

Summer School Students Prove Learning Is Fun

All were feeling a strong sense of accomplishment—the first three pages of their summer school newspaper were at the office for "publication"—and all were busy with another story. This new story was fun, proving that a knowledge of English is not only valuable, but is the key to hours of enjoyment.

Each of the 45 youngsters in the three English Composition classes, taught for the first time this year at the China Lake Summer School, were given the same assignment. Every writer had a partner and each partner was to write a story beginning with one complete sentence. After trading papers, the children wrote a second sentence that fitted in with their partner's effort. As the story grew, so grew the giggles. The youngsters chuckled at the stories were read aloud. There is never any writer's cramp as Carolyn Hockett's summer class.

The English classes, open to pre-sixth through twelfth grades, are given to help the youngsters develop greater ability in handling the language they speak. Members of the class are learning the fundamentals of interviewing, writing biographical articles and other forms of creative writing.

Students named on the summer school newspaper, "The Summer School Sentinel," include: Editors in-chief, Carol Ann Heddel and Wilma Hollister; Editors, Gail Coleman, Doug Henry, Peggy Coleman, Jani Hahn and Linda Jo Love.

Reporters are: Karen Bjorklund, Richard Bogger, Judy Boland, Judy Coffey, Kathy Clark, Kristin Carlisle, Judy Donaldson, Sandra Green, Carol Hardell, Judy McGinnis, Melodie Mallory, Sharon Murphy, Linda Philbeck, Jim Thompson, Marie Torkelson, Steve Troy, Stan Sheffer, Bill Bishop and Gail Allen.

Other reporters include Terry Andrews, Nancy Curtis, Karen Day, Janet Long, Anne Mitchell, Janet Pace, Mike Reale, Susan Reale, Johnny Stewart, Florence Wilson, Becky Anderson, Ronnie Aaron, Margaret Appleton, Caroline Coladay, Cheryl Elder, Jim Ivy, David Millington, June Norcom, Jean Everett and Christine Auld.

SUMMER SENTINELS—Journalism is fun for these students in Carolyn Hockett's 9:30 a.m. English Composition Class. Young reporters pictured (l. to r.) are: Florence Wilson, Peggy Coleman, Janet Pace and Anne Mitchell. Instructor Hockett is assisting Terry Andrews and Karen Day over a rough spot, while Mary Brown reaches for the editor's blue pencil.

SUPPLY AWARDEES—Two employees in the Material Division are presented the coveted "Thinker" award for their joint beneficial suggestion which resulted in the greatest net savings to the Station during 1958. Shown (l. to r.) are: William D. Giano; Capt. Irvin S. Moore, Director of Supply; James H. Holton, and Capt. W. W. Hollister.

BEATING THE HEAT—Four of the seven representatives from the Aero Club of Switzerland who visited the Station last Tuesday are pictured as they observe a test at C-3 Range. Uniformed youngsters are CAP Cadets from CAP Squadron 66, Bishop.

'Pirates' Lead All Little League Teams At Season's Finish

Closing strongly at the finish, the Pirates emerged as the pennant champs in the China Lake Little League competition when they defeated the Red Sox, 5 to 4 in the final game of the season. The Tigers and Yankees finished in a tie for second place.

Sponsored by Public Works, the Pirates were managed by Ed Hogue. Players were: James Nicol, Robert Sorge, Danny Hogue, Thomas Johnson, William Stokes, Terry Hogue, Michael Peale, William Pingel, Michael Hawkins, Gary Butler, Richard England, Ernest Beede, Ronald Wade and Jerry deHam.

Little League team standings at the close of the season's play are:

Team	Won	Lost
Pirates	13	7
Tigers	12	8
Yankees	12	8
Red Sox	11	9
Giants	10	10
Dodgers	2	18

Summer Students To Stage Operettas

Two operettas will be presented next week by children enrolled in the dramatic classes of the summer session at China Lake Elementary Schools. The purpose will be to raise money to help finance four music concerts, sponsored by the Music Parents Club, for children in this area during the 1959-60 school year.

Artists have been procured through agencies in Los Angeles and plans are being made to include a matinee performance of the Vienna Choir Boys when they perform for the adult concert series.

One of next week's operettas "The Gypsy Prince," written by the children of the fourth and fifth grades and based upon the story and music of the opera "Il Trovatore" by Giuseppe Verdi, will be given Tuesday, August 4, at 7:30 p.m. in the Burroughs High School Cafeteria.

The second operetta "Dreamer's Hill," written by Ruth Kirley, tells of intrigue and adventure in Texas, and will be given by the children of the sixth, seventh and eighth grades on Thursday, August 6, at 7:30 p.m. in the Burroughs High School Cafeteria.

Interesting lighting, sound, and scenic effects are being developed by David Sherlock and Henry Dubin. Tickets may be purchased from members of the cast and from members of the Music Parents Club.

Thinkers . . .

(Continued from Page 1) Inspector General of the Supply Corps, Pacific, in his March, 1959, Inspection Report.

Public Works Awardee The third recipient of the "Thinker" award, Francis D. Donnelly, Leadingman in the Roads and Grounds Section of Public Works Department, received his award for submitting the most beneficial suggestions to be adopted by the Station during the calendar year 1958. This is the second consecutive year Donnelly has received this award.

Donnelly's suggestions were submitted at NOTS, Pasadena, as an employee of the Transportation Branch there. He transferred to China Lake last June after seven years at Pasadena, where he has contributed significantly to the Beneficial Suggestion Program since he started to work in June, 1952.

Swiss Air Cadets On Exchange Tour Visit Area, NOTS

As a part of the International Air Cadet Exchange held every year with 21 foreign countries, five Swiss cadets and their two senior escorts visited the Station last Tuesday. Last year a number of Civil Air Patrol cadets from squadrons throughout the nation journeyed to Switzerland under the leadership of Major Stephen Lukacik, from Bishop CAP Squadron 66.

Upon learning of the excellent soaring conditions offered by the "Sierra Wave," members of the Aero Club of Switzerland requested that the 1959 trip to the United States be centered in the Bishop area. The Bishop CAP Squadron has acted as hosts for the Europeans.

Each of the visitors is a glider pilot, and two of them hold instructor ratings. Much of their eight days in this area has been devoted to glider operations and soaring flights. The China Lake Soaring Club, Inc., under the presidency of Jimmie Craig, has provided the aircraft utilized by the Swiss fliers, and club members have served as the plane's maintenance crew.

Met at NAF by Bill Hampton and Dick Rusciolli, Technical Presentations Coordinators, and Major Fred Richards, Commander, Squadron 82, CAP, the visitors were given a general introduction to the Station's activities and witnessed a test at C-3 Training Range.

VX-5 . . .

J. D. Blitch, Air Warfare Officer, COMOPTEVFOR staff; Capt. T. A. Grell, Commander, NAF; and Capt. R. A. Beveridge.

Little League All-Stars Win First Area Playoff, Lose Next to Edwards

China Lake Little League All-Stars defeated the Ridgecrest-Inyo Kern All-Stars by a score of 17 to 12 in the first area playoff of the Little League National Tournament held here July 23.

In the second game at Edwards Air Force Base, the China Lake team lost by a score of 10 to 5 when a late inning rally by the Edwards team upset the local team after they had held a 4 to 0 lead in the first inning.

The Edwards team went on to beat Bishop for a 4 to 3 win. They are scheduled to represent the area today and tomorrow in the District Tournament playoff in Glendale.

PUBLIC WORKS AWARDEE—Francis W. Donnelly, leadingman in the Roads and Grounds Section, earns the "Thinker" award for the most submitted and adopted beneficial suggestions during 1958. Shown with him are Capt. T. J. Dumont, Public Works Officer (l.) and Capt. W. W. Hollister.

Three Station Employees Earn 'Thinker' Statuettes

Three NOTS employees were honored last week as recipients of the "Thinker" award, a bronze statuette reproduction of Rodin's famous work, at official presentations by Captain W. W. Hollister, Station Commander.

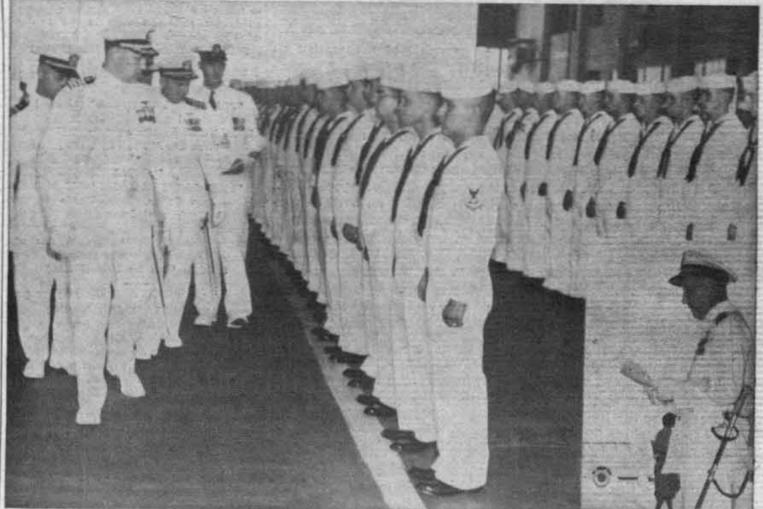

The awards were earned for the most beneficial suggestions submitted and adopted, and on the greatest savings to the Station during the calendar year 1958, recognition for participation in the Incentive Awards Program.

Supply Awardees Two recipients, William D. Giano and James H. Holton of Supply Department's Material Division, submitted a joint beneficial suggestion which was adopted, saving the Station upwards of \$100,000, and netting them the highest local monetary award of \$500.

The idea centered on a method of cutting down old-fashioned 7 to 10 feet high bins to counter height to provide modern merchandising displays in auxiliary and shop stores, reducing by more than one-half the amount of floor space required for the bins, and permitting self-service to customers.

Navy-wide interest in this application has been indicated by the (Continued on Page 4)

Capt. T. A. Grell Takes Over NAF In Change of Command Ceremonies

CAPT. GRELL TAKES OVER—Enlisted men from the Naval Air Facility stand inspection before the Change of Command ceremonies last Friday. Inspecting party (clockwise) are: William E. Shanahan, CMAA; Capt. Theodore A. Grell, Capt. Guy J. Anderson and LCDr. John H. McIlmoll, Target Aircraft Officer. Cdr. Melvin C. Hoffman, NAF Executive Officer, is hidden behind Capt. Anderson. Inset at lower right pictures Capt. Grell reading the orders under which he assumed command.

Captain Theodore A. Grell, USN, assumed command of the Naval Air Facility last Friday during afternoon ceremonies. Relieving Capt. Guy J. Anderson, Capt. Grell reported to NAF following nearly two years at Norfolk, as a member of the Staff, Commander in Chief, U. S. Atlantic Fleet, and Staff, Commander in Chief, Atlantic.

VX-5 Outlines Operations For Staff of OPTEVFOR

Rear Admiral William D. Irvin, USN, Commander, Operational Test and Evaluation Force, and his staff were on the Station Tuesday and Wednesday to inspect the activities and operations of Air Development Squadron Five. During the two-day visit, the men were briefed on all VX-5 projects by Capt. Richard A. Beveridge, VX-5 commanding officer, and other unit representatives.

Housing Applications May Be Filed Now

Persons wishing to be considered for housing, other than that in which they now reside, who are not on the present housing list, must file an application on or before August 31, 1959. Applications received by that date will become effective on the housing list which will be in effect from October 1, 1959, through March 31, 1960.

Forms are available at the Housing Office. Applicants must file their request during regular working hours. The office is open Monday through Friday, from 7:30 to 11:30 a.m. and 12:30 to 4:30 p.m. Station personnel have one month in which to file housing application.

(Continued on Page 4)

CNO-Air Assignment

In May, 1945, the Captain was named the Assistant to the Head of Flight Safety, in the offices of the Deputy Chief of Naval Operations—Air, in the nation's capital. A tour at the Armed Forces Staff College, Norfolk, was followed by his assignment as Commanding Officer of Fleet Air Service Squadron 102. Duty at Fort Bliss, Texas, and as Executive Officer, Naval Aviation Ordnance Test Station, Chincoteague, Virginia, preceded his two-year assignment as Assistant Naval Attaché, at the Office of the Naval Attaché, Athens, Greece. His assignment to Staff, Atlantic Fleet, was subsequent to three years at Staff College.

Among the medals and citations awarded Capt. Grell are the Silver Star, the Bronze Star and a Presidential Unit Citation.

Interstate Directories

Station residents may pick up Ridgecrest telephone directories at the Telephone Office next Wednesday. Distribution of these directories to offices throughout the Station will be accomplished later.

GREETING—Rear Admiral William D. Irvin is greeted by Capt. R. A. Beveridge, VX-5 Commanding Officer, on the Admiral's arrival.

ASPA Panel Informally Says NOTS Future Looks 'Rosy'

During a regular meeting of the American Society for Public Administration last Tuesday evening in the Community Center a five-man panel looked at the "Franke Report" from the NOTS point of view. Discussion was attended by over 125 Station employees.

Panelists included: Captain Harry B. Hahn, USN, Executive Officer, outlining the background and general nature of the Franke Report; Commander Donald E. Bruce, USN, Experimental Officer, who, along with H. G. Wilson, Associate Technical Director, speculated on the effect of the merger related to technical activities; John Cox, Associate Department Head, Engineering Department, discussing his impressions of future contractor-Navy relations; and Robert W. Anderson, Head, Personnel and Community Relations Department, who gave his views on the probable effect on present personnel within the two present Bureaus. E. J. Jones, Associate Head of Staff for Management, served as the panel's moderator.

Navy Management Science Experts to Start Lecture Series

Dr. J. E. I. Heller, Director of the Management Sciences Staff of the Navy Management Office, and his Assistant Director, Dr. George Suzuki, will give a technical lecture next Tuesday, August 4, at 1 p.m., in Conference Room A, Michelson Laboratory. Their topic will be "The Management Sciences Approach to the Solution of Complex Management Problems in the Navy."

Educated in Holland, Austria and Switzerland, Dr. Heller earned his PhD in mathematical sciences at the University of Geneva, Switzerland. He has been a mathematics instructor abroad and is currently a part-time member of the Department of Mathematics at George Washington University.

Dr. Suzuki earned his PhD in mathematics from the University of Minnesota where he taught statistics for five years. He has worked in the field of operations research in several government agencies.

The Management Sciences Staff explores and promotes the application of the management sciences to problems throughout the Navy establishment. It assists in establishment of operations research and other problem-solving systems at the various Naval organizations having a need for them.

This lecture will be the first of several preview lectures to the coming Management III course to be offered by the Office of Management Central Staff, next fall.

"While the course does not officially begin until September," E. J. Jones, Associate Head of Staff and course instructor, said, "we plan to make use of some of the talent we have on the Station this summer, namely, visiting professors who will not be available in the fall.

"All persons who plan to attend the course are encouraged to attend these preview lectures because we will carry on this type of learning experience in the Management III series."

Credit Union Now Makes Cash Loans

In accordance with recent changes in Federal Credit Union regulations, the local NOTS Employees Federal Credit Union has obtained approval from the Bureau of Federal Credit Unions authorizing disbursements of shares and loans in cash as well as by checks.

RESULTS EXCEED EXPECTATIONS—The spirit of cooperation as exemplified by the outcome of the 1959 Navy Relief "Call for Contributions" again attests to the willingness of NOTS people to be of service.

565 Died . . .

The above figure represents the number of Navy and Marine Corps personnel killed in motor vehicle accidents in 1958. An additional 6,543 were injured.

According to the June issue of Statistics of Navy Medicine, "About 90 percent of these servicemen were on Leave or Liberty at the time of their accident. Death could hardly have come more unexpectedly for them."

"It is certain that each of them would have, in some way, altered his plans had he been actually able to foresee himself as he was after the accident."

"In many instances the serviceman is the innocent victim who could have avoided catastrophe only by keeping off the highway. In other instances, a little courtesy or just plain patience might have been mustered long enough to stifle that uncontrollable urge to zip past the motorist who was observing the speed limit. In many instances, it would have been sufficient to delay the trip to permit a few hours of shut-eye in a more appropriate place than at the wheel of an automobile zooming along the turnpike.

"Safety courses, accident prevention programs and strict law enforcement are all proving to be worthwhile efforts—but, in the final analysis, the actual prevention of an accident rests with the driver."

Among our own service personnel, within the past month, there have been at least three known accidents which were just as unexpected as those referred to above. In one instance, SEVEN people died; in another, ONE fatality and four injuries occurred; in the third, a four-year-old child was struck and injured when she unexpectedly ran in front of the car.

It is too often said that the automobile is a killer or that the automobile ran off the road when the truth of the matter is—it's the man in the driver's seat who is in control (or should be) and he is the one who is justifiably accountable for the vehicle's performance.

Now that the mechanical efficiency of automobiles has surpassed the infancy stage—accident prevention has just been born.—By Arden Hanes, Traffic Investigator, Safety Division.

It Could Be You . . .

Your carelessness, negligence or laxity could be the cause of the closing of the Station Swimming Pool.

Twice last week the pool had to be drained—had to be drained and cleaned because each of two small children had had an "accident."

Nearly 100,000 gallons of water—enough to provide the workers and residents of the Station with water for a 24-hour period—was dumped. Many man-hours were expended in the draining, cleaning, refilling operations at a cost of about \$2,500.

To supply the Station's water needs during these summer months the pumps are working night and day. It hardly seems necessary to repeat that water conservation must be practiced—usage of "desert gold" must be kept down. During the 24-hour period, midnight Sunday to midnight Monday, July 27,

10,059,000 gallons of water were used. Withdrawal of the 46,000 gallons needed to fill the swimming pool could make the difference between having water and not having any on one of these hot days.

Every China Lake parent whose children utilize the Station Pool are asked to provide constant and careful supervision of their swimming youngsters. Any child who does not feel well must not be allowed in the pool.

Another "accident" necessitating cleaning of the pool will cause serious consideration to be given to closing the pool to any but organized swimming parties. The Command is not desirous of taking this drastic step; however, laxity and carelessness on the part of those utilizing the pool can cause such a restriction.

"Alice" Traveling With Kern County Art Exhibit

On display this week at the Kern County Museum in Bakersfield are 13 of the paintings composing the annual traveling art exhibit sponsored by the Kern County Parks and Recreation Department. Among the paintings is a watercolor by Lela Warr of China Lake entitled "Alice."

These paintings were selected from district council art festivals held earlier this year and represent the work of amateur and professional artists participating in the annual contest.

Ideas are like children—everybody loves their own.

SHOWBOAT

MATINEE Saturday and Sunday - 1 p.m. EVENING 6 and 8 p.m. daily

TODAY "COMPULSION" (103 Min.) Organ Whittier, Diana Vaitis, Dean Brockwell. Reminiscent of a true story of the 20's when two ultra-intelligent students attempt to pull off a perfect crime. A world-renowned lawyer represents them in this strictly adult melodrama.

SATURDAY "7TH VOYAGE OF SINBAD" (87 Min.) Kerwin Mathews. SHORTS: "Swing Monkey Swing" (7 Min.) "Iron Claw" No. 14 (18 Min.)

EVENING "LAND OF THE PHAROHS" (105 Min.) Joan Collins, Dewey Martin. All the intrigue of Egypt as the Pharaoh becomes obsessed in building a pyramid tricky enough to fool robbers. A cast of thousands makes this a spectacular.

SUN.-MON. "THE SHAGGY DOG" (101 Min.) Fred MacMurray, Jean Hagen. When a postman who hates dogs has a son turned into one by magic—fun exploded! Add to this an atomic sky and a real dog for humor at its best.

TUES.-WED. "THE YOUNG PHILADELPHIANS" (138 Min.) Barbara Ruth, Paul Newman. Young man torn between an ambition to reach business success and the girls he loves, almost loses both until he is forced by fate to defend a pal held on a murder charge.

THURS.-FRI. "HOUND OF THE BASKERVILLES" (84 Min.) Peter Cushing, Andre Morrell. New heir to a castle is forced to protect himself with Sherlock Holmes who finds scads of suspects in the dark, dank moors. A real eerie, top-sho show.

SATURDAY "WAR PAINT" (89 Min.) Robert Stack. SHORTS: "Billy Boy" (7 Min.) "Iron Claw No. 15" (last chapter) (18 Min.)

EVENING "TONKA" (97 Min.) Sal Mineo, Phillip Carey. Indian boy loses his pet stallion to his brother who mistreats him. The boy finds his way to General Custer's unit where the big story unfolds. Basically, a story for the young.

SHORTS: "War Paint" (7 Min.)

IWW Team Breaks Records in Kern County Swim Meet

The Indian Wells Valley District swim team placed third in competition with seven other districts in the Kern County Swim Championship meet held in Bakersfield City College swimming pool. The IWW team is coached by Dick and Carol Chatterton.

Three existing county records were broken by three local girls. Anne Mitchell finished second in the Class C 25-yard freestyle race in 14.6 seconds; Judy Bailey came in second in the Class D 25-yard backstroke race in 20.3 seconds, and Peggy Coleman finished third in the Class D 25-yard breaststroke in 22.5 seconds.

Winners from this area were: Girls open 200-yard medley relay, 1st place: L. Dickinson, D. Turner, J. Bratton, Y. Heynen. Girls open 200-yard sprint relay, 1st place: L. Dickinson, D. Turner, L. Campbell, Y. Heynen. Second place: G. Dickinson, M. DeLancey, J. Bratton, D. Huse.

Girls Class A 100-yard sprint relay, 1st place: D. Turner, M. DeLancey, L. Campbell, Y. Heynen. Girls Class B 100-yard sprint relay, 4th place: G. Dickinson, D. Huse, E. Lindamood, B. Sutherland. Girls Class C 100-yard sprint relay, 1st place: K. Beresford, A. Mitchell, A. Stone, G. Sprouse.

Girls Class D 100-yard sprint relay, 3rd place: J. Bailey, C. Campbell, J. Reade, L. Scheller.

Boys open 200-yard sprint relay, 4th place: J. Cranor, W. Weeks, J. Pinney, G. Holladay. Boys Class A 100-yard sprint relay, 4th place: G. Holladay, T. Holladay, G. Decker, B. Schoenig. Boys open 100-yard freestyle, 4th place: W. Weeks.

Boys open 100-yard individual medley, 4th place: W. Weeks. Boys Class A 50-yard breaststroke, 4th place: J. Cook. Girls Class A 50-yard breaststroke, 3rd place: J. Bratton; 4th place, D. Turner. Girls Class A 50-yard butterfly, 2nd place: J. Bratton; 4th place, M. DeLancey. Girls Class A 50-yard backstroke, 2nd place: Y. Heynen. Girls Class B 25-yard breaststroke, 4th place: G. Dickinson. Boys Class C 25-yard breaststroke, 4th place: D. Reynolds.

Rocketeer Deadlines News, Tuesday, 4:30 p.m. Photos, Tuesday, 11:30 a.m.

Sport Slants

The Commander's Trophy was presented to the Naval Air Facility last Friday during the Change of Command ceremonies. NAF finished first in intramural volleyball and golf, while being runner-up in basketball. The NAF softball team will finish in first place in the military section of the intramural league which ends August 27, as they now have a six-game lead, with only five more games to be played. Congratulations!

An undefeated softball team from Lancaster takes on the Pilot Plant nine tonight at 8 p.m. at the Bear Hut Diamond. The Lancaster team has won 26 games in a row, while the Pilot Plant club has won 20 straight games in the Station's intramural league. This should be quite a game; everybody is welcome and there's no admission charge.

The Station softball team split a doubleheader with Tehachapi there last Saturday, losing the opener 6-5 and winning the nightcap by the same score.

The Engineering Department team won a real thriller over the Rocket Old Timers last Saturday night by a score of 2-1, before the largest crowd of the season. Bob Kochman allowed four hits for the

Rockets, while Bert Galloway pitched a three-hitter for the winners. Thanks to all of the fans and the players who helped to make this event such a real success. It has been decided to make this Old Timers' game an annual affair, calling it the "Steve Stevenson Annual Old Timers Game."

Modern Dance Exhibition Children enrolled in the summer Modern Dance class will demonstrate their accomplishment to parents and friends next Thursday, August 6, at 8:30 a.m., in the RAFT Club.

Dancers will be Billy and Bonnie Dorey, Judy Garlan, Susan Hasel-tine, Peggy Ann Hensley, Pamela and Terri Jacks, Alison Lee, Cathy O'Neill, Vicki Romero, Peggy Run-ched, Deborah Silberberg, Gayle Smith, Beth Taylor, Janie and Lynn Wickenden.

A new class for elementary school children will begin in September after school starts. Anyone interested may call Joan Leipnik, Ext. 73273.

Promotional Opportunities

Only persons currently employed on this Station may apply for the following positions, and up-to-date Forms 58 should be submitted when applying.

Admin. Services Assistant, GS-341.9, PD 32277, Code 18. This position provides continuity in the major areas of reports, improvements, military construction and other areas of general administrative operation.

Clerk (Typing), GS-301.4, PD 30068, Code 6521. As chief clerk in the Recruitment Branch, incumbent has the responsibility of establishing and maintaining a complete records system for the Station's recruitment activity. Other duties include composition of letters and reports, preparation of recruitment materials and stand-in for Department Receptionist.

Personnel Clerk (Gen. Typing), GS-203-4, PD 32030-1, Code 629. Processing personnel actions, maintenance of files, preparation of reports and other clerical duties.

Physicist, GS-1310.9, PD 32355, Code 3512. Design and development of portions of circuitry for the control in the missile (particularly power supply circuitry), fabrication and evaluation of the same components, and coordination with groups working on other portions of the control circuitry.

File applications for above positions with Mildred Beck, Personnel Bldg., Room 26, Ext. 72723 by August 7.

Editorial Clerk, GS-5, PD 26857-1, Code 4013. Composition and layout, preliminary editing and proofreading of Code 40 Technical Reports.

Fiscal Accounting Clerk (Typing), GS-4, PD 28429-A, Code 3002. Fiscal control of all procurement actions, types all auxiliary job orders, and estimates and controls costs of travel funds for the Test Department; also performs miscellaneous typing for Budget and Fiscal Branch and prepares all stub requisitions for Planning and Administrative Staff.

Management Analyst, GS-7, PD 14584-A

Boys open 200-yard sprint relay, 4th place: J. Cranor, W. Weeks, J. Pinney, G. Holladay. Boys Class A 100-yard sprint relay, 4th place: G. Holladay, T. Holladay, G. Decker, B. Schoenig. Boys open 100-yard freestyle, 4th place: W. Weeks.

Boys open 100-yard individual medley, 4th place: W. Weeks. Boys Class A 50-yard breaststroke, 4th place: J. Cook. Girls Class A 50-yard breaststroke, 3rd place: J. Bratton; 4th place, D. Turner.

Girls Class A 50-yard butterfly, 2nd place: J. Bratton; 4th place, M. DeLancey. Girls Class A 50-yard backstroke, 2nd place: Y. Heynen. Girls Class B 25-yard breaststroke, 4th place: G. Dickinson. Boys Class C 25-yard breaststroke, 4th place: D. Reynolds.

***** DON JUAN IN HELL—Pictured as they will appear to the local theater audience Monday and Tuesday, August 3 and 4, are members of the Desert Drama Quartette—Joan Leipnik, Eduardo Romero, Phil Marsh and Langthorne Sykes—before the stylized Spanish backdrop. The concert reading of George Bernard Shaw's "Don Juan" will begin at 8:30 p.m., both performances, at the Community Center. Tickets are available at the door, from cast members or at Robb's Hardware in Ridgecrest. —Tony Anthony Photo.

***** Tips On Speedy Mail Delivery to CL, LB For the fastest possible delivery of mail from NOTS Pasadena to China Lake and Long Beach, Elmer Price, Head of Administrative Services Branch, has the following tips to offer:

1. Put all mail possible in your outgoing tray before 3:30 p.m. The last office pickup is made at 3:30 p.m. and mail placed in the tray after that time is not picked up until the next morning, which means that it will not be delivered to the addressee before the second day. However, mail picked up by 3:30 p.m. is delivered to its China Lake or Long Beach destination the following morning.

2. Between 3:30-4:30 p.m. hand-carry your mail to the Mail Room. It will go out the same evening and be delivered the following morning.

3. After 4:30 p.m., take your China Lake-Long Beach outgoing mail to the Main Gate Guard Office. Deposit in the appropriate mail bag and it will be delivered to the addressee the following morning.

With his wife, June, and children, Charles J., Jr., 14, and Susan, 11, he resides at 1170 Daveric Drive, Pasadena.

What's Doing IN RECREATION

By Jean Cone, Recreation Director

A fundamental recreation principle is that everyone should be encouraged to learn to make something of beauty in line, form, color, sound or shape. Hobbies that fulfill this principle are as numerous and varied as the field of human interests.

Rug-making is a satisfying activity and members of the local Rug Club find greater satisfaction and enjoyment in this hobby when they meet with others with the same interest. Perhaps you have seen some of the beautiful hooked or braided rugs which members have displayed at the annual Desert Empire Fair. If not, you are invited to visit (or join if you wish) the Rug Club which meets at the Anchorage each Wednesday from 9:30 a.m. to 2:30 p.m. If you know nothing about this craft but would like to learn, experienced members are there to help you. Rug supplies can be ordered through the Club.

All is not work with these industrious members as they have a monthly Birthday party and meet occasionally for a potluck dinner. Members bring their lunch each week and coffee is furnished by the Club.

Members who have signed up for the Hayride next Thursday should check with Sandy Dyer about transportation to the Shangri-La Ranch. Old, comfortable clothes should be worn; jeans and shirts suggested (no shorts). There'll be refreshments at the picnic grounds.

The next big dance—a "Shipwreck swim-dance party"—is tentatively set for the second week in August. The Medley Men will play; reservations should be made immediately.

Charlie Coleman was Pool Tournament winner for July, with Frank Kahapea running a strong second. Indoor badminton is proving real popular and tournaments are being scheduled.

All parents of RAFT members, and other Station residents are invited to drop by the RAFT Club.

RUG EXPERT—Mickey Owen, President of the IWW Rug Club, is shown at work during the last meeting of the Club. Rug making, nearly a lost art, is a profitable and self-satisfying hobby.

Plumber and Plasterer CS Exams Now Open Applications are being accepted until further notice by the Board of U.S. Civil Service Examiners' Representative at China Lake for examinations for plasterers and plumbers.

Competitors will not be required to report for a written test but will be rated on a scale of 100 on the quality and extent of their experience and training relevant to the duties of the position. The minimum age limit is 18 years. There is no maximum age limit.

Forms 57 and Card Forms 5001-ABC should be filed with the Board Representative in the Personnel and Community Relations Department.

Mail Station 4 and telephone numbers remain the same—Dolly Olyphant on Ext. 10 and Margaret Kaa on Ext. 14.

Alaska Program Planned Harlan Murray is busily putting together pictures and tape of his recent trip to the wilds of Alaska. He says his showing should be ready in about a month. Watch the noon-time entertainment schedule for announcement.

News From Pasadena

C. J. Beers Earns Captain's Eagles

It's Captain Charles J. Beers, USN, Officer in Charge of NOTS Pasadena. Word of the promotion, retroactive from July 1, came last Friday in a letter signed by W. B. Franke, Secretary of the Navy.

Reorganization Told For Public Works

Plans have been announced for a reorganization within the Public Works Division at NOTS Pasadena, according to Lt. R. W. Auerbach, Jr., whose new title is that of Assistant to Public Works Officer, Code P7102.

The new setup, effective July 21, brings the department in line with standard public works organization as prescribed by the Bureau of Yards and Docks, and will provide for more efficient operation, Lt. Auerbach said.

The Pasadena organization of Public Works was previously composed of one division with six branches. It now consists of two divisions—each with two branches and two staff groups.

The Administration and Contract Branches have been abolished and reorganized as staff functions to Code P7102, with P7102A assigned to the Administrative Assistant, G. H. Bell, and P7102C to the Construction Superintendent, E. A. Davey.

The Engineering Division, Code P711, headed by D. J. LeMair, is responsible for the planning and design of Public Works and technical facilities projects as well as the Controlled Maintenance Program, including the Work Reception Desk. The Technical Branch, Code P7111, is headed by J. L. Kraemer, and the Maintenance Control Branch, Code P7112, is headed by L. R. Brennan.

The Shops Division, Code P712, for which a division head is yet to be selected, is responsible for supervision of all NOTS Pasadena Shops Forces. The Maintenance and Utilities Branch, Code P7122, is headed by K. R. Sherman, and the Transportation Branch, Code P7123, is headed by W. Aitchison, Jr.

Wanted: Lost Owners Have you lost a pair of binoculars lately? Or perhaps left a utility kit somewhere? If so, then you may be the owners we're looking for.

The binoculars are in a nice leather case, and the utility kit is made of plaid and leather and is filled with shaving equipment.

They were found in vehicles at NOTS Pasadena and the owners may claim their wares by calling at the Pasadena Rocketeer Office or by writing NOTS Pasadena, Attention Code P1903.

Bridge Club to Meet The NOTS Bridge Club will hold its next meeting on Monday, August 3, at Willard Youth Center, at 7 p.m. Bob Sullivan, Ext 81, may be contacted for further information on the club.

Winners of the July 20 game were: N-S (1) Bob Sullivan and Earl Rasmussen, (2) Ethel Mosser and Martin Prince, (3) Ann Reinkers and Ervin Reinsche, E-W: (1) Pat Riensche and Mary Jane Barry, (2) Eileen and Mort Hein-

rich, (3) Ivy Cascone and Evelyn Jones.

Employee Welcomed Roy M. Kartzmark, Jr., aeronautical engineer, has reported aboard. He will participate in the Professional Development Program in Underwater Ordnance Department.

New Employees Tour Foothill, Morris Dam SEES SHOPS—During an all-day orientation tour of NOTS Pasadena facilities, new employees are shown through the manufacturing shops by John Busik (far right) while an explanation is given of the various machines. The tour included lectures by technical personnel as well as hardware displays. After lunch the group went to Morris Dam, where they were shown the Variable-Angle Launcher and the propulsion laboratories.
