open just for you! It suddenly dawned on us that nothing was being done to entertain you "younger set" and we can't have that, can we? Our parents who would be nice enough to volunteer in chaperoning and slicing watermelon should call us on Ext. 72017 or just be there at 7 p.m., July 9.

Women's Golf Association

The Women's Golf Association will meet in the Clubhouse at the Golf Course on Monday night, July 8, at 8 p.m. All women golfers are invited to attend and join this group.

Hollywood Bowl Discount Tickets

We have special employee discount tickets for the Hollywood Bowl series starting July 9 thru August 31 featuring "Symphonies Under The Stars" on Tuesday and Thursday nights. Personality nights are Fridays with such stars as "at King" Cole, and Saturday nights will feature "Pops" concerts.

Miss Universe Pageant

International beauties, with the right measurements, and beauty queens from 48 states will vie for the coveted title of "Miss Universe" next Thursday and Friday, July 11 and 12, at Long Beach. If you plan to be in that area next week you shouldn't miss this colorful event with each queen riding on a float representing her nation or state. Worth looking at if you like beautiful bathing beauties. (Who doesn't?)

Station 'Club List' Now Being Revised

Clubs and organizations that are not listed on the Station's "Club and Organization List" compiled by the Community Services Branch are requested to notify Marguerite A. McBride, Code 2016, Ext. 72239, Room 10, Housing Office Building.

A new list is being compiled for distribution on or about September 1. All new clubs should be included, in addition to newly-elected club presidents and secretaries, meeting places and dates.

Questionnaires have been mailed to organizations presently listed and these should be completed and returned as soon as possible.

Beginners Folk Dance Class Starts This Week

A free 8-week course in beginners folk dancing is being conducted every Wednesday evening from 7:30 to 8:30 in the Community Center starting July 3 until August 28. You are not required to bring partners. Regular folk dancing will follow the beginners class every Wednesday.

TYPOGRAPHICAL ERROR

The typographical error is a slippery thing and sly. You can hunt it 'til you're dizzy but it somehow will get by. 'Til the forms are off the presses it is strange how still it keeps; It slips into a corner and it never stirs or peeps. That typographical error, too small for human eyes 'Till the ink is on the paper—then it grows to mountain size. The boss he starts with horror, then he grabs his hair and groans. The copy reader drops head on hands and moans. The remainder of the issue may be as clean as clean can be. But the typographical error is the only thing you see.

News from Pasadena

Ships At LB Open For Visit

Ships in the Los Angeles-Long Beach area holding open house during July are listed below:

| Ship | July |
|---|-------|
| USS ROCHESTER, Heavy Cruiser | 6-7 |
| USS CIMARRON, Fuel Oil Tanker | 13-14 |
| USS CARTER HALL, Dock Landing Ship | 20-21 |
| USS HERBERT J. THOMAS, Destroyer, and USS DEKALB COUNTY, Landing Ship | 27-28 |

The ships will be moored on the weekends indicated above at a Municipal Pier in the Long Beach area. The exact location may be obtained on Wednesday preceding the weekend concerned by calling the Ship's Information Officer, TE 2-7533.

Visiting hours are 1-4 p.m. on Saturday and Sunday. Photography is not permitted aboard any of the ships.

For a complete listing of ships holding open house during the July-September quarter, see the notice posted on the bulletin board located on the north wall of Building 5.

Officers Complete Active Duty Tour

Recently completing two weeks of active duty at NOTS Pasadena are naval reserve officers Cdr. Leslie E. Corbitt, an engineer with Southern California Gas Company, Pasadena, and Lt. John S. Curley who is with the Pacific Telegraph and Telephone Company, Los Angeles.

The officers spent their first week of duty at NOTS in various divisions of the Underwater Ordnance Department receiving an introduction to many phases of the station's work. During the second week, they spent two days at China Lake and the balance of the week in the Engineering Department at Pasadena.

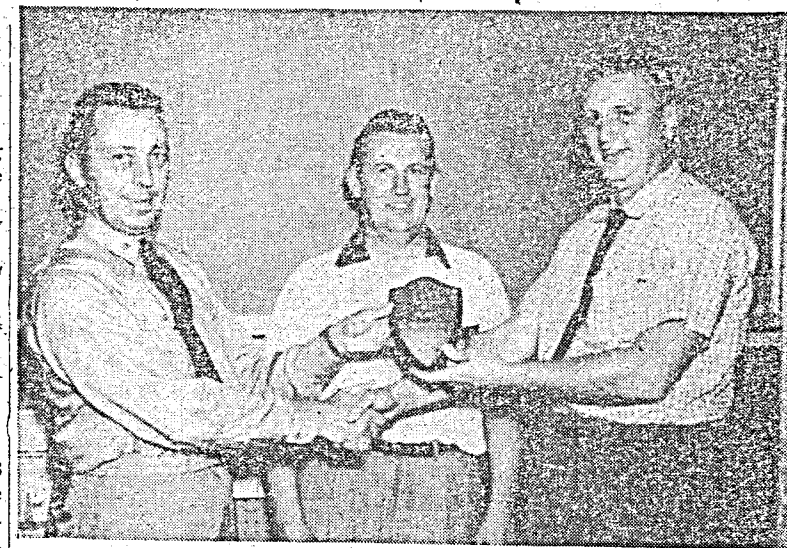

Annex Vacancies

Mechanical and/or Electrical Engineer, GS-9 or 11. Position is located in Engineering Department, Industrial Division. Incumbent will be part of an engineering team providing technical assistance to BuOrd on NOTS-developed weapons in fleet use. Primary duties will consist of investigating reports from using activities for purposes of improving weapon capability in the fleet, analyzing these reports to define problem areas, and providing solutions or recommending courses of action.

Contact Dorothy Seaman, Extension 103.

BENNY SUGG—Two Annex employees receive a joint Beneficial Suggestion award check of \$140 from their respective supervisors (extreme left and right) CHELITECH G. E. Wilkes, Head, Command Administration Division, and Ed Jones, Head, planning and administrative staff, UOD. Recipients of the award are Marian Goodman (second from left), a clerk-stenographer in the office of the Army Ordnance representative at NOTS, and Betty Halminski, a clerk-typist in the budget branch of P801. The award was based on monetary savings of \$4600 resulting from their suggestion of a template used to trace the word "Confidential" in proper size onto reproducible material thereby complying with regulations and saving many hours of hand-stamping individual pages of material.

NOTS THE WINNER—Cdr. J. J. O'Brien (left), on behalf of the NOTS Golf League, accepts a plaque declaring NOTS the winner from Bill Ball (right), captain of the Clary Corporation Golf Team. Also pictured is John Trzcinka (center), secretary of the NOTS Golf League. The NOTS team defeated Clary in two matches winning the first by 9½-8½ and the second by 9½-5½.

SUPERIOR ACCOMPLISHMENT—Employees of the Engineering Department, Industrial Division, are awarded certificates and checks by K. H. Booty (second from left), head of Engineering Department. Awardees (l. to r.) are: E. Maxine Talbot, Louise C. Westerman, and Edward B. Thomas.

Awards Certificates, Checks Presented To 3 Engineering Department Employees

At an award ceremony held recently in the Industrial Division, Engineering Department, K. H. Booty, head of the department, presented certificates and cash awards to three division employees—Louise C. Westerman and E. Maxine Talbot for outstanding performance and superior accomplishment and Edward B. Thomas for superior accomplishment.

Recipient of the double award and a check for \$200 was Louise C. Westerman, a clerk-typist in the industrial planning branch. The award was based on the increasing value of Mrs. Westerman's services and her broadening knowledge of production processes and techniques.

Also receiving the double award and a check for \$100 was E. Maxine Talbot, a clerk-typist in the engineering branch. In recommending the award for Mrs. Talbot, her supervisor, Willard Nary, praised the quality of her work, her initiative, soundness of judgement, quantity of work, and exceptional reliability, making it possible for him to place a great deal of responsibility on her.

Edward B. Thomas, an ordnance inspector (electronics) in the source inspection branch, received a superior accomplishment award accompanied by a check for \$200 for his above-average performance of duties on contract work, inspection procedures, production problems on Sidsunder, and for his excellent liaison work. The award covered the period July 1956-March 1957.

New Employees

UOD—Howard Eyerly, physicist, GS-5; Raymond A. Brooks, physicist, GS-5; Tom McKenney, mathematician, GS-5; Katherine Atkins, mathematics aid, GS-5; and George K. Jennings, electronics mechanic, step 2.

Oops... We Goofed

In last week's issue we pulled two errors. First—we failed to catch the transposition of lines under the UOD Projects Tour picture. Second—we identified the one column picture of LCDr. William H. Robinson, Jr. as that of LCDr. R. C. Douglas. We offer our apologies. (Ed.)

BENNY SUGG AWARDEES—Employees of Personnel Department receive awards for submitting good beneficial suggestions. Recipients (l. to r.) are: Ashley Hallett, \$25; John E. Pike, \$10; and Alice Day, \$20. Vaughn Adamson (extreme right) Head, Personnel Operations Division, made the presentation.
