

# Pictorial HiLights

**ANSWER PLEA** — Don Yockey, member of the Campership Child Welfare Fund committee, accepts a \$100 contribution from Dr. Arnold Adicoff on behalf of the China Lake Elementary Schools P-TA. The program provides a camping experience for youngsters who could not otherwise afford to attend. Additional financial aid is welcomed.

**MUSEUM FUNDS BANKED**—Sylvia Winslow, curator for the Maturango Museum witnesses the deposit of funds as Ken Williams (l) museum president, transfers monies to Thomas D. Reese, Ridgecrest bank manager. Funds represent membership paid into the museum during recent Antique Show.

**ANOTHER HITCH** — Robert E. Webb, GMG1, is sworn in for a four-year reenlistment by Capt. J. A. Quense. Formerly with GMU-25, the nineteen-year veteran is now attached to NOTS Personnel.

**OPEN HOUSE EXHIBIT** — Lloyd Brubaker, faculty advisor, and science students, Willy Bischel and Marie Torkelson, view construction progress on the outdoor aquatic life tank — an added attraction to the Junior Museum at Murray School. All portions of the museum will be open for public inspection tomorrow from 10 a.m. to 4 p.m., and from 12 noon to 4 p.m. on Sunday.

**HOLLISTER TOURNEY CHAMPS** — Captain Charles Blenman, Jr. (left) assists with the trophy presentation awarded to Terry Haycock, second from left, and Ed Zworski, right, by Capt. W. E. Hollister, USN (Ret.). Haycock and Zworski were the outstanding team in the annual golf tournament conducted this year as a "Best Ball of Partners Event."

## SHOWBOAT

**TODAY** "PINOCCHIO" (87 Min.) MAY 11  
Disney Cartoon Feature  
6 and 8 p.m.  
(Fantasy in Color) Delightful whimsy about a puppet who becomes a boy and Jiminy Cricket as his conscience (He's addicted to telling lies). For kids 3 to 63! (Family)  
SHORT: "Japan" (27 Min.) (Family)

**SATURDAY** —MAY 12  
"ENEMY IN SPACE" (84 Min.)  
Brian Donlevy  
1 p.m.  
SHORT: "Canvas Back Duck" (7 Min.)  
"Radar Men No. 5" (13 Min.)  
"ANNIE GET YOUR GUN" (107 Min.)  
Betty Hutton Howard Keel  
7 p.m.  
(Musical in Color) A classic entertainment about Little Annie Oakley who joins the Buffalo Bill tent show and almost loses her romance by out-shooting the show's crack shot. A big, brassy show with top tunes too. (Family)

**SUN.-MON.** MAY 13-14  
"MERRILL'S MARAUDERS" (96 Min.)  
Jeff Chandler, Ty Hardin  
6 and 8 p.m. Sunday  
7 p.m. Monday  
(War Drama in Color) Burma 1944. Brig. Gen. Frank Merrill is forced to use dog-tired troops on a mission through dense jungle to effect capture of a critical target. This was Chandler's last film — a tribute to him and the famed General.  
(Adults and Young People)

**TUESDAY** MAY 15  
"DREAM WIFE" (99 Min.)  
Cary Grant, Debra Kerr  
7 p.m.  
(Comedy in Color) Businessman returns from Middle East to marry a state Department aide, but she's too busy with a crisis in the country he just left. So he sends for a Khan's daughter he met and the State Dept. chaperones his romance. This is a real howl.  
(Adults and Young People)

**WEDNESDAY** MAY 16  
CIVIC CONCERT  
MAY 17-18  
"RED HOT WHEELS" (91 Min.)  
Clark Gable, Barbara Stanwyck  
7 p.m. Thursday  
6 and 8 p.m. Friday  
(Action) Devil-may-care race driver is barred from midjet tracks due to the publicity he earned at stunt-driving to enter Indianapolis.  
(Adults and Young People)

**SHORT:** "Crow's Feet" (7 Min.)  
"Fabulous Mexico" (16 Min.)

## SPORTS SLANTS

### Keen Contest Seen For Open Tennis Tournament

The invitation is out to all civilian and military personnel to enter the annual China Lake Open Tennis Tourney to be held the weekends of May 19-20, 26-27, and the final playoff on May 30.

Scheduled events are Men's Doubles and Singles, Mixed Doubles, and Women's Singles. The fee is \$1 per event for civilians and 50 cents for all military and students.

Entrants may apply by calling Beverly O'Neill, Charles Waldon, Grace Rowison or Gerry Whitnack and entries will be accepted until 6 p.m. Friday, May 18.

### Golf

Champions in last week's Hollister Best Ball of Partners Tourney were T. Haycock and Ed Zworski—first place; B. McIntosh and J. Machowsky—second place; and G. Mead - M. Wolfson in third place.

The Closest-to-Hole Contest was topped by B. Mitchell in first place and Adm. Burroughs in second.

## RECREATION BILL

### Disneyland Membership Cards 'Hot Off The Press'

Current Gold Cards expire June 1, and the new edition may be obtained at the receptionist desk in the Community Center. No fee—just sign up today for your new Disneyland membership card.

Reservations may be secured at the Community Center, Ext. 72010.

Tickets Available There are still some tickets on hand for the stage play "Will Success Spoil Rock Hunter" starring the voluptuous June Wilkinson.

The successful stage production, a spoof on Madison Avenue, will be presented the evening of May 22.

## Meetings...

IRE meeting will be held next Tuesday in Mich Lab conference room A at 8:30 p.m. Guest speaker, R. B. Johnson of IBM, will discuss "Automatic Data Processing in the Internal Revenue Service."

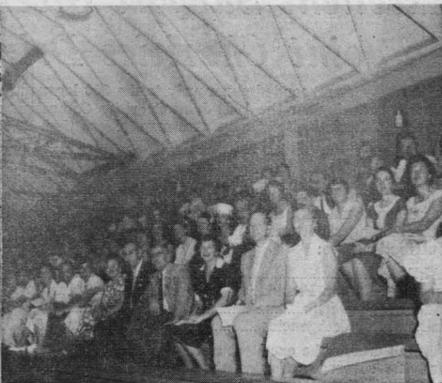

# Dedication of Burroughs High Climaxes 'School Week'

HUNDREDS OF spectators and participants last Saturday were present at the Burroughs high school gymnasium for dedication ceremonies that brought back to China Lake former Commander of Naval Ordnance Test

Station, RAdm. Sherman E. Burroughs as a guest speaker. Crowd in stands heard selections of the school choral group, witnessed presentation (center) of lifetime, gold-plated student membership card to Ad-

miral Burroughs by President of Student Body Jeff Besser, and heard school band perform before and after program. State and local educators, local dignitaries and NOTS representatives were present for ceremonies.

## A BETTER WAY!

### Value Engineering May Help You Find One

Is there a better, cheaper, and more effective way of building a rocket? A missile? An electronic assembly? A technique called "Value Engineering" can help you retain essential function but improve reliability, producibility, maintainability, and at less cost.

An outgrowth of "value analysis"—developed by industry to improve products and reduce cost — value engineering has been adapted to military product-design during the R&D phase.

NOTS has long boasted of our SIDEWINDER 1A because it is one of the most effective and inexpensive weapons in service today. The success of the weapon, conceived by our Technical Director, Dr. McLean, resulted from his belief in the importance of simplicity in design.

This belief is further exemplified by RADM Ashworth, Assistant Chief for Research, Development and Test and former COMNOTS who, in a BUWEPS instruction, said: "The objective of Value Engineering is to guide initial design and development to meet the advanced performance, reliability and maintenance requirements of the fleet at the lowest over-all cost."

Three outstanding authorities in this field, who had key roles in developing the value analysis concept, will conduct a 2-week training course at China Lake starting May 28.

## WHAT'S MY LINE?

How good are you at guessing a person's occupation? As a continuing feature with a two-fold purpose, the Rocketeer will publish pictures of personnel employed here. It'll be your job to guess their occupations. Once you do, of course, you'll also have had the chance to meet some of the people who make ours the world's finest command. See page four for their identities.

### Getting A Busy Signal? Here's What's Being Done

The addition of six new telephone trunk lines from China Lake to Ridgecrest should provide faster service for local residents, according to an official for the California Interstate Telephone Co.

It was emphasized that the Company has been aware of the need for additional service and that the newly installed lines should help solve the problem. The phone company is presently installing new trunk lines for persons dialing off the base, a project which should be completed by July 30 this year, it was announced.

### Shift in Hours At Housing Office

Effective next Monday, all visits and calls to the Housing Office must be limited to the following hours:

Ret: from the 1st to 15th of each month, Monday and Friday hours are from 9:30 a.m. to 5:15 p.m.; Tuesday through Thursday from 9:30 a.m. to 4:30 p.m.

For the remainder of the month, daily hours are from 9:30 to 11:30 a.m., and from 12:30 to 4:30 p.m.

Housing assignment personnel will observe the same schedule throughout the month.

### Deadline Nears for Apprentice Exams

Filing deadline for apprentice exams has been set for Tuesday, May 15. It was emphasized this week by the Personnel Department.

Apprenticeship in the following trades will be offered: Electrician, Electronics Mechanic, Machinist, Pipefitter and Plumber.

All apprenticeships will include shop training and related academic work that may be credited toward a junior college degree. Personnel department will provide anyone interested in the exams with additional information on request.

## 'Open House' Set For Thousands Next Saturday

Preparations for this year's Armed Forces Day "Open House" both at China Lake and Pasadena shifted into high gear this week with thousands of spectators expected to turn out for a close-up view of NOTS facilities in action.

Presented with a "Power for Peace" theme, gates both here and at Pasadena will be swung open early Saturday for the public.

China Lake A combination of technical prowess and festivities will dominate the China Lake scene. Because of the distance traveled by a large portion of visitors, and the vast areas to be covered, extensive preparations are made to assure a pleasant tour for all participants.

Static displays at the Naval Air Facility and the Michelson Laboratory are offered by the Station's technical departments in an easy-to-understand presentation. The flight demonstrations and Sidewinder firing guarantee to draw thousands of sightseers.

For Future Scientists Young people will find of lasting interest the glass blowing (Continued on Page 3)

## JUNIOR AMBASSADOR

### Ronnie Aaron Gets Medal of Valor

China Lake's teen-aged, plane-crash hero, Ronnie Aaron, this week was decorated at the nation's capital before 250 members of Congress, military and civil aviation leaders and others attending the CAP's 20th anniversary dinner.

Presented the CAP's bronze medal of valor, one of the highest awards for bravery that can be earned, the 14-year-old youth drew praise from Senator Stuart Symington, former Air Force Secretary.

Apprenticeship in the following trades will be offered: Electrician, Electronics Mechanic, Machinist, Pipefitter and Plumber.

These handpicked young CAP cadets are truly junior ambassadors in today's troubled world," said Symington. Young Aaron was on an orientation flight with CAP Lieutenant Francis G. St. Louis when their plane, caught in a down-draft, crashed on a steep slope in the Owens Peak area. St. Louis was knocked unconscious and badly injured. Cadet Aaron, though injured, crawled a quarter of a mile for aid. He led a search party back to the scene of the wreckage, despite painful injuries. The pilot, according to the citation that accompanied Ronnie's medal, would have been further endangered had it not been for the heroic efforts of Cadet Aaron. Accompanying young Aaron to Washington were his parents, Mr. and Mrs. J. A. Aaron and Lieutenant Colonel Fred Richards, commander of the local CAP squadron.

### Excellent Support Given To Joint Charities Drive

Employees responded generously to the 200 keymen and solicitors working for the 1962 Joint Charities Campaign, according to Jesse A. Bell, drive chairman. More than \$8,000 was donated and the major portion designated to the various health agencies.

Results of the campaign represent a substantial increase in both the number of contributors and the total funds collected compared with the two previous joint campaigns. The increase ranges between 14 and 18 percent. Breakdown of contributions are:

CARE	\$1,295.95
American-Korean Foundation	732.88
Radio Free Europe	808.16
National Health Agencies	5,570.00

Bell credits the excellent work of the keymen and solicitors, the coverage afforded through newspaper and movie media, and the splendid groundwork of campaign planning clearly laid out by Dr. A. G. Hoyem, last year's chairman.

### CHAPLAIN'S MESSAGE

## Titov Saw No Trace Of God During Flight

Chaplain R. C. Fenning, USN

It was while he was up in Seattle taking in the Fair that Russian cosmonaut Gherman Titov had something to say about the existence of God. He declared firmly his disbelief in a deity. His reason? In 17 orbits of the earth he did not clip the wings of any angels, nor did he see evidence of a God.

He went on to state: "Up to our first orbital flight by Yuri Gagarin no God helped build our rocket. The rocket was made by our people. I don't believe in God. I believe in man, his strength, his possibilities, his reason."

Why these pronouncements found their way to page one of our morning paper we cannot understand. There is nothing surprising or unique about them. Religion is considered to be the tired victim of our scientific age, not only by Mr. Titov but by all materialists, both foreign and domestic.

We shall not yet turn the chapel into a gymnasium or museum. There are a few items of unfinished business which point up the fact that the strident at-

tempt to prepare God's tombstone is somewhat premature.

Over the centuries we have come to know that the sun does not circle the earth as we had once thought it did; and man is not quite as much the center of things as he believed. But our visitor says that the opposite is true.

Man has emerged as the God we have wanted to believe in all of the time. The point is that this enables us to explain the whole business without a Creator. Yet, what bothers us is that this pat little system always uses the presumption that matter has always existed as its launching pad.

It is faith, not scientific evidence, that inspires our belief in an eternal God. But just how does science explain the existence of whatever it was that started all this?

If faith does not offer a satisfactory explanation of God's existence for Mr. Titov, it can nevertheless be said that it provides a purpose for living that many of us have not been able to find anywhere else.

### MIT Professor To Address ASPA

The ASPA luncheon on May 17 will feature as guest speaker, Professor Ithiel de Sola Pool of the Center for International Studies at MIT. His topic will be "Simulmatics."

Formerly a director of Research Program of International Communication and consultant to the Rand Corporation in political opinion and democracy, his work in Simulmatics includes a successful computer simulation of the 1960 political elections.

ASPA members and guests are requested to call Ext. 72015 for reservations.

### Advisory Council Formed at BJC

A student advisory group has been formed by members of the local campus of Bakersfield Junior College for the purpose of promoting a closer and informative relationship between the students and surrounding communities.

Jack Joyce, president, states that the organization is currently forming a constitution and by-laws. Student body projects are also being reviewed and discussed for future consideration.

Students, or other members of the community, interested in fostering this group are asked to call Ridgecrest 515501.

### Living Rosary To Honor All Mothers

A living rosary, sponsored by the Christian Family Movement of St. Ann's Parish, will be recited on Mother's Day at 3 p.m. at Kelly Field.

A Boy Scout color guard will open the prayer followed by the May crowning by St. Ann's school children. The rosary recitation will be conducted with a benediction.

### QUESTIONS & ANSWERS

## How Much Do You Know About Pay Bill?

Q. How is the range of each Classification Act determined?

A. In all except the top five grades (GS-16, GS-20), there is a spread of 30 percent from the entry rate to the top of the grade. Each within-grade increase amounts to 3 1/3 percent. This range is considered a material incentive for employees remaining in a grade for a substantial length of time. The spread is grades GS-16 and GS-17 is 20 percent and 10 percent. GS-18 to GS-20 have single rates. (GS-19 and GS-20 grades would be new.)

Q. What is the time interval between within-grade increases?

A. Instead of the present 1-year or 18-month waiting period, the increases would take effect as follows: once a year for the first three steps, once every two years for the next three steps, and once every three years for the last three steps. Thus the increases would be most frequent when proficiency on the job normally increases most rapidly. This would bring employees in grades GS-1 through GS-15 to the top of their grades in 18 years.

Q. Does the pay reform bill make any provision for within-grade raises because of excellent work?

A. Yes, the bill would allow giving merit increases not often than once a year in order to reward and encourage high quality performance. This is an established practice in private industry, and was formerly permitted by the Classification Act as late as 1954.

Q. Will the proposed bill correct the situation that sometimes occurs when a supervisor receives no more or even less pay than some of his subordinates under another pay system?

A. Yes. This situation sometimes occurs when a supervisor is paid under the Classification Act and his employees are paid at wage-board rates. The proposal would auth-

### EDITORIAL "I Am an American" Every Day in Year

There couldn't be a better time for observance of "I Am an American Day" than the third Sunday in May which this year falls on the 20th. For that date is the final day of Armed Forces Week, and Americans young and old, both in and out of uniform, will have been quickened by the demonstrations and displays of the military might, the Power for Peace, that guards their freedoms.

When Congress set aside this day 22 years ago the nation was only a year and a half away from entering the greatest war in its history. We did not know then—although the portents were numerous—that years of American sacrifice and bloodshed lay ahead. But we came out of the war, the civilian on the home front and the serviceman in battle, with a deeper, clearer personal sense of what it means to be able to say, "I am an American."

One basic meaning must be that of affirmation—not the negative hysteria of the extremist who cries from his housetop that he is more of an American than the next man and that anyone who disagrees with him is suspect of disloyalty. The third Sunday in May must never become a day of "I Am an American But You're Not!" For to love your country is, after all, a sheer impossibility if you malign the character and integrity of your fellow countrymen whose patriotic service in public life is indisputable.

To be an American, then, is to turn a deaf ear to zealots and extremists intoxicated by their group-fanaticism. It is to maintain a rational perspective on the dangers that beset us as a nation from without and on the leaders best qualified to cope with them. Genuine, healthy patriotism is marked by assurance and a belief in the unity of purpose of all men of good will.

### PART IV

orize raising his pay to any rate of his grade necessary to make his salary higher than the pay of his employees.

Q. Would a minimum raise be provided for an employee who is promoted from one grade to another?

A. Yes. His salary would be increased an amount that was at least the equivalent of two steps of the grade from which he was promoted.

Q. What is the size of the step increases?

A. They would range from \$105 per year in grades GS-1 and 2 to \$610 in grade GS-17 in 1963. Grades GS-18, 19, and 20 have a single rate.

Q. How about employees who have been in the seventh step of the grade for a long time but who were prevented from getting longevity rates because they had been in the grade for less than 10 years?

A. They would be converted to the corresponding step, and then their time in the 7th step would be applied toward the time requirement for the next step. For example, a person who had served 4 years in the top (seventh) step of GS-5 would be put in the 8th step of the new grade 5, then moved to the 8th because he had served the 3-year service requirement for that step. However, the extra year would not count toward his 3 years for moving up to the 9th step.

Q. How would the conversion affect employees in grades GS-12 to GS-17, who under the present system serve 18 months in order to earn a step increase?

A. They too will be put in the corresponding grades. For example, a GS-12 employee in the 2nd step would be converted to the 2nd step. If he had already served at least a year at the 2nd step, he would then be moved automatically to the 3rd step. However, if he had already served less than a year, his conversion would be to the 2nd step.

### BOOT CHIEFS BEWARE!

## CPO Initiation Rites Set For Next Wednesday

A full day of time-honored CPO initiation activities are in the works for a quartet of local Navy men who will be advanced to pay grade E-7 next Wednesday, May 16.

The Initiation Committee, comprised of Station CPOs, announced plans this week for the program that "tests a man's ability to wear the CPO uniform," according to one of the committee.

The CPO candidates will be escorted from their homes to a central location on the Station at 8:00 a.m., where the ceremonies begin.

## Versatile Actor-Folksinger Brings Talent to China Lake

The final performance for the 1961-62 NOTS Civic Concert Association will be staged by the noted actor and folksinger, Theodore Bikel, at the Station Theatre on Wednesday, May 16.

Performance will begin at 8:15 p.m.

Appearing in lieu of Charles Laughton, who found it necessary to cancel all engagements due to his recent injury, Bikel is a concert artist of astonishing versatility and magnetism. Other accomplishments which add to his sensational presentations are that of guitarist, linguist and raconteur.

Equally at home on stage or on camera, he has appeared in 13 movies, dozens of TV dramas, and has conquered audiences and critics alike in comedies and musicals on the Broadway stage.

Aside from his acting assignments, Bikel continues to build following with his renditions of folk songs in their original languages. A recording artist and concert performer of folk songs, he has sung on several Princess Margaret, and the Princess Margat, and the Duchess of eKnt.

Theodore Bikel

### SecNav Korth Due Here May 23rd

Secretary of the Navy Fred Korth will make China Lake a stop-over point during his West Coast tour of key military installations it was announced this week.

Expected to arrive here on the morning of May 23, Secretary Korth will remain here through noon that day to witness presentations and view NOTS facilities.

AAU MEET — Members of the Indian Wells Valley Swim Team who won awards at a recent AAU Meet in Fresno are (l-r): Top—Phyllis Haig, Ann Allan, Gina Hupka, Betty Sutherland, Nancy Nelligan; Middle—Steve Compton, Cheryl Campbell, Rita Burson, Jane Winward; Bottom—Paul Hupka, Donna Newman, Shawn Morrissey, and Patti Carlin.

HENNING FAMILY — With eleven children grouped around her, Alice Henning claimed with pride this week that "I already have my Mother's Day gift!" A Navy nurse during World War II, she met husband, a pilot attached to Naval Air Facility while he was

still an enlisted pilot and jokes today that she "outranked him." Biggest asset of large family, according to attractive brunette mother, is "unity we enjoy and common interests that keep us thinking in terms of the family."

### MOTHER'S DAY SALUTE!

### 'HEART OF FAMILY'

## Henning Family Boasts 'World's Greatest Mother'

Every day of the year is "Mother's Day" for Alice Henning, an attractive, brunette mother of eleven children.

"We have the world's best Mom!" they boasted in unison this week on the eve of Sunday's Mother's Day observance.

Married to Lieutenant Commander Walt Henning, attached to Naval Air Facility, the Henning family's "Queen" told a Rocketeer reporter of some of the joys she experiences as a member of a large family.

"In the first place, we all seem to have a lot of fun together. This makes for a happier life. We share mutual interests and problems as a family should.

"Most important of all, though," added the one-time Navy nurse, "a large family necessarily increases individual responsibility. It makes all the children aware of family first, then himself."

The family includes Joseph, 16, Patrick, 14, Kathleen, 12,

Jimmie, 11, Jerry, 10, Thomas, 8, Timothy, 7, Margaret, 6, Eileen, 4 1/2, Ann Marie, 3, and John, 18 months.

Being stationed at China Lake, according to the youngsters, is the "best thing that ever happened to us!" They say that the outdoor life this area provides gives the family the frequent opportunity to stay together on camping trips or short journeys.

Is transportation a problem for a family of 13?

"Not since we bought the camper," explained "Pop" Henning, pointing to the giant-sized camping wagon which he claims

is "the only way to travel." The Henning family also has a station wagon, "but we just grew too big for it," chuckled the Naval aviator.

While Mother's Day may customarily be observed through the presentation of gifts, Alice Henning isn't expecting an avalanche of presents. She may get a prized lizard from one of her sons and, several of her daughters will come in with colorful bouquets of wild flowers.

But, she claimed this week that the most treasured gift is the one she already has... "my family!"

### Research Scientists Present Various Technical Papers

Following the announcement of Dr. Bennett's technical presentations, the Research Department office released conference invitation of four additional colleagues.

Dr. Bertwin Langenecker presented a paper entitled "The Effects of Sonic and Ultrasonic Radiation on the Safety Factors of Rockets and Missiles" at the American Rocket Society meeting in Phoenix.

William Frandsen and Dr. Langenecker were invited to give a joint talk on the "Effects of Sound on the Physical Properties of Metals" to the Naval Postgraduate School at Monterey.

Two members of the Physics Division presented papers to the American Physical Society meeting in Washington, D. C. Dr. Ernst Bauer discussed "Electron Scattering From Free Atoms" and Stephen Colberg's paper was entitled "Plastic Deformation in Zinc Single Crystals by Sound Waves."

### ANCIENT ORIGIN

The word "mouse" is descended from the ancient Sanscrit word masha, meaning thief.

### Outdoor Shop And Gas Station Reschedule Hours

New hours of operation will go into effect for the Navy Exchange gas station and outdoor shop, Sunday, May 13, it was announced this week.

The two facilities will be open from 11:00 a.m. to 6:30 p.m. Monday through Friday; 8:00 a.m. to 4:00 p.m. Saturday; and from noon through 4:00 p.m. Sunday. These facilities will close for all holidays.

### Open House . . .

(Continued from Page 1)

demonstrations, computer revelations, chemistry magic and the "NOTS Story" on film.

Continuous showing of service films at the Station Theatre, a Burroughs High School Band concert, opening of the Open Tennis Tournament, and a special softball exhibition game between the world-famed California Cuties and the NOTS All Stars are some of the lighter and relaxing activities planned.

### Airport Shuttle Bus Schedule

CHINA LAKE AREA  
A shuttle bus will provide passenger transportation to and from Harvey Field, Inyokern, and China Lake daily except Saturday and Sunday. The stop at the Station Restaurant has been eliminated, as well as the requirement for Guard Mail pickup by the bus drivers.

China Lake-Harvey Field—AM		China Lake-Harvey Field—PM

Note: For further information call Travel Branch, Ext. 71378, China Lake, or Ext. 24, Pasadena.

## PROMOTIONAL OPPORTUNITIES AT NOTS

Present Station employees are encouraged to apply for the positions listed below. Applications should be accompanied by an up-to-date Form 58. The fact that positions are advertised here does not preclude the use of other means to fill these vacancies.

Clerk (DMT), GS-3 or 4, PD No. 135049. Code 3502 — incumbent's main duties are to substitute for Division or Branch Clerks whenever required (8 secretaries in Department). Must be fast and accurate typist.

130066, Code 3073 — Performs electronic engineering related to data acquisition systems applied to superconductive track tests. Excellent opportunity to gain experience with radio/link and landing telemetering systems and to develop competency in electronic data acquisition techniques. If position is filled at the GS-11 level, it will be considered as a training position for the GS-12.

Code 3002 — Incumbent serves as Head, Editorial Branch, and is responsible for the administration of the Branch as well as editing, writing and preparing technical publications for final printing and distribution.

Editorial Clerk (Veritytypist), GS-4 or Clerk Typist GS-3, (Temporary NTE 90 days), Code P8096 — Prepare final composition of typewritten technical publications and type informal monthly reports. Clerk Typists must have previous experience or training on IBM proportional spacing machine.
