What's Doing IN DECREATION

By Jean Cone, Recreation Director

Those of you who attended the Armed Forces Day activities last weekend were given the opportunity to examine a large and varied sidewalk exhibit at Bennington Plaza by members of the Desert Art League. Thirty-seven members exhibited their oil, watercolor, mosaic, casein and tempera works.

Painting has become an important recreation activity at China Lake as well as throughout the world; it has become the hobby of presidents, prime ministers, actors and actresses and others in all walks of life. It is used as a therawalks of life. It is used as a therapeutic device in veterans' hospitals and for those whose emotional problems have momentarily become overwhelming. The purpose of the local Desert

Art League is to promote the appreciation and practice of the fine arts of painting, sculpture and other related creative arts. The League was organized in February, 1958. Officers for the 1959 year are Hazel Porter, president; Edward

Hammerberg, vice president; Joyce Casaroli, secretary; Darline Hardcastle, treasurer; Adeline Williams program; Lorraine McClung, publicity; Eleanor Ostrander, hospitality; Pat Cox, Community Center
