

Miller Named Manager of NOTS Officers Club

Jerry Miller was named this week to succeed W. C. (Bill) Myers as manager of the Officers Club. Jerry is well known to Club members, having served as assistant club manager for the past three years and before that as assistant bar manager for four years.

Jerry brings some 28 years experience in the food and beverage business to his new job. Previous employment has been with the Officers Club at the U. S. Naval Postgraduate School, Monterey; Pine Lake Lodge, Fresno, and the Olympic Hotel in Seattle, Wash.

Myers, who leaves after three years as club manager, has ac-

cepted the position of general manager of the San Diego Athletic Club.

Jerry Miller

CAP Cadets Train at Air Force Bases

Sixteen enthusiastic members of the Inyokern and China Lake CAP Squadrons attended the 1960 Civil Air Patrol encampments held during August at March, Norton, and Mather Air Force Bases.

The CAP Cadets, ranging in age from 14 to 18, participated in a two-week schedule of extensive on-the-job training in many of the skills and specialties pertinent to the U. S. Air Force. Their activities included base tours, drill exercises, inspections, air flights, and social functions.

Attending the Ninth Annual Encampment from Inyokern Squadron No. 82 were cadets Gary E. Day, Damon F. Trimble, Glenn D. Crowson, Lawrence E. Miller, and David K. Amstrong.

Participants from China Lake Squadron No. 84 were Cadets Vance L. Holley, Tyrone A. St. Louis, William Allen, Joan B. Kohler, Leroy Jackson, Ronald D. Newman, Gordon E. Abraham, Robert Wair, Robert D. Meyer, Connie E. Basset, and Carol Hannel.

Major Fred L. Richards, Commander, Squadron 84, was informed that China Lake was one of two CAP Squadrons sending the largest complement of cadets to the southern area encampment.

Military Terminal Dividend Increased

The Navy Mutual Aid Association voted to pay a \$2,500 terminal dividend to the designated beneficiary of any member, retroactive to August 12, 1960. This dividend is provided at no extra cost and is payable in addition to the regular benefit of \$7,500. This increases the total death benefit to \$10,000.

Paid-up memberships of less than \$7,500, terminated by death, will be increased by 33 1/3 percent. The dividend does not increase the loan or surrender values of memberships.

All regular commissioned and warrant officers on active duty, including reserve officers on extended active duty, of the Navy, Marine Corps and Coast Guard are eligible for membership. Membership is permanent and change in status, such as resignation, retirement, or release to inactive duty, does not affect it.

Officers wishing additional information should write directly to the Navy Mutual Aid Association, Navy Department, Washington 25, D.C.

of some questions and certain statements on the application have been changed to place them closer to related information.

The only new item on the revised form is a space for the applicant's social security number. Federal employees are not covered by social security but the CSC plans to put into effect a new system of compiling statistical information on the federal work force that requires each employee to have a number.

Social security numbers will be used for this purpose.

Outline Elementary School District Zone Lines Based on Pupil New Registration

Elementary school district zoning lines were outlined this week by China Lake school officials. Parents are reminded that these zoning lines are subject to change after school starts if class loads indicate that changes are necessary.

Class lists will be prepared by school principals and will be posted on classroom doors, Tuesday, September 6. These lists will be based on registration of pupils new to the district and those in attendance at China Lake schools last year.

Children new to the district who have not yet registered must register at the Murray School office before assignment to school and class can be made.

Kindergarten registrations are not complete enough to warrant zoning at this time. Parents of kindergarten children will be notified by card or personal phone call from a teacher sometime between now and Saturday, Sept. 3, as to which school their children are to attend and what time they will be expected the first day.

The first day session of kindergarten will be organized so that a small group of mothers and children may go to school for a one-hour period. On Wednesday, Sept. 7, classes will be in session for the regular three-hour kindergarten day.

Parents of kindergarten children who have not registered their children are encouraged to do this before Saturday to insure placement of the children.

Because of the difficulty of visualizing word descriptions of zone lines, it is suggested that parents use the map on the back cover of the Navy Station telephone directory as a reference in determining the grade level zone for each child in the family. Transportation schedules will be published in the next edition of the paper.

First Grade Zone
Richmond School first grade zone includes the area north of a line starting at the corner of Knox Road and Halsey, going east on Halsey to Lauritsen, south on Lauritsen to Fowler, east on Fowler to Richmond Road, north on Richmond Road to Halsey, and east on Halsey and Bowen Road to Blue Ridge.

Groves School first grade zone includes the area enclosed by a line starting at the corner of Knox Road and Halsey, going east on Halsey to Lauritsen, south on Lauritsen to Fowler, east on Fowler to Richmond Road, north on Richmond Road to Halsey, and east on Halsey and Bowen Road to Blue Ridge.

(Continued from Page A-1)
to Richmond Road, south on Richmond Road to Santee, west on Santee to Lauritsen, northwest on Lauritsen to Langley, west on Langley to Renshaw (including houses on both sides of Langley), north on Renshaw to Independence, going north on Lauritsen to Independence, west on Franklin to Knox Road, and north on Knox Road to Halsey.

Vieweg School first grade zone includes the area enclosed by a line starting at the corner of Knox Road and Franklin, going east on Franklin to Independence, southeast on Independence to Renshaw, southwest on Renshaw to Langley, east on Langley to Rowe, south and west on Rowe to Knox Road (including houses on both sides of Rowe), and north on Knox Road to Franklin. All trailers are included in Vieweg zone.

In the Wherry tracts, the Vieweg zone includes all houses on Carriart; all houses numbered 200 through 242 on Bonita, Toro and Segundo; only odd numbered houses on Prospect, and only even numbered houses 100 through 226 on Dorado.

Desert Park first grade zone includes all houses in the Wherry tracts not assigned to Vieweg School.

Second Grade Zone
Richmond School second grade zone includes all houses to the north of a line drawn from the corner of Knox Road and Halsey, east on Halsey to Lauritsen, south on Lauritsen to Groves Street, east on Groves to Richmond, north on Richmond to Halsey, and east on Halsey and Bowen Road to Blue Ridge.

Groves School second grade zone includes the area enclosed by a line starting at the corner of Knox

Road and Halsey, going east on Halsey to Lauritsen, south on Lauritsen to Groves, east on Groves to Richmond Road, south on Richmond to Santee, west on Santee to Lauritsen, north and west on Lauritsen to Langley, west on Langley to Burke Road (including houses on both sides of Langley), north on Burke Road to Independence, west and north on Independence to Forrestal, west on Forrestal to Knox Road, and north on Knox Road to Halsey.

Vieweg School second grade zone includes the area to the south and west of a line drawn from the corner of Langley and Burke Road, going north on Burke Road to Independence, west and north on Independence to Forrestal, and west on Forrestal to Knox Road. All trailers are included in the Vieweg zone.

The Vieweg zone in the Wherry area includes all houses on Carriart; all houses numbered 200 through 242 on Bonita, Toro and Segundo; only odd numbered houses on Prospect, and only even numbered houses 100 through 226 on Dorado.

Desert Park second grade zone includes all houses in the Wherry tracts not assigned to Vieweg School.

Third Grade Zone
Richmond School third grade zone includes all houses north of Halsey and Bowen Roads. Wherry tract houses included in Richmond third grade zone include those enclosed by a line starting at the corner of Prospect and Bonita, going northeast on Bonita to Searles, southeast on Searles to Dorado, northeast on Dorado to Sandora, southeast on Sandora to Cisco, southwest on Cisco to Arondo, northwest on Arondo to Dorado (including houses on both sides of Bonita, Searles, Sandora, Cisco, and Arondo), then northeast on Dorado to Prospect, and northwest on Prospect to Bonita.

Groves School third grade zone includes the area enclosed by a line starting at the corner of Knox Road and Halsey, east on Halsey to Richmond Road, south on Richmond to Santee, west on Santee to Lauritsen, west and north on Lauritsen to Independence, west and north on Independence to Forrestal, west on Forrestal to Knox Road, and north on Knox Road to Halsey.

Vieweg School third grade zone includes the area to the south and west of a line drawn from the corner of Monterey and Lauritsen, going north on Lauritsen to Independence, west and north on Independence to Forrestal, west on Forrestal to Knox Road, and north on Knox Road to Halsey.

Vieweg School fourth grade zone includes the area to the north of a line drawn from the corner of Knox Road and Halsey, east on Halsey to Lauritsen, south on Lauritsen to Fowler, east on Fowler to Noble Road, south on Noble to Groves, east on Groves to Richmond, north on Richmond to Halsey, and east on Halsey and Bowen Road to Blue Ridge. In the Wherry tracts, Richmond fourth grade zone includes all houses to the northeast of a line drawn from the corner of Bonita and Prospect, southeast on Prospect to Dorado, north on Dorado to Nadeau, and southeast on Nadeau to Cisco.

Fourth Grade Zone
Richmond School fourth grade zone includes the area to the north of a line drawn from the corner of Knox Road and Halsey, east on Halsey to Lauritsen, south on Lauritsen to Fowler, east on Fowler to Noble Road, south on Noble to Groves, east on Groves to Richmond, north on Richmond to Halsey, and east on Halsey and Bowen Road to Blue Ridge. In the Wherry tracts, Richmond fourth grade zone includes all houses to the northeast of a line drawn from the corner of Bonita and Prospect, southeast on Prospect to Dorado, north on Dorado to Nadeau, and southeast on Nadeau to Cisco.

Groves School fourth grade zone includes the area enclosed by a line drawn from the corner of Knox Road and Halsey, east on Halsey to Lauritsen, south on Lauritsen to Fowler, east on Fowler to Noble Road, south on Noble to Groves, east on Groves to Richmond, north on Richmond to Halsey, and east on Halsey and Bowen Road to Blue Ridge. In the Wherry tracts, Richmond fourth grade zone includes all houses to the northeast of a line drawn from the corner of Bonita and Prospect, southeast on Prospect to Dorado, north on Dorado to Nadeau, and southeast on Nadeau to Cisco.

Langley, west on Langley to Hussey Road (including houses on both sides of Langley), north on Hussey to Independence, west and north on Independence to Forrestal, west on Forrestal to Knox Road, and north on Knox Road to Halsey.

Vieweg School fourth grade zone includes all houses on the Navy Station to the south and west of a line drawn from the corner of Langley and South Hussey, going north on Hussey to Independence, west and north on Independence to Forrestal, and west on Forrestal to Knox Road. All trailers are included in the Vieweg zone.

Fifth Grade Zone
Richmond School fifth grade zone includes all houses to the north of Halsey and Bowen Streets on the Navy Station. In the Wherry tracts, the Vieweg fourth grade zone includes all houses to the southwest of a line drawn from the corner of Prospect and Bonita, going southeast on Prospect to Dorado, north on Dorado to Nadeau, and southeast on Nadeau to Cisco.

Murray School fifth grade zone includes the area enclosed by a line drawn from the corner of Knox Road and Halsey, going east on Halsey to Richmond Road, south on Richmond to Santee, west on Santee to Lauritsen, west and north on Lauritsen to Langley, west on Langley to Renshaw (including all houses on both sides of Langley), northeast on Renshaw to Independence, northwest on Independence to Dewey, west on Dewey to Knox (including houses on both sides of Dewey), and north on Knox Road to Halsey.

Vieweg School fifth grade zone includes all houses to the south and west of a line drawn from the corner of Langley and Rowe, going west on Langley to Renshaw, northeast on Renshaw to Independence, northwest on Independence to Farragut, and west on Farragut to Knox Road, including houses on both sides of Farragut. All trailers are in the Vieweg zone. In the Wherry tracts, Vieweg fifth grade zone includes all houses to the southwest of a line drawn from the corner of Bonita and Prospect, southeast on Prospect to Dorado, north on Dorado to Nadeau, and southeast on Nadeau to Cisco.

All sixth, seventh and eighth grades on the Navy Station and in Wherry will attend Murray School.

Reports to VX-5

ASST. MAINTENANCE OFFICER
—Lt. Walter A. Barr reported to VX-5 last week from Moffett Field, where he served as an instrument flight instructor. A 1955 graduate of Miami University at Oxford, Ohio, he also attended Training Command schools at Pensacola and Corpus Christi. Lt. Barr is presently housed at the BOQ.

Movie and TV Star Visits

HOLLYWOOD CELEBRITY—Surprise guest at Supply's "Roaring Twenties" party last Friday evening was Bob Cummings, movie and TV star. The Hollywood celebrity is the brother-in-law of Chief Warrant Officer William J. Daniels of the Supply Department. Laughing at Cummings' quips are Capt. W. W. Hollister and H. G. Wilson in "roaring twenties" attire. Also present were cinema star Jeanne Crain and her husband Paul Brinkman.

Enroll Now

Registration Date Set For UCLA Fall Courses

Fall semester registration for the UCLA Graduate and Extension Program at China Lake will be conducted until September 15. Students may register and purchase textbooks in Room 1004, Michelson Laboratory, each working day from 9 a.m. through 1 p.m.

Enrollment fees are payable at the time of registration, but each employee successfully completing a technical or administrative course will be eligible for a tuition refund at the conclusion of the semester. He must, however, present at the time of registration a completed Form 11ND NOTS 12410/7a, "Tuition Refund Eligibility Certification and Training Agreement," which must be dated prior to the first meeting of the course.

Scheduled Courses
Engr. 102B, Engineering Dynamics, Monday and Wednesday, 6:30-8 p.m., three units, \$40, Instructor—H. F. Schmidt.

Engr. 115D, Pulse and Digital Methods, Tuesday and Thursday, 4:30-6 p.m., three units, \$40, Instructor—C. E. Hendrix.

Engr. 160B, Flight Mechanics and Performance, Tuesday and Thursday, 6:30-8 p.m., three units, \$40, Instructor—R. W. Van Aken.

Engr. 843ABC, Engineering Fundamentals, Monday and Wednesday, 4:30-6 p.m., no credit, \$35, Instructors—B. Glatt and G. F. Cleary.

Engr. 298, Transient Linear Field Problems, Tuesday and Thursday, 6:30-8 p.m., three units, \$40, Instructor—J. Siekmann.

Engr. 299, Research in Engineering, arrangements not complete, one unit, \$20.

Math. 122A, Advanced Calculus, Monday and Wednesday, 4:30-6 p.m., three units, \$40, Instructor—C. J. Thorne.

Math. 131A, Statistics, Tuesday and Thursday, 4:30-6 p.m., three units, \$40, Instructor—J. S. Dinsmore.

Math. 139, Automatic Digital Calculators, Tuesday and Thursday, 6:30-8 p.m., three units, \$40, Instructor—A. A. Fojt.

Math. 197, Introduction to Functional Analysis, Tuesday and Thursday, 4:30-6 p.m., three units, \$40, Instructor—D. E. Zilmer.

Math. 221A, Higher Algebra, Tuesday and Thursday, 4:30-6 p.m., three units, \$40, Instructor—R. B. Leipnik.

Meteorology 142ABC, Photochemistry of the Upper Atmosphere, Thursday, 7:30-10:30 p.m., three units, \$40, Instructor—S. V. Venkateswaran.

Oceanography 101ABC, Monday, 6:30-9 p.m., three units, \$40, Instructor—P. M. Wennkens.

Physics 112, Thermodynamics and Introduction to Kinetic Theory, Tuesday and Thursday, 4:30-6 p.m., three units, \$40, Instructor—G. J. Plain.

Physics 166DEF, Quantum Mechanics II, Monday and Wednesday, 4:30-6 p.m., three units, \$40, Instructor—R. H. Knipe.

Psychology 153ABC, Theory of Group Dynamics, Wednesday, 7:30-9 p.m., three units, \$40, Instructor—H. B. Larsen.

Real Estate 842AB, Monday, 7-10 p.m., two units, \$25, Instructor—R. Snell.

Vera Gibson Says Vote Registrations Lag in Kern County

A resolution calling for maximum voter registration in Kern County was approved by the Board of Supervisors this week. The resolution, presented by County Clerk Vera Gibson, cited dwindling registrations for the 1960 general election, and urged qualified voters to register before the September 15 deadline.

According to Miss Gibson, current registrations for the November election are nearly 6,000 short of the total recorded two years ago. In 1958, 111,557 Kern residents were eligible to vote in the general election, and registrations as of late last week totaled only 105,741.

The County Clerk said current estimates show this year's registration total should reach 120,000. But she said unless there is more public response, it is doubtful the figure will be realized.

In a telephone call to LeRoy Jackson, Associate Head for Community Relations, Roy Woollores, First District Supervisor, this week indicated that he would seek a ruling from the State Attorney on the new California election law that makes it mandatory for "new resident" voters who wish to vote

Station Employee's Son Wins AF Wings

Second Lieutenant James G. Fagnant, son of Mr. and Mrs. Ward T. Fagnant, 108-B Hornet, has been awarded the silver wings of an Air Force jet pilot at Laredo Air Force Base, Texas.

The former Burroughs High School graduate, class of '54, received his wings following fourteen months of intensive pilot training. He was a four-year letterman in track and field events at Burroughs.

Lt. Fagnant graduated from the

2nd Lt. James G. Fagnant

University of Portland in 1959 with a B.S. degree in Physics. At the same time he received his commission in the United States Air Force Reserve through the AFROTC program conducted at that university. While attending the university, the lieutenant lettered in track four times. He also was an active member of the Physics Club, Arnold Air Society and Treasurer of the Lettermens Club.

The 24-year-old jet pilot is being assigned to Stead Air Force Base, Nevada, for helicopter training.

Dump Area Edict Is Issued to Residents

Station residents are no longer admitted to the dump area at the south end of Richmond Rd. unless they have secured permission from the contractor. Parents are especially urged to warn children away from the area due to the inevitable hazard from heavy duty equipment and unsanitary conditions peculiar to this service.

Because smoke interference has, on occasion, curtailed ideal photographic conditions deemed vital by the technical departments, it is no longer planned to burn rubbish; the present contract calls for a sanitary land fill instead. This necessitates a plan whereby the contractor must supervise all unloading.

Anyone requiring access to the dumping grounds is asked to call the contractor on Ext. 72737 between 7:30 a.m. and 4:30 p.m., Monday through Saturday, to secure permission. Each Saturday, from 9 a.m. through 4 p.m., has been set aside for approved tenant dumping, and an employee on duty will direct all operations.

to have to go to Bakersfield to register.

Woollores hopes that a favorable decision can be obtained which will enable deputy registrars to register "new residents" in this area who wish to vote for presidential electors in the Nov. 8 election.

Succeeds Smith

Knemeyer Named Head Of Weapons Development

Frank Knemeyer has been named to succeed Bernard Smith as Head of the Weapons Development Department, according to an announcement this week by Station Commander Capt. W. W. Hollister.

Knemeyer's appointment comes as the result of Smith being detailed to the Naval War College, Newport, R. I., for one year with the Long-Range Studies Project. He will serve as Research Associate with Adm. Edwin B. Hooper on Navy strategic and tactical problems.

The new department head, a graduate of CalTech with B.S. and M.A. degrees in aeronautical engineering, came to NOTS in June of 1948 from BuOrd's Guided Missile Division Re9.

His first employment at NOTS was with the old Aerodynamics Branch, Aeroballistics Division of the Research Department. Following this he served with UOD's Engineering Div., the Test Department, and as Head of the Aeroballistics Design and Analysis Branch of the Research Department. Prior to his appointment as Assistant Department Head of the Weapons Development Department in May of 1959, he was an associate for Engineering and Analysis to the Weapons Planning Group.

On graduating from CalTech in 1944 he worked for the Douglas Aircraft and at NACA, Langley Field, Va., before entering the Navy as an Ensign. Much of his ordnance experience was gained in the Navy prior to his Civil Service employment. While in the service he was a member of the initial training team for the NOTS-developed Tiny Tim rocket of WW-II fame.

Work at NOTS

His work at NOTS has included aeroballistic design for a special weapons bomb, project engineer for development and design of ballistic shapes, early ballistic work for RAT. He contributed to engineering analysis of new weapons concepts which led to Polaris. He also served as a NOTS member on the Special Projects Panel for establishing the design characteristics of Polaris.

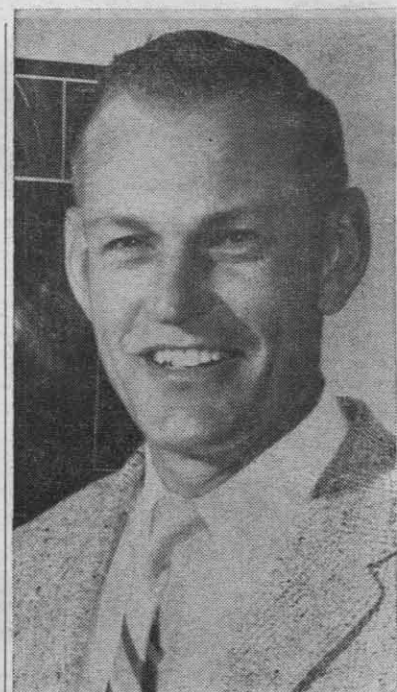

While serving as Assistant Department Head of Weapons Development he has been instrumental in establishing a conventional ordnance and warhead research program for NOTS.

In 1950 he met and married Cecilia Cook, a teacher in the China Lake School system. They now have four children, Kathryn, 8, Margaret, 6, John, 3, and Elizabeth, 18 months. The Knemeyers live at 511-B Lexington Ave.

Bernard Smith
Bernard Smith, better known to his associates as "Barney," has served as Head of Weapons Development since April of 1958. Prior to that he was Head of Central

Bernard Smith

Frank Knemeyer

Staff from July 1956 until his transfer to Weapons Development. Barney came to NOTS in 1948 following his graduation from Reed College. He served as Head of the Surface Weapons Division of the old Rocket Development Department until his Central Staff appointment.

Considered one of the foremost authorities in the field of rockets and missiles, he has three unique distinctions in his career—he never finished high school, he entered college as a freshman at the age of 34, and was among the first men in America to publicly fire a liquid-fuel rocket.

He has authored and co-authored over 26 classified technical reports on rocket development and has received numerous patents on rocket devices since coming to NOTS.

In 1957, Barney, his wife, Sylvia, and daughter, Susan, were selected to represent California as the All-American Family at Miami, Fla.

Pest Control Spraying Scheduled for Sept. 1

The Station pest control program of outside areas will be resumed next Thursday, September 1, and tenants are reminded that their cooperation is solicited in order that this task may be carried out effectively.

Exterior spraying will be accomplished only during the morning hours beginning at 6:30 a.m. Although the spray is non-toxic, children should be cautioned to keep a safe distance from the trucks as a safety factor, and it is also possible that direct contact with the spray may produce a slight adverse reaction.

Exterminators urge residents to keep clothes lines free in order to allow the spray to reach a greater area.

Tenants will receive advance notice when it is planned to spray interiors, and no house calls will be made prior to 8:30 a.m. All drawers should be removed and stacked in the center of the room, and closet and cabinet doors should be left open and windows closed.

Occupants not generally home during the day are asked to make arrangements with a neighbor to admit workers as they are not permitted to enter when tenants are not home.

What's Doing IN RECREATION

By Jean Cone, Recreation Director

MELODIC FOUR—Following engagements in Las Vegas, Miami, and a stint on the Ed Sullivan Show, the Ink Spots will delight audiences at China Lake this weekend with their superb musical renditions.

One of the country's top dance bands and an internationally known vocal group will be coming to China Lake this weekend. It will be an entertainment highlight of the year when the Ink Spots and Chuck Cabot and his orchestra are featured at tonight's Adult Station Dance at the Community Center.

The Ink Spots will also entertain at the Commissioned Officer's Mess Friday evening. Saturday they will appear at the Enlisted Men's Club and the Chief Petty Officer's Club. Chuck Cabot's orchestra will play at the CPO Club while the EM Club will have the "Epics" to play for dancing at their patio party.

Internationally Known

Of all the vocal groups whose names are internationally known, the Ink Spots are the most widely known. They have always had the exceptional ability to spin melodies into memories and bring a song to your lips. Thus, a brilliant blend of vocal artistry in genuine emotional appeal makes every Ink Spot rendition an unforgettable hit.

The Ink Spots have recorded such hits as "If I Didn't Care," "Maybe," "Java Jive," "Do I Worry," "Making Believe," "Every Night About This Time," "Whispering Grass," etc.

The Ink Spots' story is not new; they have been around a long time, and have appeared on the stages of every outstanding theater in the world. Leaders in the entertainment field for more than a decade, they break records wherever they appear. Their vocalizing is silky, smooth and honey-sweet.

The Ink Spots are invincible in rhythm and styling; often imitated but never copied—this is truly a tribute to a great group!

Chuck Cabot

Last weekend Hollywood welcomed Chuck Cabot, one of its favorite sons, "back home" with a highly successful dance debut at the Palladium. This famed musical leader had been making record-breaking appearances at top hotels, ballrooms, and college dates in the East for 10 years.

Cabot was reared in San Fer-

nando where he attended high school. He was not only outstanding in music but also one of the greatest athletes in the school's history. Cabot continued his athletic and musical career at the University of Southern California, and later at the University of California at Los Angeles. He played at most dances on both campuses, and at one of these college proms was heard by bandleader Kay Kyser. Kyser put him on his nationwide radio show and Cabot was on his way toward a musical career.

The rest of his story is now musical history, and the public agrees that "You'll Want to Get the Dancing Habit" after listening to Chuck Cabot and his Orchestra.

Dance time tonight at the Community Center is 9 p.m. with the Ink Spots show scheduled for 10 p.m. The usual admission will be charged, which is \$1 for men, women admitted free.

Fleet Gets Polaris Fire Control Model

Delivery of the first production model Polaris fire-control trainer to the Navy will help teach crews aboard fleet ballistic missile submarines how to launch the intermediate-range weapon.

It will be installed aboard the nuclear-powered Theodore Roosevelt, now under construction at the Mare Island Shipyard. These trainers will also be standard equipment on the George Washington and Ethan Allen ballistic submarines.

The electronic device can be connected to the fire-control system of the submarine to permit complete launching operations on the same equipment used to fire a missile.—(AFPS)

SHOWBOAT

TODAY AUG. 26
"ON THE WATERFRONT" (108 Min.)
Marlon Brando, Eva Marie Saint
7 p.m.

(Drama) Former boxer, now a waterfront union henchman, falls for a girl whose brother was killed by the union. He is torn between loyalty to the mob and her until a brutal climax. This is as rough and tough as they come. Adults-Young People
SHORTS: "Magoo Meets Frankenstein" (7 Min.)

SAT. AUG. 27
MATINEE
"ROBBERS' ROOST" (80 Min.)
George Montgomery
SHORTS: "Salt Water Tabby" (7 Min.)
"Zorro's Fighting Legion" No. 10 (17 Min.)

7 p.m.

(Comedy) This composite of "classic" comedy sequences by the Stooges is narrated by Paul Winchell and Jerry Mahoney. It's strictly nonsensical relief from "message" films.

SHORTS: "Grizzly Gaffer" (7 Min.)
"Cruise of the Eagle" (18 Min.)

SUN.-MON. AUG. 28-29
"ADVENTURES OF HUCKLEBERRY FINN" (107 Min.)

(Comedy-Drama) Mark Twain's epic of the boy with a longing to follow the riverboats, who gets in trouble and runs away with a slave, and their adventures thereafter. Family

SHORTS: "Freelancing Feline" (7 Min.)

TUES.-WED. AUG. 30-31
"BETWEEN TIME AND ETERNITY" (98 Min.)

(Drama) An incurably ill married woman has a last fling by restless travels and finally meets a handsome young fisherman whose plans are to flee her. Unusual melodrama of a reckless woman. Adults-Young People

SHORTS: "Swinging Down the Lanes" (10 Min.)

THURS.-FRI. SEPT. 1-2
"SAYONARA" (147 Min.)

(Drama) Airmen are sent to Japan to overcome battle fatigue. One falls for Oriental dancer after breakup with hometown fiancée. Inter-relation problems and animosity create a sensitive, dramatically interesting offbeat story. Adults-Young People

SHORTS: "Swinging Down the Lanes" (10 Min.)

Registration Deadline Announced for Scheduled Interdepartmental Courses

Registrants have until September 9 in which to submit the In-Service Training Course Enrollment Authorization Form to Code 65401 for participation in both the Supervisor and Professional Development Program courses.

Each department establishes its own authorization criteria and supervisors should check on department policy prior to enrollment. Each employee whose application has been approved will be so advised before classes commence.

Certain courses are limited to supervisors at designated levels of responsibility and authority, or are restricted to supervisors of a certain type. These participation levels are as follows: **Level I**—through GS-8, Head (per diem supervisor below leadingman status); **Level II**—GS-9 and 10, Leadingman; **Level III**—GS-11, Quartermaster; **Level IV**—GS-12, Chief Quartermaster; **Level V**—GS-13 and above, Foreman, Master.

Classes
These courses constitute a small part of the available supervisory training, and supervisors are encouraged to review the Supervisor Development Manual and investigate the possibilities for individualized development plans before enrolling in the courses listed below:

Workshop for Clerical Supervisors scheduled for 24 hours, October 31 through November 3; Coordinator—R. A. Harrison. This course will emphasize the human relations and communications problems involved in supervising clerical personnel.

Workshop for Leadingmen scheduled for 24 hours, December 5-8; Coordinator—R. A. Harrison. True and theoretical presentations, discussions, and practice assignments in human relations and communications problems involved in supervising per diem employees.

Workshop for Quartermasters scheduled for 24 hours, January 16-19, 1961; Coordinator—R. A. Harrison. Similar to above.

Procedure Analysis scheduled for 32 hours, November 14-18; Coordinator—T. A. Gerbrick. The scientific method of selecting a preferable paper work routine and all activity and equipment related to it. Open to all levels.

Employee Management Relations scheduled for 16 hours, two hours each Wednesday beginning October 19 and ending December 14; Coordinator—A. E. Ross. This course will stress the philosophy of employee management relations at NOTS and will consider supervisor-subordinate relationships in many administrative areas. Open to all levels.

Purchasing and Contracting at NOTS scheduled for 6 hours, 1½ hours each Wednesday beginning October 5-26; Coordinator—Cdr. H. J. Hicks and J. E. Fletcher. This

Promotional Opportunities

Clerk (DMT) GS-5, PD 31750, Code 457. Schedules activities of the Division Head; Secretary to the Head, trains branch secretaries; prepares and reviews correspondence and reports for the division and the Prop. Analysis Branch; establishment and maintenance of division files.

Secretary (Steno) GS-4, PD 16019-AMVIII, Code 453. Performs stenographic and clerical duties without technical instructions; composes correspondence as assigned; supplies accurate information to, or refers to proper channels; handles the listings and applications for all vacation housing; arranges interviews or appointments.

Management Analyst, GS-12, PD 18336, Code 0001. Develops requirements for and preparing and maintaining war plans for the Station; special assignments or projects based on urgency, availability or background and experience factors.

File applications for above positions with Dixie Shanahan, Room 26, Personnel Bldg., Ext. 72676.

General Engineer, GS-11, PD 23588 Am-I, Code 55. Incumbent acts as consultant to contractors, other government agencies and to engineers and scientists of development departments on problems involving production design methods and processes which will facilitate economical production.

Movie Picture Photographer, GS-7 or 9, PD 29058, Code 7523. Duties of motion picture cameraman and service as Head Cinematographer.

File application for above position with Pat Gault, Room 31, Personnel Bldg., Ext. 71393.

Salvation Army Pickups

To economize time and effort in handling pickups by the Salvation Army, due in this area around Sept. 1, the Parish House, at 71 Hussey, will be open to receive contributions of clothing, etc., from 7:15 a.m. to 5:30 p.m. on Tuesday and Wednesday, Aug. 30 and 31.

Clerk-Typist, GS-3, PD28026AmI, Code 3002. Sorts and processes incoming and outgoing material, types official correspondence, maintains department files and operates various duplicating machines. Also serves as an alternate for the custodian of secret material.

Sports Slants

By Chuck Mangold, Athletic Director

The Pilot Plant softball team won the 1960 Intramural Softball Championship again this year by winning 25 out of 30 games. Bert Andreason was the workhorse of the team, winning 16 out of the 18 games he pitched. Andreason was supported by Bob Kochman who won 9 and lost 1 for the season.

Crew's News

By R. C. Sipin, PN1

Ens. Mickelson is back from the "Career Appraisal and Counseling Course" at San Diego—completion of this refresher instruction gives a blue-print of every service-man's career; facts we should all know about ourselves. Anyone desiring to know more about Social Security, NSLI, Contingency Option Act or the Service-man's Indemnity Act, contact the NOTS I&E Office for an appointment.

The indoctrination program published in the Plan of the Day is a MUST for attendance by every man attached to NOTS EnlPers. The movies presented are visual aids toward recognizing your personal value, moral responsibilities and emphasizing the promotion of discipline. We should, therefore, learn from the examples discussed in this training. On previous showings, there were not even a few from other divisions—why? Your guess is as good as mine.

Another MUST in consonance with our program is the Station Tour for indoctrinating new arrivals. Although this tour is rather new, we thank the cooperation of the CMA for making it workable. A hearty handshake to Floyd W. Yingst, AKI, who re-enlisted for another six years . . . came aboard in April '57 and is assigned primary duties at Aviation Material Supply Section.

Personnel of military units are invited to participate in a Station Intramural Bowling League. Points earned in this league will go toward the Captain's Trophy. Entries for subject tournament must be submitted to the Special Services Office, Code 855, not later than September 12, 1960 and should include the name of the team and phone number of the team captain. A meeting of all interested personnel will be held in the Conference Room of the Housing Building at 1 p.m., September 14.

Football
Forty-five football players reported last Monday night for the first practice session of the season. Workouts are being held Monday through Friday night from 7 p.m. to 9 p.m. at Schoeffel Field. The coaching staff invites all military personnel interested in playing football to participate in the practice workouts.

The first game of the season will be played against the El Toro Marines at Santa Ana on September 24. The first home game will be played against the Seal Beach Navy on October 1. All home games will be played at Kelley Field.

The unit is acting as host to both national and foreign civilian and military personnel who are attending a one week instructional course for familiarization with the TARTAR missile test gear.

Last Friday, members of the unit and their dependents gathered at Sandquist Spa for Operation Destruction. Targets were about 60 prime steaks and undetermined containers of cheer. Needless to say . . . mission accomplished!

Congratulations to Robert Galvin, FTI, and wife Lois, on the safe arrival of a pretty pink bundle last Friday. No report as to her name, but Dad was real excited when he reported the new addition. This makes three of a kind . . . Lisa and Linda are the two other cards.

Chow time . . . and time to sign off . . . let's have some news from you fellows at the VX-5 and the Marine Barracks . . . remember it's your column. See you next week with more news.

The team was rewarded for their 1960 effort with a dinner at the Hideaway Cafe last Saturday night. Team members and their batting averages for the season were: Bob Kochman, .194; Bert Andreason, .246; Denny Crager, .315; Bob Forrester, .396; Max Smith, .470; Bob Crawford, .333; Earl Roby, .315; Buddy Deffes, .200; Lou Radcliff, .186; Roger Short, .310; Duane Goff, .348; Pete Zamarron, .000; Frank Ampanano, .366; Gary Stevenson, .442; and George Bowles, .333.

Max Smith also led the team in the slugging department with 14 doubles, 5 triples, and 8 home runs. A team trophy was presented to manager Bob McClary at the dinner.

The Station has entered a team in the International Softball Congress World Tournament to be played in Long Beach, California, starting tomorrow night. In this double elimination tournament, sixteen of the best softball teams in the U.S., Canada, and Mexico will be competing.

The Station team will be represented by a combination of military and civilian players. Players making the trip will be Ace Cook, Denny Crager, Ace Valenzuela, Tony Ortega, Ron Brown, Bob Thompson, Gary Stevenson, Ron Cordes, Max Smith, Bill Mathews, Bert Galoway, and Tommy Galyon. Coaching the team are Pete Zamarron and Joe Striffler. Chris Hinz is the business manager of the ball club.

The Station team plays the World Champion Long Beach Nike Hawks at 7:30 p.m., Saturday, August 27, at Park Avenue Field, which is located across from the Woodrow Wilson High School.

News From Pasadena

Four Reservations Open On Hawaii Trip During Sept.

There are four reservations open on the NOTS Overseas Club's Hawaii trip due to leave in two more weeks, announces Leonard Semeyn, Chairman. The group will leave Los Angeles on September 9 via Jet for Honolulu, and will return September 23. Eleven days annual leave will cover the trip and no passports, visas, or vaccinations are required.

Making their headquarters at the Edgewater Hotel, the vacationers will during their two-week trip tour various sights of interest including: a scenic city tour of Honolulu, Pearl Harbor cruise during which they will visit battleship row, visit a pineapple cannery, take an all-day outing covering more than 100 miles of the Island of Oahu, and attend a Hawaii Falls broadcast and Kodak hula show.

They will also spend an afternoon on a Mt. Tantalus tour, including part of the Civic Center, Punchbowl Crater, National Cemetery, tropical rain forest with its top of the island view, Manoa Valley, and many other areas of interest.

One evening they will attend an authentic Hawaiian Luau where they'll feast on poi, kalua pig, lomilomi salmon, lau-lau, coconut pudding and other native delicacies, and be entertained in Polynesian style.

Cost of the trip is \$429 per person which includes the round-trip by Jet, hotels, and sightseeing. Itineraries are available at Pasadena from Nova Semyn and at China Lake from Marilyn Dempsey.
