

Housing Policy...

(Continued from Page 1)

ed for single employees in a one-bedroom. No children admitted under high school age.

No-bedroom old apartments will be assigned to the following priority groups: first, GS-10, Quartermen and up, single or married; second, GS-9, Leadingmen, Progressmen, Planners and Estimators (or other Group IVA equivalent grade), married or single; third, GS-5 and 7 married Professionals; and fourth, all others.

Large trailers will be assigned according to the following priority groups: first, GS-10, Quartermen and up, married or single; second, GS-5 and 7 Professionals, GS-9, Leadingmen, Progressmen, Planners and Estimators (or other Group IVA equivalent grade), married; third, critical list other than above, married; fourth, all others, married.

Small trailers will be assigned according to the following priority groups: first, GS-9 and up (may be committed to new hires); second, GS-5 and 7 Professionals, GS-9, Leadingmen, Progressmen, Planners and Estimators (or other Group IVA equivalent grade), married; third, critical list other than above, married; fourth, all others, married.

New Dorms will be assigned to the following priority groups: first, GS-10, Quartermen and up; second, GS-5 and 7 Professionals, all GS-9's; and third, all others.

BOO's will be assigned to GS-9's, Leadingmen and up.

Old Dorms will be assigned according to length of service.

Dorms 5, 6, and 7 will be assigned to Jr. Professionals GS-5 and 7. The latter have priority on single rooms.

Trailer spaces will be assigned according to length of service.

Eligibility for Bedrooms

Eligibility for number of bedrooms is based on the following requirements:

0-bedroom: single or married-as indicated under assignment priorities.

1-bedroom: family of 2 except as noted on the 1-bedroom motel priority.

2-bedroom: all couples except where indicated under assignment priorities.

3-bedroom: family of four or more.

* The current critical list, which is subject to change, presently includes employees in the following occupations: Jr. Professionals, GS-5 and above; Draftsmen, GS-5 and above; Engineering Aid (survey), GS-5 and above; Illustrators (technical), GS-5 and above; Tab Equipment Supervisors, GS-5 and above; Cable Splicer, Cable Splicer (Communications); Central Office Repairman; Electrician (Lineman); Electrician (Lineman Communications); Electrician (Telephone); Electronics Mechanic (per diem); and Photographer (Motion Picture) GS-7 and above.

NAVY RELIEF GETS \$300—Mary Lou Gott (left) 1957-58 Thrift Shop Chairman presents Chaplain J. D. Hester a \$300 check for Navy Relief. Other officers witnessing the presentation (l. to r.) are: Virginia Miller, 1958-59 chairman; and Loretta May, 1957-58 co-chairman.

Coming Events

ASPA Dinner Meeting

The local chapter of the American Society for Public Administration will feature Dr. Edwin N. Garland, Professor of Philosophy at Reed College, Portland, Oregon at their August 5 dinner meeting at 6:30 p.m.

Dr. Garland, a summer consultant with the Weapons Planning Group, will speak on "Perspectives on the Organizational Revolution." He will discuss the problems of leadership and the recruiting of individuals for leadership in organizations today.

Reservations for the dinner will be taken by W. H. Ashley, Ext. 72691, or L. M. Jackson, Ext. 71592. Non-members of ASPA may attend the meeting.

Thrift Shop Hours Change

Beginning this month, the Thrift Shop will be open on Tuesdays from 9 a.m. to 11 a.m. and on Thursdays from 7 p.m. to 9 p.m.

The Thrift Shop is operated by the Women's Auxiliary of the Commissioned Officers' Mess. It is staffed by volunteer workers.

Merchandise handled by the Thrift Shop includes clothing and household articles which are donated by members of the community.

All proceeds from the shop go to local charities.

China Lake Players Meet

The China Lake Players will hold a general meeting Monday, August 11, at 8 p.m. in the former Red Cross Hut on Halsey Ave. A new production for the fall season will be chosen and business arrangements for the forthcoming production "The Mousetrap" will be discussed.

All members of the Players are urged to attend to help in the selection. Persons interested in the activities of the drama group are invited to attend.

The Players have recently received their charter from the state as a non-profit organization. The officers of the group who will serve as directors are: Ed Romero, R. G. Selfridge, Mary C. Wickenden, and Ruth Rekosh.

Mr. Whitney Camping Trip

An annual overnight camping trip to the summit of Mt. Whitney, sponsored by Codes 40 and 45, is planned for summer employees and Junior Professionals at NOTS for Saturday and Sunday, August 9 and 10. Camping equipment will be required.

For additional information, interested persons should call John Peemster, Ext. 72823, or Bob Kinzie, Ext. 9210.

Job Opportunities

Clerk (Stenographer) GS-4. Incumbent will administer NOTS liaison calls. Other clerical duties are included in this position. Call Ext. 72876 for details.

Clerk (DMT) GS-3. General duties will be in liaison work between military officers and civilian personnel. Call Ext. 72876 for details.

Regulations Require Dogs Be Inoculated

For your protection and the protection of your family and neighbors, Kern County Ordinances 3222 and 3223 require that your dog be vaccinated against rabies and licensed each year.

Dr. G. L. Dayman, Kern County Public Health Veterinarian states that if you have not already vaccinated and licensed your dog, you are in violation. Violations are being given to these offenders by the Rabies Control Officers and if not honored, are then turned over to the District Attorney's office for further action.

\$500 Fine for Violation

Failure to vaccinate and license your animal is considered a misdemeanor and is punishable by a fine not to exceed \$500, or six months in jail, or both.

CAP Visitor...

(Continued from Page 1)

has forgotten you, but let me assure you we are quite aware of the work that you are doing."

The Colonel continued, "You in the field make the Civil Air Patrol. Each individual and the duty he or she performs adds to the overall team work of the organization. The CAP exists for only one purpose which is to carry out assignments designated by the Air Force and the extension of aviation education."

In conclusion Col. Ashlock commented, "My visit with you has been much too brief, and I hope to return at a later date to spend more time. In fact we hope to build up our strength in the desert area by encouraging the formation of Squadrons at Rosamond and Lancaster." "I hope to see many of you at the August encampment at Mather Air Force Base," the Colonel said in referring to the forthcoming summer encampment for the local CAP Cadets.

The Colonel and his inspection party departed from the Naval Air Facility field at 3:15 p.m. to fly to Bishop to check on the progress of an Air Rescue Search being conducted by the Bishop Squadron for a downed pilot.

All Navy Talent Contest Entrants

FOURTH PLACE WINNER—Saul Kaufman, PN2, VX-5 pantomime artist, receives a certificate from Capt. W. W. Hollister for placing fourth among the top ten in the 11ND finals of the All Navy Talent Contest. This is the second nomination for All-Navy consideration in three years for the "man with the rubber face."

HONORABLE MENTION—"The Pastels," dance combo, receive their Honorable Mention certificate from Capt. W. W. Hollister (center) earned in the 11ND All Navy Talent Contest held in San Diego last month. Contestants (l. to r.) are: John Watkins, SN, VX-5; Sid Montgomery, AD3, NAF; Phillip Dobos, AM2, NAF; and Boyd Watkins, SN, VX-5.

AOD AWARDEES—Adele Crawford (center) of Aviation Ordnance Dept. receives \$100 for Sustained Superior Performance. Holding awards of \$50 each were presented to Donald H. Wheeler (left) for his invention "Settable Magnetic Integrator," and William H. Woodworth for his "Triangular and Saw-Tooth Voltage Generators Using Magnetized Amplifiers." Both inventions were submitted to the local Patent Office and approved by the Office of Naval Research.

Story of Holders of Navy Cross May Be Shown on TV

Tentative approval has been granted by the Navy and Department of Defense for the production of a filmed half-hour television series entitled "Navy Cross." The series will dramatically portray the action contributing to the awarding of the Navy Cross.

Interim cooperation is being extended subject to the final acceptance of the pilot film. Every effort will be made in the review of scripts to preserve the dignity and honor of the individuals and the U. S. Navy; also to assure technical accuracy.

Recipients of the Navy Cross are being approached by Stan Smith, Inc., offering to purchase the television rights to their stories. Any questions pertaining to these rights to a given story are to be resolved between the producer and the individual concerned.

Summer Employment Program Nears One Hundred Personnel

Nearly 100 faculty members, graduate students, and undergraduates from 43 schools located in 17 states demonstrate the popularity of the Summer Employment Program at China Lake and Pasadena. These employees were selected from approximately 350 applicants, according to R. C. Nelligan, Head, Recruitment Branch, Personnel Department.

California leads the parade of states with 51 summer employees while Missouri comes in second with 9, and Oregon follows with 8 representatives. The University of California at Berkeley has the most representation with 10 employees, while the California Institute of Technology claims 9, and the Missouri School of Mines shows 8.

The following is a list of summer employees, the departments to which they have been assigned, their technical fields and schools:

NAME	FIELD	SCHOOL
Brettenstein, Frank	Photo.	Brig. Young U.
Bullis, William R.	E.E.	Ore. St. Col.
Devereaux, Harry L.	E.E.	Col Poly
Gosselin, Ernest J.	M.E.	Bakersfield Col.

Register by August 10

Benefits of Medical Group Plan Stated

Following group discussions with Station employees about the new group health insurance program offered by the Public Employees Service Association, it was announced by the insurance consultants that there exists some misunderstanding about the benefits of the plan.

First, the new plan differs from last year's plan in that the deductible amount is not paid out by the insured before he receives benefits. The new plan pays benefits from the first dollar of expense up to scheduled benefit amounts. Then, if these benefits are not enough to cover the expenses, the member then pays the next \$100 of expenses after which all covered expenses go on the major medical expense benefit of 75 per cent up to \$5,000 per year per person.

The basic scheduled benefits repeat each time you go to the hospital on a new disability. The deductible, however, is on a "per year" basis, so there is actually a broad program of benefits. To summarize, the member receives first dollar benefits, then the deductible, and then major medical up to \$5,000 per year. All benefits are for each member of the family except the \$50 indemnity while hospitalized. This is a benefit for the employee only, not his dependents.

General acceptance of the new plan has been gratifying and when the enrollment reaches 75 per cent of the eligible employees, pre-existing conditions will also be covered.

For the benefit of employees over several medical plans are available for discussion with the insurance consultants during their stay.

Persons who have not signed up for the new plan are reminded to do so before the old coverage ends July 31, 1958. No physical examination is required, however, the application form must be filled out before the deadline.

Insurance representatives will be available daily for consultation in the insurance office in Room 10, Housing Office Building.

'Operation Minimize' Cancelled

All restrictions on personal long distance telephone calls have been removed with the cancellation of "Operation Minimize."

In the event of another emergency, it may again be necessary to drastically reduce personal long distance telephone calls.

Significant Changes Effectuated In New Housing Assignment Policy

Several major changes in the Station's civilian housing assignment policy will be reflected in the next waiting list to be published in October, according to C. J. Fallgatter, Housing Manager. New application cards, with instructions, being distributed with today's pay checks will cancel all previous applications.

Under the revised policy, the new applications must be made by September 1 to appear on the October housing waiting list. March 1 will be the deadline for the April list.

Basic Policy

Most significant changes in assignment procedures will be:

- Applicants may apply for only two types of housing, instead of all types for which they are eligible.
- The housing list will be published every six months, instead of quarterly, on April 1 and October 1 of each year.
- Persons assigned family housing from a waiting list or committed adequate housing upon hire (trailers excluded) will be removed from all lists and may not reapply for another unit until one year from date of assignment.
- No moves will be permitted between like units of the same bedroom size.

Assignment Priorities

All SOQ, SSO, MOQ, and JOQ hill houses will be assigned by the Station Commander and the Technical Director.

Wasp Circle Duplexes, Hill Duplexes, Old Duplexes, Normac Duplexes, two-bedroom Normacs, two-bedroom Card St. apartments, and two-bedroom old apartments will be assigned according to the following priority: first, GS-14 and up; second, GS-13; third, GS-10, Quartermen and up; fourth, GS-9, Leadingmen, Progressmen, Planners and Estimators (or other Group IVA equivalent grade); and fifth, all others.

Wherry housing will be assigned according to the following priority: first, GS-9, Leadingmen, Progressmen, Planners and Estimators and up; second, critical list; and third, all others.

Three-bedroom Normacs and old apartments; and 2 and 3-bedroom Hawthornes will be assigned according to length of service.

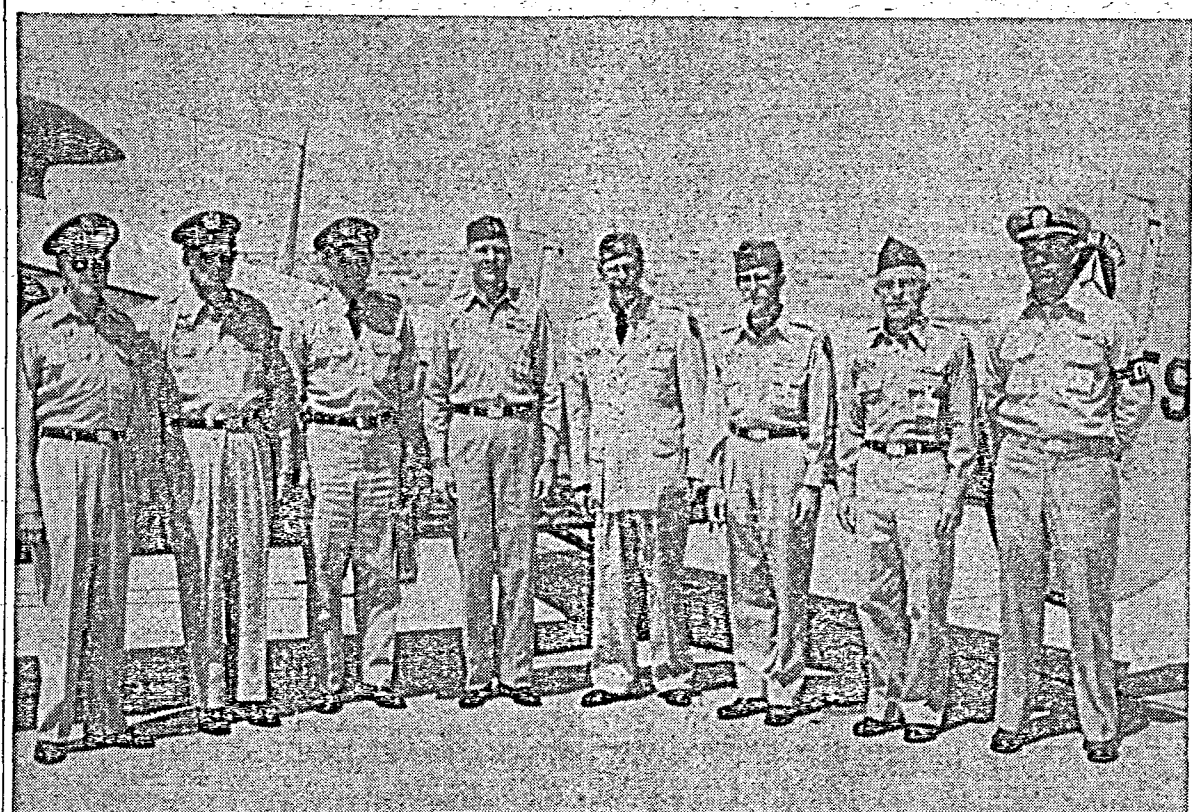

One-bedroom Duplexes, Normacs, Hawthornes, and old apartments will be assigned to two-member families in the following priority: first, GS-10, Quartermen and up; second, GS-5 and 7 Professionals, GS-9, Leadingmen, Progressmen, Planners and Estimators (and other Group IVA equivalent grade); and third, all others.

No-bedroom and one-bedroom motels will be assigned to the following priority groups: first, GS-14; second, GS-13; third, GS-10, Quartermen and up, single or married; and fourth, GS-9, Leadingmen, Progressmen, Planners and Estimators, single or married; however, double occupancy required.

Increases are also effective on specified second class, transient, controlled circulation, third class merchandise and catalogs, and fourth class books.

Second and third class rates for second and third class mail, including bulk and newspaper mailing rates will become effective on January 1, 1959, with further increases due on January 1, 1960, and January 1, 1961.

(Continued on Page 4)

CAP VISITORS—Local CAP officers greet Col. C. L. Ashlock, California CAP Wing Commander, on arrival at NAF last Sunday. Shown (l. to r.) are: Major F. L. Richards, Commander, Sq. 84; 2nd Lt. W. O. Hamilton, Lt. Col. Hosmer Auger, 2nd Lt. M. T. Tyler, Col. Ashlock, 1st Lt. P. H. Miller, Commander, Sq. 82; 2nd Lt. E. J. Stassart, and Lt. (jg) Arnold Schmidt, USN, NAF Officer-of-the-day.

CAP Commander Visits Local Groups

CAP Wing Commander Col. C. L. Ashlock made a three hour visit to the Naval Ordnance Test Station last Sunday for the purpose of inspecting the China Lake CAP Squadron 84 and the Inyokern CAP Composite Squadron 82.

Arriving at the Air Field of the Naval Air Facility at 11:15 a.m. he was accorded full military honors by a Color Guard and Honor Flight which consisted of 14 CAP Cadets from the China Lake and Inyokern Squadrons.

After inspection of the Honor Flight at NAF the Colonel was whisked by staff car to the Community Center Plaza where he and his Executive Officer Col. Hosmer Auger conducted a formal inspection of the China Lake Cadet Squadron 84.

On completion of the inspection the Senior Officers of Squadron 82 and 84 and the visitors had lunch in the Community Center dining room.

Following lunch the inspection party accompanied by Squadron 82 and 84 Officers drove to the Inyokern airport for an inspection of the Inyokern CAP Composite Squadron 82.

At Squadron 82 the Colonel and his party viewed a color film on Air and Rescue which had been prepared by personnel of Squadron 82, following which the Colonel addressed members of the Squadron. "All members of Squadron 82 and Squadron 84 are to be congratulated on the high proficiency achieved in carrying out the work and goals of the CAP," he said. "The military attitude displayed upon my arrival was most gratifying."

"You can justly be proud of being a part of the largest Wing in the nation which consists of some 110 Squadrons with over 1000 senior members. Some of you, because of your isolation, may from time to time think that Wing Headquarters is most gratifying."

(Continued on Page 4)

Polio Shots for Military Given Here Monthly

All military personnel and dependents, age six months and over, are reminded by Captain H. L. Anderson, Medical Officer, that a routine monthly schedule for voluntary inoculations for immunization of poliomyelitis is conducted on the first Tuesday of each month from 3 to 4 p.m. in the Station Hospital. Appointments are not necessary.

Poliomyelitis immunization shots consists of three inoculations as follows: a second dose is given four to six weeks after the first shot; and a third dose is given seven to nine months after the second shot.

Statistics show that individuals who have received the three inoculations rarely contract Paralytic Poliomyelitis. They are safe and usually produce no painful "after effects." Shots can prevent years of suffering by preventing Poliomyelitis, and the Medical Officer recommends and encourages all personnel under the age of forty to take advantage of these inoculations.

It is especially important that personnel in the following categories be inoculated:

- All children six months of age and over.
- Pregnant women.
- Families who may receive orders for transfer, especially overseas.

The Bureau of Medicine and Surgery has recently made it mandatory for military personnel and dependents to have their initial shot before leaving the United States.

Due to the disabling results to personnel who contract Poliomyelitis, the benefits of these inoculations cannot be calculated. Be safe, and report to the Station Hospital the first Tuesday of each month for your shots.

NEW MARINE OinC—Major Louis Baeriswyl, USMC (left) relieves Capt. John H. Miller as Officer in Charge of the Marine Corps Guided Missile Test Unit. Capt. Miller has been the OinC since Major B. A. Rushlow was detached on June 7. Major Baeriswyl reports from the NROTC Unit, Illinois Institute of Technology. This is his second tour of duty at NOTS.

NOTS Donates \$1,520 To Crusade for Freedom

A recent announcement from the Western Regional Office of Crusade for Freedom, Inc., reported that, according to the figures received from the Security First National Bank of Los Angeles, \$1,520.17 has been received from the Naval Ordnance Test Station.

This is a result of the fund drive for CARE and Crusade for Freedom which was conducted here last February.

A fuel-air combustion starter for jet planes, developing 340 hp, can crank an engine up to starting speed in three and one half seconds.

Supervisors Ass'n. Installs Officers

Officers of the Supervisors Association, Local No. 28, were installed by past-president C. V. (Chuck) Bradley on July 12 at a banquet meeting held in the Supervisor's Hut.

New officers installed for the coming year are: Sam Treat, President; Augie Schaefer, Vice-President; Guy Porter, Secretary; Larry Johnson, Treasurer; Cheever Evans, Sergeant-at-Arms; Pete Morin, Historian; Floyd Maxwell, Manny Turse and Jim Cashore, Directors for three, two and one years, respectively.

HOUSING MANAGER AWARDED—Capt. G. J. Anderson, Station Executive Officer (left), presents a \$200 Superior Performance Award to Calvin J. Fallgatter, Housing Manager, for meeting the unusual demands and additional higher level duties on his own initiative in the absence of a military housing officer during the past year. In addition, Fallgatter has had to assume almost complete authority in the civilian housing management in the absence of a Community Manager's Assistant.

Superintendent's Notes

By DR. EARL MURRAY, Superintendent of China Lake Schools

The National Council of Teachers of Mathematics has taken a stand on crash programs, on the universal need for opportunity to study mathematics, and on the guidance responsibilities of mathematics teachers.

The very nature of mathematics education makes it impossible to solve our present problems by the application of crash programs.

The science of mathematics requires a logical structure both within itself and in its relation to other fields of study. The National Council of Teachers of Mathematics has always given consideration to a continuing program with long-range planning.

"Crash programs tend to throw relationships out of balance. People often consider them to be temporary. Such programs do not make a permanent contribution. In some instances the ultimate effect of crash programs is the dispersion of effort, the distortion of emphasis, and the retardation of progress."

"Crash" programs, as generally carried out, are narrow and provide only for small groups. They usually consist of acceleration and omission with no consideration given to the fundamental principles which brought about the need for change. Change in itself does not assure improvement. Crash programs do not permit the steps necessary for lasting progress.

"Every pupil in the schools should have the opportunity to study mathematics at a level which both challenges and permits some measure of success. For some this means that special classes, special sections of classes, or individual study programs will need to be provided. In past years the high-ability group has been neglected. Recently this group has been recognized, and many are emphasizing the importance of programs for the gifted. This is important. However, we should not let this emphasis detract from the fact that schools have a responsibility for all children.

Diamond Chatter

By Ed Townsend

In the last week of regular season play, the following softball games were played.

On Monday, July 21st, VX-5 beat P&E Dept. 7-2, and the Engineers won from MCGMTU 5-1. Tuesday, the 22nd, found the Hospital whipping the P&E Dept. 7-2, and the Engineers winning another one over the Marine Barracks 8-2.

Wednesday, July 23rd, was the big game of the week, with the Chiefs beating the Engineers 6-1, Bert Anderson pitching a 3 hitter for the Chiefs. In the second game of the evening the MCGMTU trounced the Marine Barracks 15-5. The P&E Dept. finally won a game this past week by getting by the Marine Barracks on Thursday, July 24th, 13-9. GMU 61 & 25 lost to the Engineers 15-5 in the second tilt.

On Friday, GMU 61 & 25 played two games, losing to VX-5 in the first game 10-6, and winning the second game from the Misfits 12-7. In the baseball game played on Saturday night, July 26th, at Schoeffel Field, Lone Pine beat Trona 8-3.

Golf Tournament
The Intramural Golf Tournament will start on Tuesday, August 5th, at the China Lake Golf Course. In the first match the Marine Barracks team plays Mitchell's VX-5 team and NOTS has a bye. All seven military units are represented in the tournament.

That's it in the world of sports for this week.

Pro Golf Exhibition Stated Here Tomorrow

Willie Barber, noted Southern California golf professional, will visit the Station tomorrow to give a golf exhibition with Paul Somerson, China Lake Golf Club pro at 8:30 a.m. on the local course.

Barber is the brother of the touring professional, Jerry Barber, and is a member of the Southland's Woodland Hills Golf Club. He devotes much of his time to teaching young golfers and organizing tournaments.

For local golfers, the exhibition should prove interesting and informative.

Registration Set for Grade School Pupils

Preliminary plans for registration of kindergarten children and new pupils to the district in grades one through eight for the 1958-59 school year were announced this week by Harold E. Pierce, assistant superintendent of schools. Registration will be held every day prior to August 13 in the Burroughs School Main Office between the hours of 9 to 11:30 a.m. and 12:30 to 3:30 p.m.

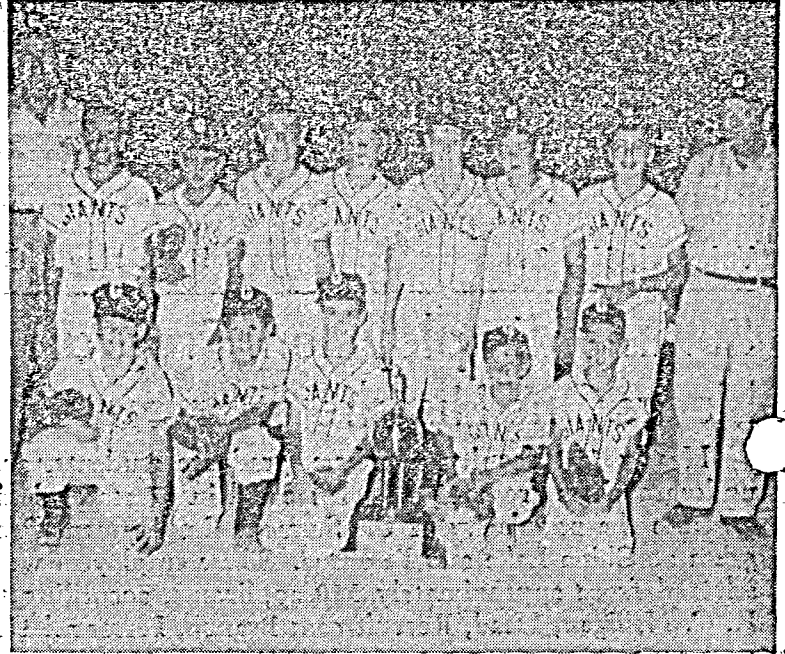

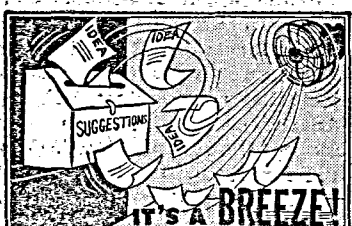

Proof of date of birth is essential to enroll kindergarten children. Although other papers may be accepted for verification of age, official birth certificates are preferred. It is suggested that parents who do not possess certificates for their children should initiate requests for them from the county in which the child was born.

Proof of date of birth is also necessary for all first grade children who did not attend kindergarten in the China Lake schools during the 1957-58 school year.

All children new to the district in grades one through eight inclusive must present, at the time of registration, promotion cards or report cards denoting grade level placement before assignment to school classes can be completed.

Parents of children who plan to be away from the station on the scheduled registration date may designate any other citizen to register their children.

Additional information concerning registration procedures, opening of school, school zoning and transportation will be published later.

"A" LEAGUE CHAMPS—This year's pennant winners of the "A" League teams were the Giants with a 14 win and 6 loss record. Front row (l. to r.) are: Dick Joyce, Bob Sutherland, Larry Aguilar, John Ward and Bret Harney. Back row (l. to r.) are: Coach Thurman Hyles, Tommy Ward, Albert Hyles, team captain Mike Montague, Fred DeHam, Ted Minkler, Bob Barney, Manager Raoul Landry.

Burroughs' Varsity Football Practice Set

Football practice for this year's Burroughs' Varsity football team will begin Monday, September 1, at 10 a.m., according to Coach Rod O'Meara.

Shoes and shorts will be worn at the morning practice. A second practice at 7 p.m. will require full uniforms.

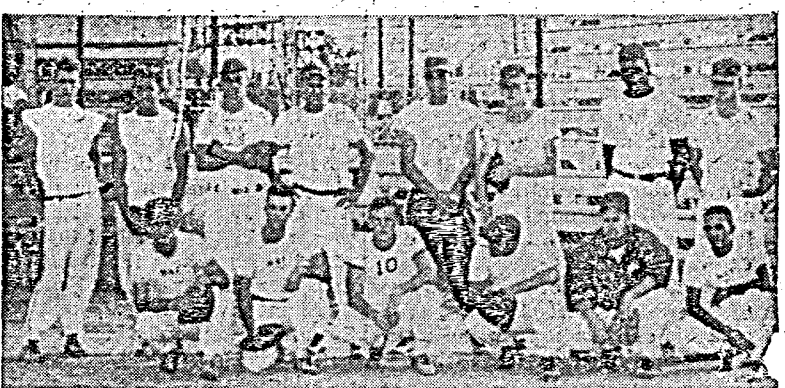

Physical exams will be scheduled from 8 to 10 a.m. in the Ridgecrest Hospital on four consecutive Thursdays, August 7, 14, 21, and 28. Navy dependents must pick up a special form from Coach O'Meara and go to the Dispensary on or before August 28.

Equipment will be issued on Thursday August 28, from 1:30 to 3:30 p.m., and Friday, August 29, from 10 to 11:30 a.m. and from 1:30 to 3:30 p.m.

A physical exam, insurance, and parent permission must be taken care of before a player can draw equipment or practice.

BEULAH, SHORT FIELDER—Only 36 inches tall is Beulah, one of the colorful players on the Compton Cuties who will be here to play the NOTS All Stars on August 9 at Schoeffel Field at 8 p.m.

MILITARY SOFTBALL CHAMPS—Winners of the Military Softball League is the NAF team winding up the season with a 19-5 record. This team will represent NAF at the 11th Naval District Softball Championships beginning August 4 at San Diego. Front row (l. to r.) are: Don Burkholder, Jordan Sullivan Jr., Melvin Gillett, Jack Zavaglia, David Morgan, and Charles Mallet. Back row (l. to r.) are: Walter Coomes, LeRoy McArthur, Larry Mills, Harry Smith, manager, Allyn Bloom, Don Quinlin, Vernon and Bob Olsen. In regular intramural League play NAF tied for second place.

Final Softball Standings

Team	Won	Lost
CPO Club	23	0
NAF	19	5
Engineers	19	5
MCGMTU	16	8
VX-5	15	9
Hospital	14	9
GMU 61 & 25	13	11
Misfits	11	13
P&E Dept.	9	15
Marine Barracks	7	17

Softball Standings (Military League)

Team	Won	Lost
NAF	19	5
MCGMTU	16	8

Gas Ranges Slated For Old Normacs

New 30-inch gas ranges are being installed in three bedroom Old Normacs with distribution estimated for completion in approximately two weeks.

A Public Works Department inspector will call on tenants in advance to advise on the installation and notify on expected date of the installation.

What's Doing IN RECREATION

By Jean Cone, Recreation Director

Perhaps some of you have wondered how you can voice your opinions about recreation facilities and activities. This week I would like to explain how enlisted personnel can have a voice in the Station recreation program.

Each unit is represented on the Enlisted Recreation Committee by an enlisted man appointed by his commanding officer. The senior enlisted person appointed acts as chairman of the Committee, and each member of the Committee has one vote.

The Enlisted Recreation Committee meets prior to the regular meeting of the Station Navy-Civilian Recreation Council. The Committee submits in writing to the Council its views and recommendations regarding expenditures, general administration of the recreation fund, and recreation activity and facility projects.

The Special Services Officer or his representative attend the meetings of the Enlisted Recreation Committee in an advisory capacity in order to supply information relative to recreation fund directives and availability of funds.

A capable Enlisted Recreation Committee can be the key to a successful, continuing recreation program. Know your representative and let him voice your opinions.

Enlisted Recreation Committee members are: Allyn A. Bloom, AMC, NAF, Chairman; Frank Reilly, AO2, NAF; Alfred S. Lowermiller, AO2, GMU No. 1; Sgt. Autabee, GMU (MC); D. A. Nave, PN3, NOTS; G. Popowski, AD1, VX-5; Cpl. Ashford, Marine Barracks; J. L. Britten, FT1, GMU No. 25.

Swimming Pool Hours
The swimming pool will be closed until 3 p.m. on August 4, 5, 7, 8 and 11. Regular swimming pool hours are 1 to 9 p.m. daily except Wednesdays when it opens at 5 p.m.

Monthly Pistol Match
The first monthly match of the Mojave Desert Inter-Service League Pistol Competition will be conducted at 12:30 p.m. Wednesday, August 6, at the Marine Corps Supply Center, Barstow. The National Match Course will be used to compute team scores. Individual and team matches will be conducted in the open, master, expert, sharpshooter, and marksman classes.

Future matches will begin at 12:30 p.m. on the second Wednesday of each month. Competitors must be members of the Armed Forces. A registration fee of one dollar will be charged each entrant. For further information, contact the Special Services Office, Ext. 71791.

China Lake Players Produce Mystery Play for Navy Relief
"The Mousetrap," a thrilling mystery written by Agatha Christie, will be presented by the China Lake Players on Thursday and Friday, August 21 and 22, in Burroughs High School Auditorium. All proceeds from the play will go to Navy Relief.

Playing the leading roles of Molly and Giles, a young English couple who are trying to turn their family home into a guest house, are Wanda Talley and Clarence Mettenburg.

Among their guests are Christopher Wren, an architect with peculiar manners played by Jim Rhodes; Mrs. Boyle, a determined lawyer with a nasty disposition played by Ruth Rekosh; Major Metcalfe, an officer with an odd record played by Ray Perry.

Miss Caswell, an abrupt young lady with a mission played by B. C. Fouse; and Mr. Paravicini, a salesman with a sinister attitude played by Bob Martin.

When disaster strikes at the guest house Sergeant Trotter, a police officer played by R. G. Selfridge does his best to resolve the situation.

Stella Greig is directing this English thriller which will be the drama group's major summer activity. She is being assisted by Darlene Hardcastle. Mrs. Greig states that anyone wishing to help with the properties or technical production of "The Mousetrap" will be welcome. Volunteers are asked to call Ext. 77971 for information.

This will be the third major production which the China Lake Players have devoted to the cause of Navy Relief. Plans for the publicity and ticket sales campaigns are proceeding under the direction of Mary C. Wickenden, secretary to the Players.

Elvis Presley, Carolyn Jones. Because his ineffectual father can't hold a job, Elvis has to work part-time in a low-down New Orleans night club. A singing career comes his way by chance—full of rhythm and action.

SHOWBOAT
Matinee Sat. and Sun. — 1 p.m.
Evening 6 and 8 p.m. daily

TODAY
"THE FLY" (90 Min.)
Vincent Price, Patricia Owens
Science-fiction. A synopsis would "give away" this spine-tingling thriller about a scientist who experiments with an atomic disintegrator and is endangered by a fly. Real creepy—a ghoulish shocker!
SHORTS: "Knighly Knight Hare" (7 Min.)
"Zoom and Bored" (7 Min.)

SATURDAY
"SEA HORNET" (84 Min.)
Rod Cameron
SHORTS: "Morris, Midget Moose" (7 Min.)
"Batman & Robin" Chapter No. 7 (17 Min.)

EVENING
"FROM HEAT TO TEXAS" (100 Min.)
Don Murray, Diana Varsi, Chill Wills
(Western). Rip-roaring action every minute as cowboy is chased across the wilds for a murder he didn't commit. He is befriended by a beauty and then chased by Indians. It's a real tilt!
SHORTS: "Injun Trouble" (7 Min.)

SUN.-MON.
"DON'T GO NEAR THE WATER" (107 Min.)
Glenn Ford, Gia Scala, Keenan Wynn
Cinemascope, Metrocolor. Vastly amusing comedy about Navy public relations men sitting out the war on a South Sea Island. Glenn Ford courts native Gia Scala, sailor Earl Holliman is in love with nurse Anne Francis.
SHORTS: "Tot Watchers" (7 Min.)

TUES.-WED.
"RIDE A CROOKED TRAIL" (88 Min.)
Audie Murphy, Gia Scala
(No synopsis available)
SHORTS: "Matador Magoo" (7 Min.)
"Cycle Mania" (10 Min.)

THURS.-FRI.
"KING CREOLE" (125 Min.)
Elvis Presley, Carolyn Jones
Because his ineffectual father can't hold a job, Elvis has to work part-time in a low-down New Orleans night club. A singing career comes his way by chance—full of rhythm and action.

NO SHORTS

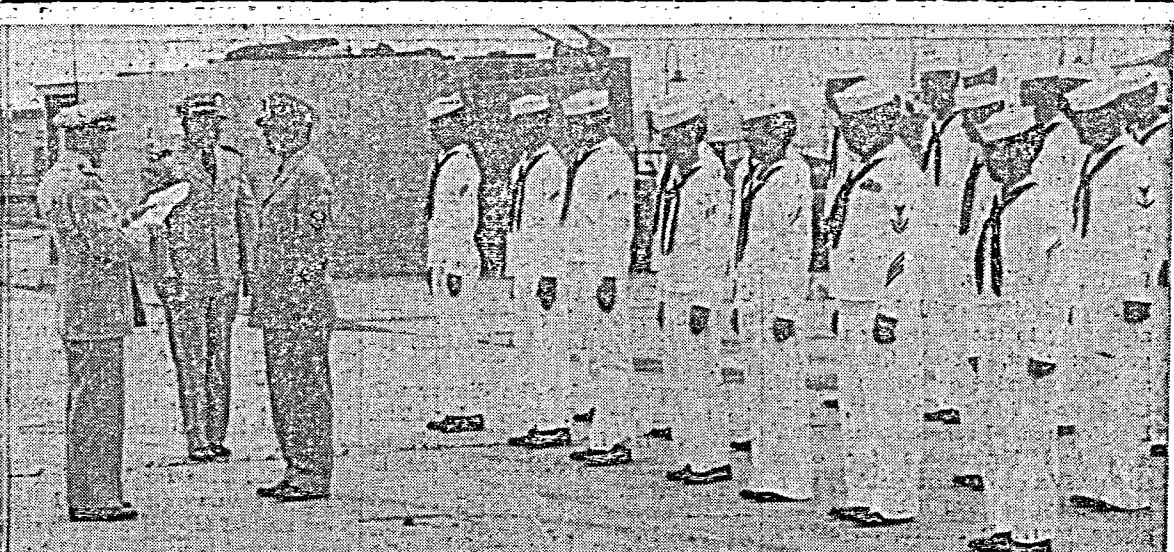

Ice Booklets Expire

Ice coupon books formerly sold through the Community Affairs Dept. will no longer be valid after September 30.

These have been replaced by ice tickets which may be purchased at the Navy Exchange Outdoor Shop.

Elvis Presley, Carolyn Jones. Because his ineffectual father can't hold a job, Elvis has to work part-time in a low-down New Orleans night club. A singing career comes his way by chance—full of rhythm and action.

News From Pasadena

COMMENDATION CEREMONY—At left, Cdr. Charles J. Beers, OinC, reads a letter of commendation signed by Capt. W. W. Hollister, Commander, to Carl J. Cline, QMC, USN. Looking on are Lt. J. M. Callaghan and military personnel assigned to the Long Beach Test Range. Cline was also presented a letter of appreciation from D. J. Wilcox, Head of the Underwater Ordnance Department.

Chief Carl Cline Commended For Services To Station In Ceremony At Long Beach

Following inspection last Friday of military personnel assigned to the Long Beach Test Range, Carl J. Cline, QMC, USN, was called forward to receive a letter of commendation and a letter of appreciation—the first signed by Captain W. W. Hollister, Commander, and the second by Douglas J. Wilcox, Head of Underwater Ordnance Department.

Present for the occasion were Cdr. Charles J. Beers, Officer in Charge; LCDR. Thomas E. Groves, Operations Officer; Lt. J. M. Callaghan, Set Operations; Douglas J. Wilcox, Head of UOD; D. A. Kunz, Head of Systems Operations Division, UOD; and other civilian officials.

Recipient of the commendation letters, Carl J. Cline, is the Chief Petty Officer in Charge of LCU 1898 (Landing Craft Utility) and assistant to the range officer.

The commendation letter, read by Cdr. Beers, in part, stated: "Commander NOTS commends you for the outstanding professional interest, initiative and ability continuously demonstrated during the completion of many arduous tasks."

"Your knowledge, skills, and many contributions to the successful coordination and conduct of operations... is most noteworthy."

Chief Cline has provided support to programs such as ASROC, RAT, MARLIN, acoustic studies, torpedo development, and POP-UP.

Cdr. Beers added: "The interest, initiative, and abilities displayed by you reflects most favorably on your performance of duty as a member of the U. S. Navy."

Chief Cline has served NOTS operations on programs of the Underwater Ordnance Department for the past two and one-half years. D. J. Wilcox, department head, in a letter of appreciation, praised Cline for his ability in understanding the department technical program objectives, his skill in sea operations and his hard work which contributed greatly to the success of the Long Beach-San Clemente Island range operations.

Following more than twenty years in the U. S. Navy, Chief Cline plans to retire the early part of this month.

Awards Given For Patent Disclosures
Four patent holding awards have been presented in the Underwater Ordnance Department, as follows:

Thomas G. Lang, \$50, for his patent disclosure on propeller stabilization and controlled torpedoes.

John T. Sinnette, \$25, for his part in the invention entitled "Air Breathing Missile."

Dr. J. L. Jones, William D. White, and Doris Tom shared jointly in two awards of \$50 each, one on "Fluidized Magnesium Fuel Composition" and the other on "Composition for a Fuel and Explosive."

While working at NOTS, Mr. Mittenthal has been connected with development programs in aerobalistics, aerodynamics, and missile control systems.

Selection of a new head for the analysis branch has not yet been made. Steve Gaspar is presently acting head of the branch.

Lathrop Mittenthal

Mr. Mittenthal joined the Station in 1954 and has been head of the analysis branch, Missile Development Division, for the last two years.

He is a graduate of the California Institute of Technology with a B.S. degree in physics and of the University of Southern California with M.S. degree. He received the LaVerne Noyes Scholarship at CIT.

Previous service in the U. S. Army includes three years in Europe from 1943-1946 and again from 1950 to 1952. During the latter service, he held the rank of Captain.

While working at NOTS, Mr. Mittenthal has been connected with development programs in aerobalistics, aerodynamics, and missile control systems.

Selection of a new head for the analysis branch has not yet been made. Steve Gaspar is presently acting head of the branch.

Approximately 60 per cent of the security violations at NOTS Pasadena may be chalked up to the fact that in locking a safe, proper precautions are not always taken to spin the dial and test the drawer on which the dial is installed.

A 50-FOOT GEYSER sprays the area in front of the Foothill plant when a water line burst recently. The Pasadena Water Department soon had it under control, though. Shucks!
