SNORT Tests Artillery Shell Recovery

In Army Ballistics 'Baseball' Game

"We've got 'em both!" Just four, casual little words emanate from 1st Lt. William W. Snort, 24, of Berkeley, Calif., as a tapped artillery projectile, appear at the rear of the recovery sled. But the placid tone of his voice belies the intricate mathematical calculations and precise timing click to complete the third in a series of successful "double-shots" at the CATSHELL project here on February 10, 16, and 22.

The "CATSHELL" project is an offshoot of the "baseball" game proposed by Lt. Snort when he was an artillery officer and had a yen to test the limits of what was possible. The original idea was that a baseball game could be played with artillery rounds. But the first round would have to be tapped to ensure that the second would be fired from the rear of the recovery sled.

The Army's Double Pitch

The Army's version of "baseball" for target recovery is in order to test the limits of what is possible. The idea for the recovery system was conceived in March, 1958.

The idea for the rocket sled recovery was conceived in March, 1958. The Army stresses that the rockets were used to test the limits of what is possible.

While the idea for the rockets was conceived in March, 1958, the actual tests started here last March. 22 shell firings, most of which were single shots, of about 80 mm were successful.

The test projects for the CATSHELL were successful in 3 of 4 attempts.

The CATSHELL was designed for target recovery, and is filled with the target area is relatively small. It is filled with projectiles which are typically about 100 mm in diameter. The CATSHELL is a sledding system which can be used to recover artillery projectiles. It is typically used in conjunction with a rocket sled, which is used to deliver the projectile to the target area. The CATSHELL is a reusable system, and can be used multiple times. It is typically used in conjunction with a rocket sled, which is used to deliver the projectile to the target area. The CATSHELL is a reusable system, and can be used multiple times.
Art Festival Attracts Keen Competition

Art appreciation was at its height last weekend as a large number of spectators visited the Art Festival held at the China Lake Community Center. Supported by the Los Angeles Art Dealers Association, the event was hosted by the China Lake Community Club. Over 100 artists participated, offering a diverse range of works ranging from paintings and sculpture to photography and mixed media. The event was a testament to the rich artistic community that thrives in the region.

Progress on the nine hole extension
Chuck Fritchman·Bob Kochman Krausman, Thelma Baldwin, Roby and Gary Stevenson paired to demonstrate their interest in the project. The team worked tirelessly to ensure the best solution overall.

Professional Exhibitions
In the professional category, the first place went to Jack Smithson. Displaying an array of works, Smithson received a standing ovation from the audience.

Meetings
PERSEPHONE: Joel B. McLaughlin will lead the meeting at 7:30 p.m. on Thursday, March 23, at the China Lake Community Center. The meeting will focus on the current state of the community and future plans.

PROMOTIONAL OPPORTUNITIES
Robert Jones, chairman, encourages everyone to participate in the upcoming community event. The event will take place on Saturday, April 1, at the China Lake Community Center.

Commissary Store
Commissary Store will be open on Saturday, March 23, from 9 a.m. to 2 p.m. at the China Lake Community Center.

Six Winners Win 18 Firsts In Meet
First place winners in the China Lake Community Center's Meet included: Virginia Davis, Harry Johnson, and Tom Hopper. They were followed by two others in the top-three places.

Sports Slants
Roby-Stevenson Take Station's Golfing Title
Putting together four rounds of 22-31-32-32, Earl Roby and Gary Stevenson paired to demonstrate their supremacy over the local links. This marked the first victory of the "Waddie Cup" at the station.

Companions
Loris, Leon Forsyth, Kelvin Clark, Thomas Baldwin, and Melville Wilson were among the attendees.

Events
All Events (handicap): - Joanne Kryczka, Thomas Baldwin, China Lake Community Club; - Bruce Cooper, Bud Wilson, Radio

20-BOY CLE- May 20, 20-BOY Club will tour the station's golf course. The event will begin at 7:30 p.m. at the China Lake Community Center.

Adviser to Discuss Stock Market Trend
Adviser to discuss stock market trends at a meeting to be held on Thursday, March 23, at 7:30 p.m. at the China Lake Community Center.

23 Foreign Students Tour Here Monday
Twenty-three foreign students will tour the station on Monday, March 23. The students will be accompanied by their local host families.

Commissary Store
Commissary Store will be open on Saturday, March 23, from 9 a.m. to 2 p.m. at the China Lake Community Center.

Driving Tip of the Week
When driving in a relief truck, it is important to familiarize yourself with the given driving instructions.
