

## Summer School Bus Schedule Stops Reported

Bus transportation will be provided for many of the elementary school students who have registered for the five-week summer school program that will be held on week-days.

This summer school program will begin on Monday and continue through July 26—except for the July 4 holiday.

Bus stops will be made at the same places as during the regular school year, but the times will differ because of the half-day summer school schedule.

### Information To Be Mailed

All youngsters participating in the elective program at Murray School for pre-fourth through pre-eighth grade classes will receive their bus schedules in the mail, along with their class assignment packets for summer school.

The following information, therefore, applies only to primary children in grades one through three who will attend classes either at Las Flores School in Ridgecrest, at Pierce School (Desert Park), and at Groves School (China Lake). On their return trip from school at noon each day, school bus stops will be made in reverse order of those scheduled in the morning.

### Inyokern Area Stops

Bus No. 8 will transport youngsters from the Inyokern area to Las Flores School, making the following stops: Stallings, 7 a.m.; Beckmans, 7:06 a.m.; Indian Wells Lodge, 7:11 a.m.; Brady's, 7:12 a.m.; Green Acres, 7:14 a.m.; Kessler's, 7:19 a.m.; Hayes' Place, 7:23 p.m.; Weber Stop, 7:25 a.m.; Smith's Place, 7:27 a.m.; first stop past Smith's, 7:28 a.m.; Hay sign, 7:29 a.m.; Mason stop, 7:31 a.m.; first stop past Mason's, 7:32 a.m.; Lewis Lane, 7:33 a.m.; Lathrops, 7:34 a.m.; Jones, 7:36 a.m.; Keene, 7:37 a.m.; Burro Ave., 7:38 a.m.; Warren, 7:39 a.m.; LaFortune, 7:40 a.m.; Inyokern School, 7:45 a.m.; fish pond, 7:48 a.m.; Jacobs Rd., 7:50 a.m.; Sierra Breeze, 7:51 a.m.; Butches Stop No. 2, 7:53 a.m.; Butches Stop, 7:54 a.m.; China Lake Acres, 7:56 a.m.; Lane Acres, 7:59 a.m.; Lane Haven, 8 a.m.

Bus No. 2 will transport youngsters from the west side of Ridgecrest to the Las Flores School, making the following stops: Kern & Ridgecrest Blvd., 7:26 a.m.; Almond Way & Ridgecrest Blvd., 7:28 a.m.; Ridgecrest Blvd. & Jack Ranch Rd., 7:30 a.m.; Las Flores Ave. & Jack Ranch Rd., 7:31 a.m.; Shellhart and Jack Ranch Rd., 7:32 a.m.; Jack Ranch Rd. & Red Mail box, 7:33 a.m.; Vitro Corp., 7:36 a.m.; El Ranchito, 7:39 a.m.; Atkins & Norma St., 7:42 a.m.; Reeves & Sierra, 7:44 a.m.; Ward & Sierra, 7:45 a.m.

### Southwest Ridgecrest

Bus No. 7 will transport youngsters from the southwest area of Ridgecrest to the Las Flores School, making the following stops: China Lake Blvd. & Dolphin, 7:24 a.m.; White Star Mine, 7:28 a.m.; Trader May's, 7:32 a.m.; Saratoga & Downs, 7:34 a.m.; Sims & Saratoga, 7:36 a.m.; Sims & Franklin, 7:37 a.m.; Sims & Dolphin, 7:38 a.m.; Sims & Bataan, 7:40 a.m.; Ridgecrest Heights School, 7:43 a.m.; Upjohn Rd. and Inyo St., 7:45 a.m.

Bus No. 5 will transport youngsters from the north-central part of Ridgecrest to Las Flores School, making the following stops: Graef & Wayne, 7:33 a.m.; Graef & Aline, 7:35 a.m.; China Lake Trailer Park, 7:38 a.m.; Ward & Wayne, 7:39 a.m.; Drummond & Sanders, 7:41 a.m.; Argus & Fairview, 7:45 a.m.

Bus No. 4 will transport youngsters from the south-central part of Ridgecrest to Las Flores School, making the following stops: Monroe School, 7:30 a.m.; Upjohn & Norma, 7:33 a.m.; Upjohn & Warner, 7:40 a.m. This bus (No. 4) will transport children scheduled to attend the reading clinic at Vieweg School to Vieweg from Las Flores School.

### To Attend Pierce School

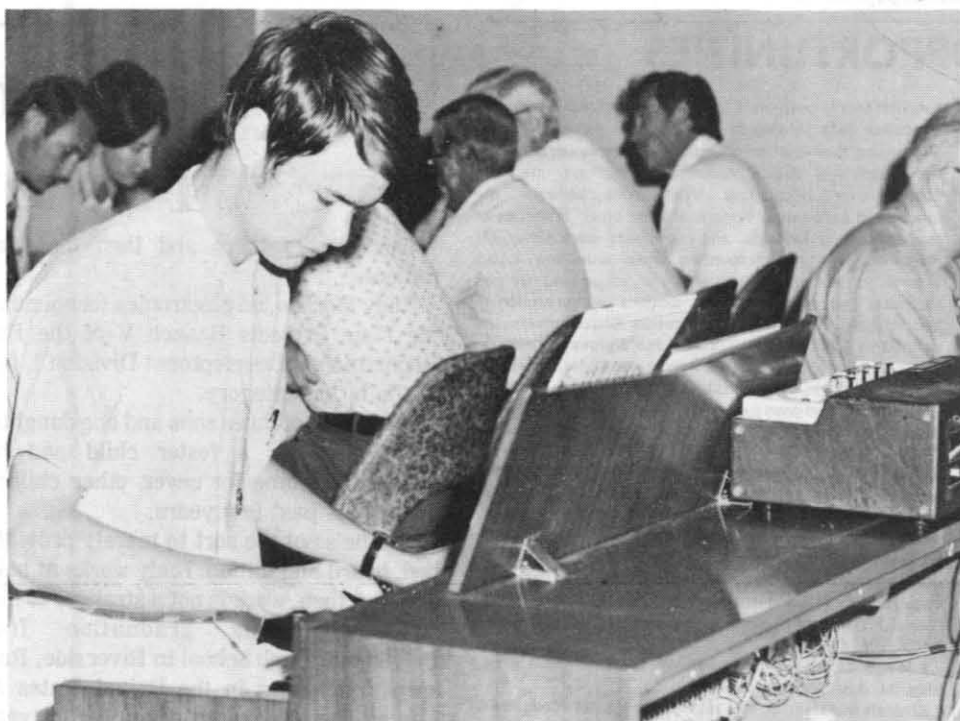

Bus No. 6 will transport youngsters from the southeast sector of Ridgecrest to Pierce School, making the following stops: Karin & Wilson, 7:26 a.m.; Gold Canyon & California, 7:29 a.m.; Fire Opal & California, 7:31 a.m.; Sunland & California, 7:32 a.m.; Broadway & California, 7:33 a.m.; Richmond & California, 7:35 a.m.

Bus No. 9 also will transport youngsters from the southeast sector of Ridgecrest to Pierce School, making the following stops: County Line Rd. & Sewage plant, 7:21 a.m.; County Line Rd. & Bowman Rd., 7:22 a.m.; Bowman & Richmond, 7:24 a.m.; Coral and Gateway, 7:26 a.m.; Hillcrest & Gateway, 7:29 a.m.; Forrest Knoll & Bowman, 7:30 a.m.; College Heights & Kendall, 7:35 a.m. Some Reading Clinic students will transfer to Bus No. 9 at Pierce School and be taken to their classes at Vieweg School, while children living in the Wherry Housing area will meet Bus No. 9 at Pierce School and ride it to Vieweg School.

### Schedule for China Lakers

All primary grade youngsters (grades 1 through 3) at China Lake will attend their neighborhood schools with the exception of those in the Richmond School attendance area, who will ride Bus No. 21 to Groves School.

Bus No. 21 will make the following stops to pickup children bound for Groves School: Essex & Saratoga, 7:35 a.m.; Nimitz & Blue Ridge, 7:37 a.m.; Kearsarge & Inyo, 7:39 a.m.; Nimitz & Leyte, 7:41 a.m.; Nimitz & Mitschur, 7:43 a.m.; McIntire and Kitts, 7:45 a.m.; Child Care Center Nursery, 7:47 a.m.; Fowler & Nimitz, 7:49 a.m.; Independence & Lauritsen, 7:50 a.m. Bus 21 also will transport children from Richmond-Groves School attendance area to reading clinic classes at Vieweg School.

**PROGRAM ON COMPUTER MUSIC PRESENTED**—Wayne Teeter, son of Mr. and Mrs. Buzz Teeter, a sophomore at the University of California at Irvine, presented a musical program during Monday's luncheon meeting of the Institute of Electrical and Electronics Engineers. The program covered computers, music and basic work involved in having a computer compose music and print it out. Young Teeter played a few of the computer tunes on his Hammond electronic organ, only to demonstrate that the computer could compose the music, but it lacked the human feeling. The artistic hand was needed to complete the works of music. The college student first became interested in this field of study when he was employed in the Code 602 Work Experience Program last summer. He hopes to continue this line of study and possibly work as an electronic organ designer.

## HAPPENINGS AROUND NWC

Discount coupons for many attractions in the Southland are available at the Community Center, reports Art Amos, manager.

At the present time, coupons for Disneyland, Knott's Berry Farm, Busch Gardens, Universal Studios, Lion Country Safari, the Queen Mary, Magic Mountain, Los Angeles and San Diego zoos, Wild Animal Park, Sea World, and the Marriott Hotels are available free of charge to employees and military personnel of the Naval Weapons Center.

Also, on a seasonal basis, a limited number of coupons are available for Ascot Raceway, the Home and Garden Show, and Ringling Bros. Barnum and Bailey Circus, when it is in San Diego, Anaheim and Long Beach.

### Swim Lessons Offered

Special Services and the Commissioned Officers' Mess will sponsor a series of swimming lessons this summer, beginning on Monday with the first session.

Registrations for classes that are to be held June 24 through July 8 will take place at

the COM pool Monday morning at 8:30. Class times for all three sessions of the swimming lessons will be 8:30 to 9:15 a.m. for 7 to 9 year olds, and from 9:15 to 10 a.m. for 5 and 6 year olds.

A registration fee of \$8 per child will be charged.

The second session will begin on July 9 and end July 19. Signups will be taken on the morning of July 8. The fees and hours remain the same.

The final session of the year will be held from July 23 through Aug. 2. Registration will be at 8:30 a.m. on July 22 at the COM pool.

Adrienne Swinford is the instructor. She may be reached at 375-5260 for those persons who desire more information about the classes.

The pedestrian gate at Burroughs High School will remain open during the summer from the hours of 6 a.m. to 5 p.m., Monday through Friday.

These hours will remain in effect until further notice.

**FIVE AWARDED 30-YEAR PINS**—Dr. M. M. Rogers (standing in background), acting head of the Weapons Development Department, was pleased recently to be able to present 30-year Federal service pins to five of the employees in her department. The recipients were (seated, l.-r.) Paul J. Rainsberger, an engineering technician in the Advanced Aircraft Systems Office; Francis M. Martin, an electronics technician in the Systems Integration and Evaluation Branch; and Vernon L. Gibson, an electronics technician in the Simulation Laboratory Branch. The other two recipients of 30-yr. pins were Erwin S. Hoffer (standing), head of the Simulation Laboratory Branch, and George F. Cleary, head of the Technical Services Division, who was unable to be present for the photo.

(R) - RESTRICTED

Under 17 requires accompanying

Parent or Adult Guardian

CS - Cinemascope

STD - Standard Movie Screen

Regular starting time—7:30 p.m.

Matinee—1 p.m.

FRI. 21 June

"AND NOW THE SCREAMING STARTS" (92 Min.)

Peter Cushing, Stephanie Beachum (Horror Drama) In England, Stephanie weds Ian Ogilvy and they live on his estate. Also on the grounds is a sinister woodsman, Geoffrey Whitehead. Beachum sees a disembodied hand and an apparition without eyes, being aware of Ogilvy's family curse. Solicitor Guy Rolfe is murdered and Dr. Patrick Magee finds that Beachum is expectant. Rated (R)

SAT. 22 June

—FAMILY MATINEE—

"THE ANDROMEDA STRAIN" (131 Min.)

Arthur Hill, David Wayne

—EVENING—

"THE BIRDMAN" (86 Min.)

Doug McClure, Rene Auberjencies (Drama) A World War II escape drama, based on an actual wartime incident about Allied POW's daring attempt to fly out of the German's top security prison. Their means: a glider constructed from bits of anything they can lay their hands on. Rating (none available)

SUN. & MON. 23-24 June

"FANTASTIC PLANET" (85 Min.)

Jennifer Drake, Jean Valmont (Animated Cartoon) On a foreign planet faraway from earth two races of man evolved. One is the giant Blue Braags whose technology and scientific know-how has been developed. The other race is the tiny somewhat primitive Oms who are treated by the Braags as dogs. They are finally able to force the Braags to a compromise and restore harmony on the planet. Rated (PG)

TUES. & WED. 25-26 June

"ALL THE WAY BOYS" (108 Min.)

Terrance Hill, Bud Spencer (Action Drama) Plata (Terrance Hill) and Salud (Bud Spencer), two barnstorming pilots, are hired to ditch an airplane so the owner can collect the insurance. They dive the plane into a forest in the Amazons where tales of a deposit of emeralds lead them on a chase. Rated (PG)

THURS. & FRI. 27-28 June

"DAY FOR NIGHT" (110 Min.)

Francisco Truffaut, Jacqueline Bisset (Comedy) British star Jacqueline Bisset plays the wife of Jean Pierre Leaud, son of Valentina Cortese and Jean Pierre Aumont, and falls in love with Aumont. Rated (PG)

## YOUTH MATINEES

A Walt Disney cartoon feature "Dr. Syn." will be presented on Tuesday at the Youth Center matinee. A 98-min. full-length cartoon, it will begin at 1 p.m. in the Center Theater.

Admission is free to all paid-up members of the Youth Center. All others will be charged 30 cents.

Robert Wagner and Janet Leigh star in "Prince Valiant," a motion picture based on the newspaper cartoon strip, next Thursday, June 27. Also featured in the 100 min. film is James Mason.

This film is rated "excellent" and is considered okay for adults, youths, and children.

## Change of Command Ceremony Slated June 27

### RAdm. Freeman To Take Helm Upon Retirement of RAdm. Pugh

A formal change of command ceremony that will bring to a close the Naval career of Rear Admiral Paul E. Pugh, Commander of the Naval Weapons Center for the past year, will take place next Thursday, June 27, starting at 10:30 a.m. on the Administration Circle.

The ceremony will conclude 33 years of service to his country by RAdm. Pugh, who will be relieved by Rear Admiral Rowland G. Freeman, III.

RAdm. Freeman is being transferred here from a post he held for the past year in Washington, D.C., as the Study Director of the Navy Enlisted Occupational Classification System.

Like RAdm. Pugh, the new NWC Commander can look back to the early days of World War II as the start of more than three decades of Naval service for he, too, went through rigorous pre-flight training before being appointed an aviation cadet and later earning his naval aviator "wings of gold."

This, the final milestone in RAdm. Pugh's 33 years in the Navy, was preceded by a year as Senior Navy Member in the Military Studies and Liaison Division, Weapons Systems Evaluation Group in the Office of the Director of Defense Research and Engineering for the Office of the Secretary of Defense in Washington, D.C.

### Final Milestone

The present NWC Commander underwent initial flight training early in 1941 that prepared him for service in World War II during which he earned the Distinguished Flying Cross and the Air Medal with four Gold Stars.

Additional combat service during both the Korean and Vietnam Wars highlighted the career of RAdm. Pugh, who also gained administrative experience—first as com-

mander. Dependents of employees whose regular work assignment is north of the fence will be permitted entrance by display of a valid NAF "A" access pass, or by a special "R" access pass, obtained from Code 8411.

### Recreation Facilities Access

Personnel with a valid NWC Activity Pass, Community Pass, active duty or retired military I.D. card, military dependent I.D. card, or a Casual Visitor Pass, may be granted access through the

## Dr. Thomas Stephenson Helicopter Dedication Program Set Saturday

A ceremony marking the formal dedication of the Dr. Thomas D. Stephenson Helicopter in Ridgecrest will take place Saturday at the Ridgecrest Community Hospital, starting at 9 a.m.

The heliport, which is located on Navy land opposite the entrance to the local hospital, is a project that was initiated three years ago by the Rotary Club of China Lake and carried out with the cooperation of Naval Weapons Center officials and civic leaders in Ridgecrest, in addition to private contributions of material and labor.

Capt. T. D. Stephenson

The helicopter landing pad is being dedicated to the memory of Dr. Stephenson, a Navy captain and former NWC Dental Officer, who was the first injury victim to be landed at the not-yet-completed heliport and rushed to the Ridgecrest Community, after being injured in a fall that occurred in mid-March of last year in the Jawbone Canyon area. Dr. Stephenson's injuries proved to be fatal, however, and he died two days later.

The heliport dedication ceremony will begin with a welcome extended by Dan Butler, Rotary Club president, and the invocation by Fr. Bruce Spence, rector of St. Michael's Episcopal Church in Ridgecrest.

### RAdm. Pugh To Speak

The program also will include brief remarks by Rear Admiral Paul E. Pugh, NWC Commander, and Ray Van Aken, president of the hospital's board of directors.

Prior to the unveiling of a memorial plaque, a summary of the heliport project, how it evolved, and the various groups that offered their help in seeing it through to completion will be given by Butler.

Members of the Stephenson family will be present Saturday morning for the unveiling of the memorial plaque, and the program, which is to be followed by a reception on the hospital patio, will be concluded with the benediction by Fr. Aquinas Smith, NWC's Catholic chaplain.

The Stephenson Memorial Heliport is fully licensed by the Federal Aviation Administration and the State of California. but

### Awarded Legion of Merit

For meritorious service during combat operations in Southeast Asia, while assigned as Commander of Attack Carrier Striking Group 77.5, RAdm. Pugh was awarded the Legion of Merit.

A Gold Star in lieu of a second Legion of Merit was later awarded to the present NWC Commander during a tour of duty which began in August 1967 as Deputy for Current Operations on the Operations Division Staff of the Commander-in-Chief, U.S. Pacific. For this outstanding performance of duty, he was cited for his role in the development of strategic and tactical concepts that were devised for the use of combat forces throughout the Pacific Command.

Prior to the assignment in Washington, D.C., that preceded his transfer to the Naval Weapons Center, RAdm. Pugh was Commander of U.S. Naval Forces in the Marianas, with additional duty as Commander in Chief of the Pacific Representative for the Guam / Trust Territory of the Pacific Islands.

RAdm. Freeman follows in the tradition of former NWC Commanders whose

## Energy Usage Shows Reduction Compared To That of May 1973

The report on overall energy consumption at the Naval Weapons Center during the month of May was issued this week by Ltjg. L. S. Murphy, Public Works Department project officer.

Compared to the same period in 1973, electrical power usage this past May was reduced by 17 per cent, natural gas used in housing was down by 3.9 per cent, and there was a drop of 1.4 per cent in the amount of natural gas used in the Center's industrial area.

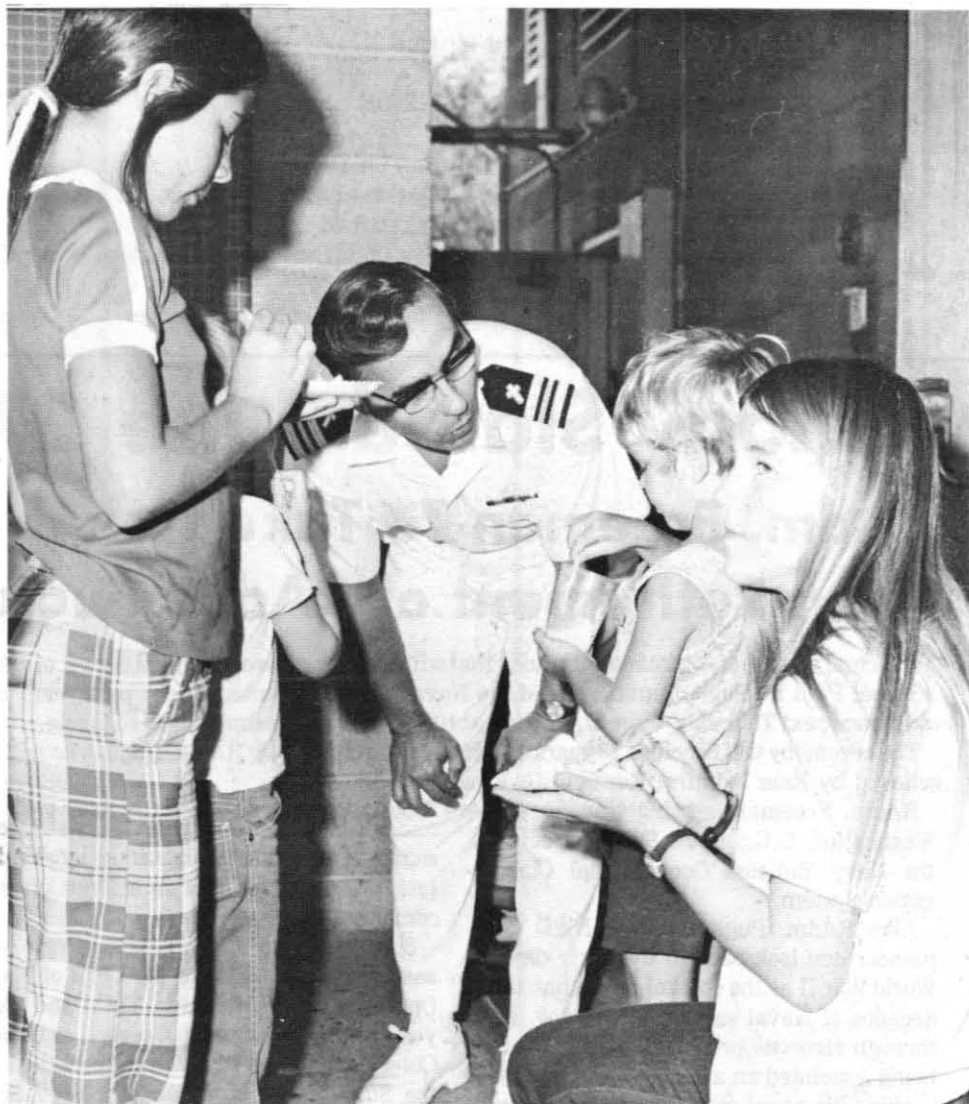

Also this past May, propane usage was lowered by 7.8 per cent, and fuel oil consumption was cut by 38.4 per cent compared to this time a year ago.

Ltjg. Murphy urged residents to make less frequent use of their air coolers and air conditioners by keeping the thermostats set at 78 degrees, as per an NWC Instruction that has been issued-covering this matter.

In those areas where it is not practical to permit a 78 degree thermostat setting, the lowest permissible setting is 72 degrees.

It also is mandatory that all baseball field lights be turned off no later than 10 p.m., Ltjg. Murphy added.

UMM, GOOD — NWC Catholic Chaplain, Fr. Aquinas J. Smith, visited the pre-kindergarten class of the Ecumenical Vacation Bible School to check out the children's ice cream-making abilities. This class, which was taught by Barbara Golubewski, Mary Kay Bornfleth, Betty Debold, and Pat Weidenkopf, was part of the Bible School that was held from June 10-14 at various Chapel Annexes. A total of 225 students enrolled for the week-long session. Classes were held for junior high students, high school students, pre-kindergarten and Mr. and Mrs. Lynn Hutcheson were directors of the junior high group.

## Youth Center Schedules Ballet Classes

Sign-ups are currently under way and will continue at the NWC Youth Center until next Friday, June 28, for a beginning class in ballet.

Open to children from 5 through 8 years of age, the class will be conducted on Tuesdays and Thursdays, excepting July 4 and 18, at the Community Center, beginning July 2. A registration fee of \$20 for the 14 lessons

will be charged. The instructor is Elaine Jones, who was trained in Australia and teaches the British Ballet Organization method.

Carol Hape, manager of the Youth Center, has warned that only 10 youngsters will be enrolled in the class. "First come, first served," she commented. All fees are payable in advance.

## PROMOTIONAL OPPORTUNITIES

Applications for positions listed in this column will be accepted from current NWC employees and should be filed with the person named in the ad. All others desiring employment with the Naval Weapons Center may contact the Employment-Wage and Classification Division, Code 652, Ext. 2049. Ads will run for one week and will close at 4:30 p.m. on the Friday following their appearance in this column, unless a later date is specified in the ad. Employees whose work history has not been brought up to date within the last six months are encouraged to file a Form 171 or 172 in their personnel jacket. Information concerning the Merit Promotion Program and the evaluation methods used in these promotional opportunities may be obtained from your Personnel Management Advisor (Code 656 or 657). Advertising positions in the Promotional Opportunities column does not preclude the use of alternate recruiting sources in filling these positions. As part of the rating process, a supervisor's appraisal will be sent to the current supervisor and the most recent previous supervisor of those applicants rated as basically qualified. The Naval Weapons Center is an equal opportunity employer and selection shall be made without discrimination for any nonmerit reason.

**Staff Analyst to COMNAVFORKOREA (GS-14 or 13) —** NWC has been asked by the Navy Science Assistance Program (NSAP) for candidates for a Systems Analyst position on the staff of the Commander Naval Forces, Korea located at Seoul, South Korea. Primary concern of the Command is in the development and readiness of the Republic of Korea (ROK) Navy and Marine Corps forces. The U.S. command is basically a planning staff involved in the many aspects of ROK operations. These include threat and mission studies; ship, weapon, sensor, communications, and base capability studies; force level and requirements planning; cost analysis and financing; acquisition planning; equipment introduction planning; personnel training; hardware testing; support requirements and operations; readiness and maintenance; daily operations and mission assignments; contingency operations and plans. **Minimum Qualification Requirements:** NWC has been asked if it can provide a GS-14 (or above) analyst for the job. Qualified GS-13s will be considered. **Job Relevant Criteria:** Duties would be to participate in the above U.S. staff projects and to assist ROK Navy and Marine Headquarters in various independent studies they do. Specifically desired is a planning staff involved in weapons testing and evaluation, computer analysis and war gaming, and in-depth mission and requirements analyses—particularly with regard to destroyer escort type ships. Candidates should show ability to plan, conduct, and document such efforts. Field trips for observations and test programs are expected. Knowledge of related U.S. projects methods would be useful as would be the ability to teach technical or analytical courses to ROK officer personnel. Candidates must be willing and able to work fairly independently in several different areas. Position is administratively under the NSAP GS-15 Science Advisor to COMNAVFORKOREA. Duty tour is TDY or PCS from NWC for one year starting approximately Sept. 1, 1974. Selection of NWC-approved candidates is made by NSAP. **Applications for this position should be made with Frank Buffum, NWC Coordinator, Ext. 2419 or 2064.**

**Heating Equipment Mechanic Helper, WG-5309-05, JD No. 130-1, Code 70433 —** Assists journeymen in duties involving primarily installation, repair and/or replacement of gas fired heating equipment. Incumbent will be participating in a Prejourneyman Development Program. **Minimum Qualification Requirements:** Rating will be on the basis of the appropriate J-Element Standard in accordance with X-118C.

**Motor Vehicle Operator, WG-5756-08, JD No. 10-2, Code 70781 —** Drives straight-in-line trucks of gross vehicle weight rating in excess of 32,000 pounds or any tractor and semi-trailer combination, or any tractor and trailer combination, or any "double-bottom" combination such as truck and trailer, tractor, semi-trailer and trailer. **Minimum Qualification Requirements:** Rating will be on the basis of the appropriate J-Element Standard in accordance with X-118C.

**Water Treatment Plant Operator, WG-5409-09, JD No. 334, Code 70435 —** Controls the treatment and operation of a large water system with a capacity of 15,000,000 gallons per day. System consisting of a network of distribution mains, reservoirs and pumps extending a distance of 27 miles. Controls the treatment and operation of small systems in range areas, swimming pools and sewage effluent to golf course. **Minimum Qualification Requirements:** Rating will be on the basis of the appropriate J-Element Standard in accordance with X-118C.

**File applications for above with Dora Childers, Code 657, RM. 212, Ph. 2512.**  
**Test Mechanic (Experimental Aircraft Structures), WG-5882-11, JD No. 234, Code 3712 —** Incumbent works closely with engineers; lays out, cuts, drills, bends, forms, and welds sheetmetal and extruded metal with power brakes, bending machines, nibblers, forming machines and welding equipment to: (1) adopt or make from raw stock custom-built, aerodynamically stable experimental pods or external stores for testing of prototype missile equipment; (2) manufacture holding devices and set-up fixtures for the installation of complex arrays of electronic and optical equipment and (3) modifies air frames, external stores and complex equipment to meet test requirements. **Job Relevant Criteria:** Proficiency in the use of metal form or metal shaping equipment; knowledge of metallurgical characteristics of major metal classes (aluminum, brass, steel); ability to weld and heat treat materials. Must have a working knowledge of Joint Army, Navy standards involving aircraft/aircraft modification. **Minimum Qualification Requirements:** As defined in CAS X-188-C.

**Supervisory General Engineer, GS-801-13/14, PD No. 7451055, Code 5123 —** Applications will be accepted from current NWC career or career-conditional employees only. This position is Head, Missile Engineering Branch, Code 5123, located in Agile Development Division, Systems Development Department. The position involves the supervision of engineers and technicians engaged in the development of the Agile Missile System. The incumbent is responsible for the design and development of the complete missile system and launcher except for seeker development and simulations. The incumbent is responsible for integrating these two excepted areas. **Job Relevant Criteria:** Must possess broad experience in the development of guided missile systems and have the ability to interface effectively with organizations at all levels. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118.

**Supervisory General or Electronics Engineer, GS-801, or GS-855-13 or 14, PD No. 7330055, Code 5151 —** Incumbent is the branch head and will be responsible for the technical direction and control of all branch effort. Initiates projects, suggests technical approach, assigns personnel, monitors work in progress and reviews project plans to assure compliance with established policies. **Job Relevant Criteria:** Knowledge of autopilot design and control systems, use of computer aided circuit design analysis and simulation, mechanical pneumatic and hydraulic system analysis experience, knowledge of systems simulation, control studies and flutter and stability analysis is essential. **Minimum Qualification Requirements:** As defined in CSC Handbook S-118.

**File applications for above with Pat Gaunt, Bldg. 34, RM. 212, Ph. 2514.**

**Clerk-Typist, GS-322-3, PD No. 7455072, Code 5582 —** This position is located in the Quality Assurance Branch, Product Assurance Division of the Engineering Department. Position is that of clerical support to the branch working in conjunction with branch clerk-typist. Performs filing, mail and telephone function. Types travel orders, receives official visitors. Typing involves quality assurance and quality control reports with specialized terminology. **Job Relevant Criteria:** Knowledge of NWC Correspondence Manual. Personal initiative and good judgement in the handling of work assignments. Must be a qualified typist. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118.

**Electronics Engineer, GS-855-7 or 9, PD No. 7455073, Code 5535 —** Applications will be accepted from current NWC career or career-conditional employees only. This position is located in the RF/EMC Evaluation Branch, Product Design Division of the Engineering Department. Duties of this position include electronic design for missile systems, development of missile system production engineer and liaison with contractors and branch personnel. **Job Relevant Criteria:** Experience in the production of electronic equipment. Design experience. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118.

**Electronics Mechanic Helper, WG-2614-5, P.D. No. 145-7, Code 5523 —** Applications will be accepted from current NWC career or career-conditional employees only. This position is located in the Guidance Evaluation Branch, Electromechanical Division of the Engineering Department. Incumbent assists technicians in the fabrication, modification, repair, test and calibration of electronic equipment. Working from detailed verbal or written instructions, the incumbent assembles sub-assemblies by mounting and soldering electronic components such as resistors, capacitors, transistors and connectors to vector or printed circuit boards. Performs repetitive tests and measurement. **Job Relevant Criteria:** Reliability and dependability. Shop aptitude and interest. Ability to follow directions in shop. Dexterity and safety. Ability to work as a member of a team. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118C.

## New Chef at COM Has 40 Years Of Cooking Experience

The man responsible for turning out those excellent menus lately at the Commissioned Officers' Mess is John Appleby, a chef with 40 years experience, who took over that position last March.

Appleby, who received a bachelor's degree in hotel and restaurant administration from Cornell University, Ithaca, N.Y., during the 1930s, has served as a chef in some far-flung places from the Mojave Desert. He put in tours at the Hotel Statler, in Buffalo, N.Y., Hickam Air Force Base, Hawaii, McClellan Field, Sacramento, and closer to home, Ewings on the Kern.

He was serving as head chef for the

John Appleby

Holiday Inn in California City prior to taking the post at the COM.

Appleby lists his hobby as photography. "The rest of my time is spent cooking, so you might say that's my principal hobby," he said.

Who cooks at home? "My wife, Irma," Appleby said.

## PROMOTIONAL OPPORTUNITIES

(Continued from Page 2)

Applications will be accepted from current NWC career or career-conditional employees only. This position is located in the Shop of the Engineering Department. Incumbent performs controlled welding and related flame cutting, soldering, brazing, metal spraying and flame heat treating of an experimental nature in connection with the research and development of the welding process for such purposes as developing and improving welding methods and sequences of standard trade procedures. Prepares weldments, constructs and sets up jigs and fixtures, sections test points, consults on welding considerations with engineers and technicians. **Job Relevant Criteria:** Ability to do the work of the position without more than normal supervision. Knowledge of materials of the trade, structures, etc., to be constructed, altered or repaired. Ability to plan, layout and set-up welding work. Ability to read and interpret blueprints, specifications, welding procedures, etc. Ability to use hand tools and measuring devices and related equipment. Dexterity and safety. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118C.

**Instrument Maker (General), WG-3382-14, JD No. 115-3, Code 5545 —** Applications will be accepted from current NWC career or career-conditional employees only. This position is located in the shop of the Engineering Department. Incumbent is assigned to developmental teams in central technical departments for fabrication and participation in the development of instruments for use in guided missile test and evaluation. Instruments are normally one-of-a-kind non-standard type of such nature as electro-mechanical, optical-mechanical and electro-optical mechanical. **Job Relevant Criteria:** Ability to perform the work without more than normal supervision. Knowledge of materials. Ability to plan, layout, set-up, assemble and test. Ability to interpret blueprints, specifications and technical data. Dexterity and safety. Knowledge of machine theory and related mathematics. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118C.

**File applications for above with Linda Grossman, Bldg. 34, RM. 204, Ph. 2925.**

**Electronic Technician, GS-856-5 or 6, PD No. 7433043, Code 3332 —** This position is located in the Fuze Project Branch II, Development Division I, Fuze Department. Incumbent processes flight records and examines such records for missing data. Assembles electronic circuits and makes tests and measurements using electronic measuring devices. Prepares and uses punch cards and updates and adapts current computer programs to meet new analysis problems. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118. **Job Relevant Criteria:** Experience reading flight test records. Experience in circuit assembly. Use of electronic measuring devices. Ability to prepare and use punch cards and to modify existing computer programs. **Advancement Potential:** To GS-7.

**File applications for above with Claire Lewis, Bldg. 34, RM. 212, Ph. 2371.**

**Secretary (Typing), GS-318-6, PD No. 7440091, Code 40 —** This position is Secretary to the Head, Weapons Development Department. The incumbent maintains the department head's calendar, sets up meetings and conferences, receives and screens on off-Center office and telephone callers, receives and screens incoming correspondence requiring department head action, reviews all correspondence for department head's signature, and arranges for supervisor's travel, including establishing an itinerary, making reservations and keeping follow-up correspondence. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118. **Job Relevant Criteria:** Must be able to meet deadlines under pressure, must be able to type rapidly and accurately, and must have knowledge of the organization and its programs.

**Clerk-Typist, GS-322-3 or 4, PD No. 7440087, Code 4082 —** This position is located in the Aircraft Armament Group, Advanced Aircraft Systems Program Office, Weapons Development Department. Major duties include typing of formal and informal documents, maintaining of records files, receiving visitors and telephone calls. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118. **Job Relevant Criteria:** Ability to meet deadlines under pressure. Ability to type efficiently and accurately.

**Clerk-Typist, GS-322-3 or 4, PD No. 7380175, Code 4084 —** This position is located in the Simulation Laboratory Branch of the Aeromechanics Division in the Weapons Development Department. The incumbent provides secretarial assistance to the branch head and clerical assistance to the branch staff. The incumbent types technical and non-technical correspondence, maintains files, performs some minor addition of columns of numbers and receives and distributes mail for the branch. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118. **Job Relevant Criteria:** Must be a proficient typist. Must have knowledge of NWC clerical procedures. Must possess telephone and receptionist skills.

**Clerk (Typing), GS-301-2 or 3, PD No. 7384004 AM1, Code 8412 —** Hours of work for this position are 1300 — 2200. This position is located in the Visitor's Branch of the Security Department. Incumbent has entry control of temporary, casual, official, semi-official, commercial and foreign visitors to the Naval Weapons Center. Duties include processing of paperwork for passes, maintaining records of visitors, providing information and directions, assisting in performing vehicle registration duties and maintaining files. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118. **Job Relevant Criteria:** Ability to understand and follow Security procedures and regulations. Must have typing skill. Applications solicited from other than NWC employees.

**File applications for above with Charlotte Sieckowski, Bldg. 34, RM. 204, Ph. 3118.**  
**Voucher Examiner, GS-540-3 or 4, PD No. 817035 and 817034-1, 2 Vacancies, Code 1745 —** These positions are located in the Public Voucher Section of Central Staff. Basic functions performed relate to settlement of travel claims for military and civilian personnel. Incumbents will examine, audit, determine eligibility for payment of expenses and compute entitlements on travel claims, etc., presented for payment. Will also aid travelers in preparation of their itineraries. Supervisory advice and instructions are readily available on more difficult vouchers. **Job Relevant Criteria:** Ability to type efficiently and accurately; ability to get along with others in work group; ability to work rapidly and accurately; reliability and dependability. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118. **Advancement Potential:** To GS-5.

**Financial Control Clerk, GS-301-3 or 4, PD No. 7117025-AT, Code 1742 —** (This is a temporary position which may lead to permanent assignment) This position is located in the Cost Accounting Branch of Central Staff. The basic function of this position is to serve as a control center and expedite data flowing to and from the Automatic Data Processing Center at the Computer Sciences Corporation. Incumbent will design various control logs, maintain control over accounting transactions between the automated accounting system and the other branches of the Accounting Division, and coordinate work schedules for processing of the accounting data with the CSC's automated data processing personnel. Incumbent reviews incoming journal entries and monitors the correction of bad charges. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118. **Job Relevant Criteria:** Extensive knowledge of NWC Automatic Data Processing System, ability to meet deadlines under pressure, ability to exercise tact and good judgment, ability to consolidate and maintain accounting data in ledger format.

**Model Maker, WG-4714-14, JD No. 403, (2 Vacancies), Code 31331 —** The incumbent, working under general guidelines given by engineers, etc., machines, fits, and assembles complete prototype assemblies or major assembly components for project equipment systems. Also will weld, heat treat metal, perform sheetmetal work as work assignments require. **Minimum Qualification Requirements:** Rating will be on the basis of appropriate J-Element Standard in accordance with CSC Handbook X-118C.

**File applications for the above with Elizabeth Sodergren, Bldg. 34, RM. 206, Ph. 2674.**  
**Aircraft Metalsmith, WG-3853-16, JD No. 309, Code 18408 —** This position is located in the Aircraft Maintenance Division of the Naval Air Facility. Working from blueprints, sketches and aircraft specifications, incumbent removes, repairs, forms, modifies, fabricates, strengthens, replaces, relocates and installs aircraft sheetmetal components. Uses hand tools and power machinery in a shop or hangar area to complete work task. Assists in the handling, installation and removal of high explosive destruct packages. **Minimum Qualification Requirements:** As outlined in CSC Handbook X-118C.

**Administrative Officer, GS-341-13, PD No. 7400088, Code 05 —** Temporary position NTE one year—may lead to a permanent position. Will serve as a Senior Administrative Officer to the Deputy Technical Director for Air Combat Systems. The three technical departments in the directorate accounts for over 900 personnel and one-third of the Center's operating budget. Incumbent will assist the Deputy Technical Director in the administration of his duties and provide and coordinate a wide variety of staff services and administrative support. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118. **Job Relevant Criteria:** 1. Must have significant experience in providing staff services to top level management in the areas of budget, personnel, and space and facility resources. 2. Must have a working knowledge of the Naval organization and in particular the CMM headquarters and labs and Systems Commands 3. Demonstrated ability to apply management and organizational theory to the work situation 4. Demonstrated ability to deal effectively with individuals at all levels of management 5. Must have an operating knowledge of Directorate programs, facilities, manpower, etc. 6. An advanced degree in Public Administration is highly desirable.

**File applications for the above with Sue Praslotowicz, Bldg. 34, RM. 208, Ph. 2577.**  
**Secretary (DMT), GS-318-4 or 5, PD No. 7440080, Code 4008 —** This position is secretary to head, Advanced Aircraft Systems Program Office. Duties include keeping program manager's calendar, scheduling meetings and conferences, typing a variety of reports and correspondence, receiving visitors and telephone calls, drafting inter-office memos and maintaining files. **Minimum Qualification Requirements:** As defined in CSC Handbook X-118. **Job Relevant Criteria:** Must be familiar with Navy correspondence format. Must be able to type efficiently and accurately. Note: Previously advertised as Secretary (Typing), GS-318-4. Applications received at that time will be considered and need not reapply.

**File applications for the above with Charlotte Sieckowski, Bldg. 34, RM. 204, Ph. 3118.**

## Housing Assignments in May

Houses assigned during May, 1974  
"0" BEDROOM APARTMENTS  
Marlin, W-11, Smith, GS-14; Crane, EQ-5.  
**ONE BEDROOM APARTMENT**  
Korman, EQ-8; Ames, GS-13.  
**TWO BEDROOM APARTMENT**  
Wortham, E-3, Cox, GS-9.  
**TWO BEDROOM NORMAC**  
Jackson, GS-2; Kline, GS-12; Beatty, GS-4; Bouillon, E-3; Phillips, EQ-2 Weymouth, EQ-9.  
**TWO BEDROOM OLD DUPLEXES**  
Anderson, GS-4; Powell, GS-7; Homer, GS-7; Laleunesse, GS-11; Perrine, GS-7; Belding, GS-12; Leonard, GS-7; Edmon, E-5; Gollins, E-4; Swartz, GS-12; Sticht, GS-12; Dirksen, EQ-11; Mathiasen, GS-7; Porter, GS-12; Jackson, E-4; Vanderford, E-4; McCullum, GS-9; Campbell, E-5; Bailey, GS-9; Thomson, E-4; Menusan, GS-11; Brown, E-4; Quinton, GS-3; Goodman, GS-12.  
**TWO BEDROOM JOO**  
Guffer, GS-12; Blymoen, GS-13.  
**TWO BEDROOM WHERRY**  
Cummings, E-4; Steed, WG-4; Awerdt, E-5; Davidson, WG-10; Cuntz, E-2; Lopez, WG-4; Gutierrez, E-5.  
**TWO BEDROOM DUPLEXES**  
Gay, GS-12; Gates, GS-11.  
**THREE BEDROOM OLD DUPLEXES**  
Taggart, GS-7; Taylor, GS-9.  
**THREE BEDROOM HILL DUPLEXES**  
Sutton, GS-12.  
**THREE BEDROOM MOX**  
Young, GS-12.  
**THREE BEDROOM WASP CIRCLE**  
Longstaff, Capt.  
**THREE BEDROOM PANAMINT**  
Mathes, GS-13.  
**THREE BEDROOM WHERRY**  
Deiz, E-5; Wallace, E-5; Cowan, WG-6; Peck, E-3; Kiesner, E-4.  
**THREE BEDROOM NORMAC DUPLEXES**  
Mosby, WG-10; Smith, GS-9; Cathy, WG-10; Jonassen, GS-15; Tardy, GS-14; Vandoren, GS-13; Angulo, E-6; Emery, E-6.  
**THREE BEDROOM JUNIPER**  
Hansen, GS-12; Hudson, GS-9; Walters, GS-12; Herigstad, GS-12; Fulton, GS-12; Thursty, GS-9; Weston, WG-5.  
**FOUR BEDROOM PANAMINT**  
Pinney, Maj.

## Employee In The Spotlight

There are fathers and then there are fathers.

Rudy Moreno, an electronics technician in the Fuze Projects Branch V of the Fuze Department's Development Division I, falls in the latter category.

The father of three sons and one daughter, Rudy also has a foster child and has provided a home for seven other children during the past few years.

And he's not the sort to merely provide a bed, board and tuition. Rudy works at being dad. But then, work is not a stranger to him. Following his graduation from Polytechnic High School in Riverside, Rudy spent four years in the United States Air Force. Then he put in a number of years being an "aircraft company gypsy," traveling from job to job.

First he worked for Pacific Aeromotive Corp., in China, then at the Lockheed Aircraft Service at Ontario, and others. He finally broke out of the mold and took employment with Pacific Clay Products in Corona. After a while, Rudy joined the General Dynamics Co. in Pomona as an electronics technician and put in three years with that firm.

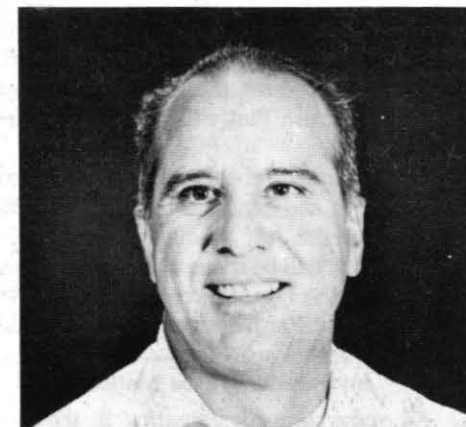

**Attended Night Classes**  
During all of this time, Rudy was attending night electronics courses at Chaffee College, and the education paid off for him. In May 1963, he joined the work force at Corona as an electronics technician in the Fuze Department.

On June 1, 1971, Rudy made the "big move," and came to China Lake. He is well liked in the branch and has earned a great deal of respect for his work.

"Rudy's responsibilities are to provide technician support to several engineers in the branch," said Hank Kirschsieper, branch head. He does this conscientiously and often designs and builds basic circuits based entirely on verbal instructions only.

"The one thing about Rudy is, he willingly accepts a wide variety of assignments," Kirschsieper commented.

That attitude extends to Rudy's family. There, too, he has willingly accepted responsibility. His family is his hobby, and he works hard at that. He can be seen often playing catch with his boys, out on the golf course trying to keep from getting beaten

Rudy Moreno

too badly, or at the gym playing basketball. The boys are Rudy, Jr., 18, who was graduated from Burroughs High School earlier this month; Jesse, 14, who will be a sophomore next fall, and Gary, 12, who will enter eighth grade at Murray School.

All three are fine athletes, with Jesse perhaps the most amazing. Young Jesse was one of the most outstanding Little League pitchers ever spawned in the local area. In his last season, at the age of 12, he pitched five no-hit ball games, a one-hit game, and struck out the entire team for all 21 outs in the championship game between Ridgecrest and China Lake, in 1972.

## Even Better at Basketball

Yet, much to everyone's disbelief, he is an even better basketball player. He has tremendous moves, a good eye, and very quick hands. So, what game do you think he concentrates on? You're wrong, it's golf.

The 14-year old freshman at Burroughs last year capped his season with a three-under-par 69 during Golden League play and proudly sports a six handicap at the game. One of the reasons that Jesse excels in golf is the training provided by dad. Rudy has brought up the boys to believe that you must work, work, work and work to be any good at something.

And he practices what he preaches. He has spent countless hours throwing baseballs with his sons, as has the mother of the household, Elvira. Rudy plays basketball with the boys, and he taught his sons to play golf.

But it doesn't end there. Rudy was often at the ball park, working with other Little Leaguers, helping them to learn the game. He has donated many hours to renovating the fields, watering, working batting practice and generally making himself useful.

## Rudy Loves Kids

He says it's because he "loves kids." But it probably goes deeper than that. Elvira and Rudy have helped to care for and raise eight foster children, one of whom is still with them. Along with their own daughter, Elaine, who will be a fourth grader next fall, the Morenos have a foster daughter, Loreno, now five years old. They have had her since she was three days old.

In addition, the Morenos have taken in two young Indian boys and five other babies. "Most of them were adopted before they were 11 months old," Rudy said.

The entire Moreno family plays at sports, including mom. Elaine is a softball player, Rudy Jr. is a golfer, Gary, who is another outstanding baseball player, has given up the sport to concentrate on golf. He shoots consistently in the 80s.

"I'm just a ho-hum guy," Rudy says. "We don't do much exciting around our house. I try to give my kids lots of love and instruction and I work with them as much as I can. We do things together," he added.

By Jack Lindsey

Winning is an elusive skill. Any little thing can tip the balance and turn a winner into a loser, which brings me to the California Angels.

On Fathers' Day, my son took me to an Angels' game. During the contest, which was won by Boston 7-4 with a six run spurge in the final inning, I think I spotted what's wrong with the team.

It's not Bobby Winkles, the manager, or Frank Robinson, or a lack of talent. It's the FANS.

There were over 20,000 of them in attendance. During the game they would alternately cheer and boo the performances of the Angel players. Sometimes, the same man would receive some of both during the game.

Now that's got to be pretty confusing to the ballplayers. It must also take the wind right out of their sails.

Situation: Men on first and second, and one out. Charlie Sands comes to bat — cheers! Sands hits a long fly ball deep to right field, backing the outfielder up to the warning track; two outs. The fans BOO Sands!

Next up is Bob Lahoud, who hits one deep into centerfield, making the outfielder hustle; another long out. Lahoud is booed!

Judging by the fans' reactions, one would think the Angels players aren't trying. Lahoud had two hits in the game and Sands hit a homer with Stanton on base. The fans liked that.

I think Harry Dalton, general manager of the club, had better look for some new fans rather than new baseball talent. Those people could really mess up a good ballplayer with their fickleness.

## Local Tennis Squad Journeys to Norton For MDISL Tourney

A team of high-stepping, hard-hitting tennis players will open three days of play this afternoon in the Mojave Desert Inter-Service League tennis tournament at Norton Air Force Base, San Bernardino.

Led by captain Gary Fry, the team members are Bob Forrester, Dick Boyd, Frank Santoni and Jack Ahern.

The NWC tennis team won the MDISL tourney last year, and must repeat that performance in order to give the Center a shot at either the major or minor trophy in MDISL competition.

NWC is currently in fourth place in the MDISL standings, and could be higher, depending upon the ruling of MDISL judges about the standing of the local bowling team.

A new scoring system was inaugurated for the MDISL bowling tournament, held April 6 at Edwards AFB. It is thought that NWC won the tourney. If so, then local teams could be as high as second place in the overall standings.

The NWC volleyball team finished second in that tournament, held in March,

**THE WINNERS** — Mary Ann Castor lines up a putt while Nancy Webster (c.) and Lee Lee watch. Mrs. Castor is the 1974 Women's Golf Club champion, having shot a 351 gross total for the title. During play, which ended last Sunday, Mrs. Castor scored a record breaking round of 80, two strokes lower than the previous low mark. Mrs. Webster was runner-up for the title, tallying 356 strokes. Mrs. Lee was the tourney's low net winner.

## Mary Ann Castor Wins Women's Golf Title With Record Round

Mary Ann Castor, who won the title in 1971, is the 1974 China Lake Women's Golf Club champion.

Sitting three strokes off the pace last Saturday, she fired a record-breaking round of 80 to surge into the lead, and then held off

### Varsity Softballers

### Fare Well in Bishop

### Classic Tournament

The NWC civilian varsity softball team competed last weekend in the ninth annual Bishop Softball Classic, and came away wiser, more experienced, and with a much higher regard for themselves as a team.

Competing against some of the top softball teams in the nation, the locals won two of their first three games before finally being eliminated by a team that has won this biggie — R.K.T., of Fresno.

The NWC team got things under way on Friday night with a 3-0 win over Hawthorne in 10 innings. Ralph Stalnaker tripled and Doug Fisher and John Martin each homered in that inning to put the game on ice.

Starting pitcher was Bert Andreasen, who gave up only two hits in four innings of work. Jim Knott, a pitcher hired by the squad especially for this tournament, fanned seven in relief to get the victory.

In the second game, played last Saturday morning, Fairway Motors, of Reno, Nev., edged the NWC all-stars, 3-1. Knott was tagged for nine hits to suffer the loss. China Lake's only run came on a single by Tom Mather, who advanced to second on a sacrifice by Jim Ayers, and scored on a base hit by Jeff Radcliff.

The NWC team notched its second victory of the tournament that afternoon as the locals made the best of a 5-hit attack to post a 5-3 win over Martin's Market, of Bakersfield.

That set up the game Saturday night against R.K.T., a squad also playing in the losers' bracket of the double-elimination tourney. Knott and Andreasen were bombed for a total of 11 runs and 13 hits by the powerful Fresno team and China Lake came up on the short end of the score, 11-3.

The tournament was won by the Clovis Cowboys, from Clovis, Calif.

Both the civilian varsity team and its all-military counterpart, Jim Brown's Navy varsity team, will play one game each against the Edwards AFB all-stars at Reardon Field tomorrow evening.

Game times are 6 and 8 o'clock.

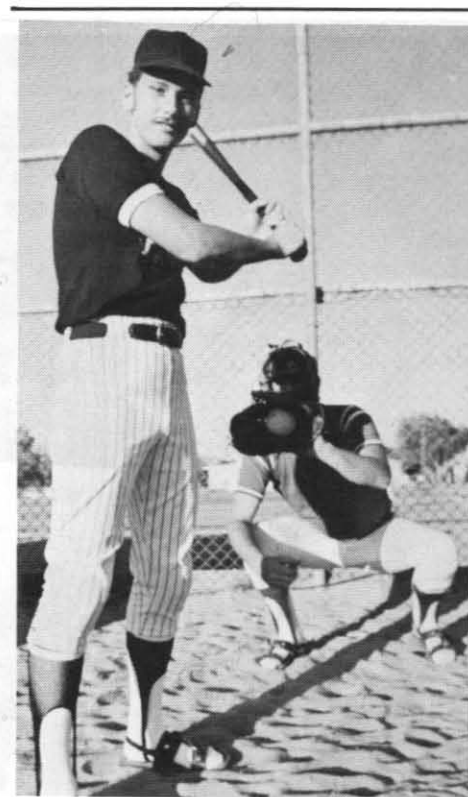

runner-up Nancy Webster on Sunday to win the crown.

Mrs. Castor's four rounds were 92-90-80-89 for a 351 gross total. Mrs. Webster posted scores of 95-84-89-88 for a 356 total.

During her record round of golf, Mrs. Castor scored birdies on holes No. 7 and 9, and posted bogeys on seven holes. Par for the women is 75. The previous record of 82 was held jointly by Mary McDonald and Eileen Russell, both former club champions.

Lee Lee, a 24-handicapper, won the tournament's low net prize with a 304 total. Second low net was garnered by Carol Gove with a 311 figure. Laurie Kail was third low net and Doris Cosner came in fourth.

Following the end of play on Sunday, the Women's Golf Club held a party to crown the new champion.

**SLUGGER AT THE PLATE** — Gary Pottier, a former NWC Athlete of the Month and third baseman for the Navy Hawks in the Fast Pitch Division of the China Lake Intramural Softball League, has become a formidable foe at the plate. Already recognized for his prowess around the infield, Pottier had smacked one home run in each of the last seven games played by his team, until the skein ended last Tuesday evening. Pottier also is a member of the all-Navy varsity softball team. —Photo by PH2 D. W. Yeatts

## Roaches Increase Lead in Fast Pitch Softball Division

The Roaches won three games during the past week to increase their lead in the Fast Pitch Division of the China Lake Intramural Softball League to two full games.

The second place Hideaway team has won seven games and lost two, compared to the Roaches, who have now won nine games while only losing two.

On June 13, the Roaches won a slugfest with the Sierra View Motors nine, 12-9. Al Hyles slammed two home runs off losing pitcher Paul Amundsen. In addition, Mike Machowsky also hit a solo round-tripper for the winners.

Last Monday evening, the Roaches bombed the VX-5 Vampires, 12-0, in a game called at the end of five stanzas because of the lop-sided score. Tony Scanlon notched the victory and John Gilliland was the losing pitcher.

On Tuesday evening, the league-leaders smashed the NAF Hawks, 10-3, as Al Hyles again socked a pair of home runs.

In other action during the past week, the Hawks crushed the Bud Eyre nine, 18-4, in a game played on June 13 that saw six members of the Hawks climb on Bobby Kochman, hurler for the Bud Eyre team, for six home runs. Roland Hood, George Baland, Gary Pottier, Jim Brown, Bill Stewart and John Bateman turned the trick. Ron Shiers hit one out of the park for the losers.

On Monday evening, The Hideaway nine nearly whitewashed the Sierra View team, winning 13-1. Billy Brown was the winning hurler and Amundsen was handed the loss.

Last Tuesday night, the Bud Eyre squad outlasted Sierra View to win, 8-6, as Amundsen lost another game — his third of the week. Dick Davis was the winning pitcher. Warren Turnbaugh and Bill Underwood hit homers for the losers while Max Smith and Morris Scharff blasted round-trippers for the winning team.

## GOLF LEAGUE STANDINGS

Following are the standings in the China Lake Intramural Golf League after six weeks of play:

AMERICAN DIVISION		
Team	Won	Lost
Vampires	21	15
Smoothies	20	16
Stingers	19.5	16.5
NAF Hawks	19	17
Analysts	17.5	18.5
The Symposium	15.5	20.5
Fore Players	13	23
Nolo Contenderes	10	26

NATIONAL DIVISION		
Team	Won	Lost
Bad & Ugly	22	14
Fuzaliers	22	14
The Bandits	21.5	14.5
Big Spenders	21.5	14.5
Short Knockers	18.5	17.5
TID	17	19
Prima Donnas	16	20
Streakers	15	21

## 1974 Hunting Licenses Now on Sale by Agents

Hunting licenses for the 1974-75 season are now on sale at agents of the California Department of Fish and Game.

The basic license costs \$6, while junior licenses, required for hunters under the age of 16, are \$2. Also on sale are deer and bear tags for \$2 and \$1, respectively.

Duck and pheasant stamps, costing \$1 and \$2, respectively, will go on sale in September.

Regulations booklets, outlining the 1974-75 rules for hunting game mammals and furbearers, will be available from license agents and DFG offices in July.

## Two Management Innovator Of Yr. Awards Presented by ASPA

A Ridgecrest minister and an equipment specialist in the Engineering Department's Technical Data Division were singled out last week to receive the 1974 R. W. Bjorklund Management Innovator awards from the American Society of Public Administration.

The presentation took place during the yearly dinner meeting of ASPA held at the Commissioned Officers' Mess on June 11. The recipients were Rev. Cal Torrance, pastor of the United Methodist Church, and Robert A. Golloway, an NWC employee.

The award was established in 1967 in memory of R. W. Bjorklund, former head of Central Staff, who died in 1966. It is given to men or women who show special creative achievements through innovations in their jobs.

Bjorklund's widow, Elizabeth, a China Lake school teacher, and two of the couple's children, were in attendance. The awards were presented by Leroy Riggs, acting NWC Technical Director.

### Cited for Creativeness

Rev. Torrance was cited for his creativeness in establishing a system to make legal services available to indigent persons in the Indian Wells Valley. A lawyer, in addition to being a minister, Rev. Torrance encouraged other attorneys to

## Burrowing Owls Are Protected by Law; Leave Them Alone

Burrowing owls are interesting to watch, but China Lake residents are reminded to observe only — not try to capture the young birds for pets as some individuals recently have been observed attempting to do.

Several families of burrowing owls have made their nests and are raising their young in the vicinity of the China Lake golf course.

According to Tilly Barling, the Center's natural resources specialist, the burrowing owl is fully protected by California law — as are all other birds of prey. They may not be captured, kept as pets or disturbed in any way, Mrs. Barling added.

One family that is raising seven young owls has been a particular target of would-be pet lovers, who may not know they are violating the law.

The burrowing owl, Mrs. Barling noted, is important in maintaining the ecological balance of the local desert area by controlling the small rodents on which it feeds.

Carl McCammon, game warden assigned to the local area, reported that it is a misdemeanor punishable by a fine of up to \$500 or six months in jail (or both) to be found in possession of a burrowing owl.

## Change of Command Ceremony

(Continued from Page 1)

distinguished service records during World War II have been followed by increasingly more responsible and demanding assignments as they advanced in rank.

He earned two Distinguished Flying Crosses and five Air Medals for WWII aerial operations that began as a night fighter pilot aboard the aircraft carrier USS Lexington, and were followed by service with Bombing Squadron 14 on the aircraft carrier USS Wasp.

Other wartime service included duty as a naval aviator with Bombing Squadron 150 on board the USS Lake Champlain and with Attack Squadron 14-A, when this unit was attached to the USS Princeton.

### Augmented to Regular Navy

RADM. Freeman, who had enlisted in the Naval Reserve six months after the outbreak of World War II, augmented to the regular Navy following the war.

Highlights of his career since that time, which has alternated between shore duty and sea duty assignments, have included instruction at the General Line School at Newport, R.I.; two years of graduate study that led to a master's degree in business administration at Harvard University, and a period of four years with the Bureau of Aeronautics during which time his duties ranged from contracting officer and contract negotiator to assistant head of the Components Purchase Section and then head of the Workload and Statistics Section.

RADM. Freeman gained familiarity with the kind of weapons and missile test works such as that being carried out at China Lake during a three year period (July 1957 to July 1960) when he served as head of the Air to Air Missile Department, the Missile Test Department and the Astronautics Department at Point Mugu.

When he left Point Mugu, RADM. Freeman assumed command of Attack Squadron 144, and subsequent duty involved him in the Vietnam War as navigator and then air officer of the aircraft carrier USS Oriskany.

Since his Vietnam War tour of duty, which began in November 1961, RADM. Freeman was a Phantom II test pilot while serving as the Bureau of Naval Weapons' representative at the McDonnell Aircraft Corp. in St. Louis, Mo., and subsequently earned both the Legion of Merit and the Distinguished Service Medal.

The Legion of Merit was awarded for his service as principal assistant to the program director of a major multi-service aircraft development program while assigned to the Air Force Systems Command's Aero Systems Division at Wright-Patterson Air Force Base in Dayton, Ohio. Presentation to RADM. Freeman of the

Distinguished Service Medal was a result of five years of outstanding accomplishments that began in June 1968 when he became the Navy Department's Deputy Chief of Naval Material (Procurement and Production).

Seating for approximately 800 persons will be provided at next Thursday's change of command ceremony, which will begin with a musical prelude presented by the Navy Band San Diego. All civilian employees of the Center, as well as other interested persons are invited to attend the change of command.

Guest speaker for this occasion will be Vice Admiral Robert B. Baldwin, Commander, Naval Air Force, U.S. Pacific Fleet, from San Diego.

Start of the change of command ceremony will be signalled by the departure from the NWC Administration Building for the reviewing stand by RADM. Pugh, RADM. Freeman and VADM. Baldwin.

The program will begin with the invocation that is to be delivered by Capt. R. E. Osman, NWC's senior chaplain, and continue with brief remarks by VADM. Baldwin.

Comments on his career as a Naval officer and his plans upon retirement will be presented by RADM. Pugh, at the conclusion of which his admiral's flag will be hauled down and presented to him.

The official orders designating him as NWC's new Commander will then be read by RADM. Freeman, and his flag will be raised prior to rendering full honors to the senior officer present.

Personal comments by RADM. Freeman conveying his views on taking command of the Naval Weapons Center will be followed by the benediction delivered by Chaplain Osman, and the ceremony will be concluded by escorting RADM. Pugh to the quarter deck, where he will be "piped over the side."

In the event of inclement weather, the change of command ceremony will be moved indoors to Hangar 3 at the Naval Air Facility.

## New Clothing Allowance

The monthly cash maintenance allowance for clothing of enlisted personnel will change July 1.

The basic cash clothing maintenance allowance (BMA) for men, which is paid between the 7th and 36th month of service, will increase from \$5.40 to \$5.70 a month.

The standard cash clothing maintenance allowance (SMA) for men, which begins with the 37th month of service, will go up from \$7.80 to \$8.40 a month. However, the BMA for Navy women will decrease from \$7.80 to \$7.20, and the SMA for Navy women will go down from \$11.10 to \$10.20 a month.

**TOP INNOVATORS** — Robert A. Golloway (l.), an equipment specialist in the Engineering Department's Technical Data Division, and Rev. Cal Torrance, pastor of the United Methodist Church in Ridgecrest, were the recipients of the 1974 R. W. Bjorklund Management Innovator awards, sponsored by the

American Society of Public Administration. Leroy Riggs (c.), Acting NWC Technical Director, made the presentations. The awards are given each year by the China Lake branch of ASPA to individuals who contribute new ideas and improvements in the public management field. —Photos by PH3 Jerry Sizemore

## Range Access Rules Changed . . .

(Continued from Page 1)

Lauritsen Rd. gate for the purpose of going to one of the recreational facilities located north of the barrier fence.

These include the Sierra Gun Club, Bowman Archery Club, Special Services' Skeet and Trap Range, or the China Lake Navy Flying Club.

The guard will issue an NWC Visitor Visor Card (stamped with the name of the recreation activity) for display on the automobile visor or in the right-hand corner of the windshield of the vehicle. The card number, type of activity, vehicle license number and number of personnel in the vehicle will be logged by the guard. The Casual Visitor Pass number will also be recorded.

Arrangements for special events can be made with the Security Operations Division (Code 841) if advance notice is given. All Visor Cards must be returned to the Lauritsen Rd. guard when leaving the area.

### Visits to Dog Kennels

Persons who desire to visit the dog kennels will be referred to the Ridgecrest Police Department for contact with the Animal Control Officer. If the Animal Control Officer determines the visit necessary, he may escort the person to the kennels.

Personnel who have been authorized by NAF Instruction 8370.1 to use the high power rifle and pistol range will be permitted access unless Code 1864 advises the Security Dispatcher that the range has been reserved for other use. In addition, Seabees' rifle teams will be permitted entrance under the

same conditions. These persons also will be issued Recreation Visor Cards at the Lauritsen Rd. gate.

### NAF Swimming Pool

Personnel authorized by NAF to use the swimming pool will be issued a special pass by the NAF Administration Office which will permit entrance through the Lauritsen Rd. gate when all other gates are closed.

Visits to the north range areas for recreational or sight seeing purposes, will still be handled according to the procedures used in the past.

The recently completed chain link fence was erected by the Alcorn Fence Co. of Sun Valley, Calif., under a \$19,000 contract. It is connected to the five-strand barbed wire fence that runs on the western perimeter of the range areas.

Gates are installed across Lauritsen, Knox, Wasp and Sandquist Rds. All four gates will remain open on weekdays from 6 a.m. to 6 p.m. to normal, official use.

According to William E. Davis, NWC Director of Security, it is planned to increase patrolling of the range areas north of the barrier fence.

"Only persons who are on official business or who are visiting one of the recreational areas on the Center — through prior approval or knowledge — should travel north of the fence," Davis stated.

The barrier fence was erected following a study by the Center's Ad Hoc Physical Security Committee, and was approved by the Facility Planning Board and NWC Command in August 1971.

## Castillo Brothers To Attend Naval, Coast Guard Academies

This summer will be a time of joyous farewells in the Floyd Castillo household in Ridgecrest.

Dave and Joe Castillo, sons of LCDr. Floyd R. Castillo, USN (Ret.), and Dana Castillo, will enter the U.S. Naval Academy and U.S. Coast Guard Academy, respectively, within the next month.

Dave, who was born in San Francisco, is a 1973 graduate of Burroughs High School. He has spent the past 10 months at the Naval Academy Prep School in Bainbridge, Md., training for his entrance into the Academy, at Annapolis.

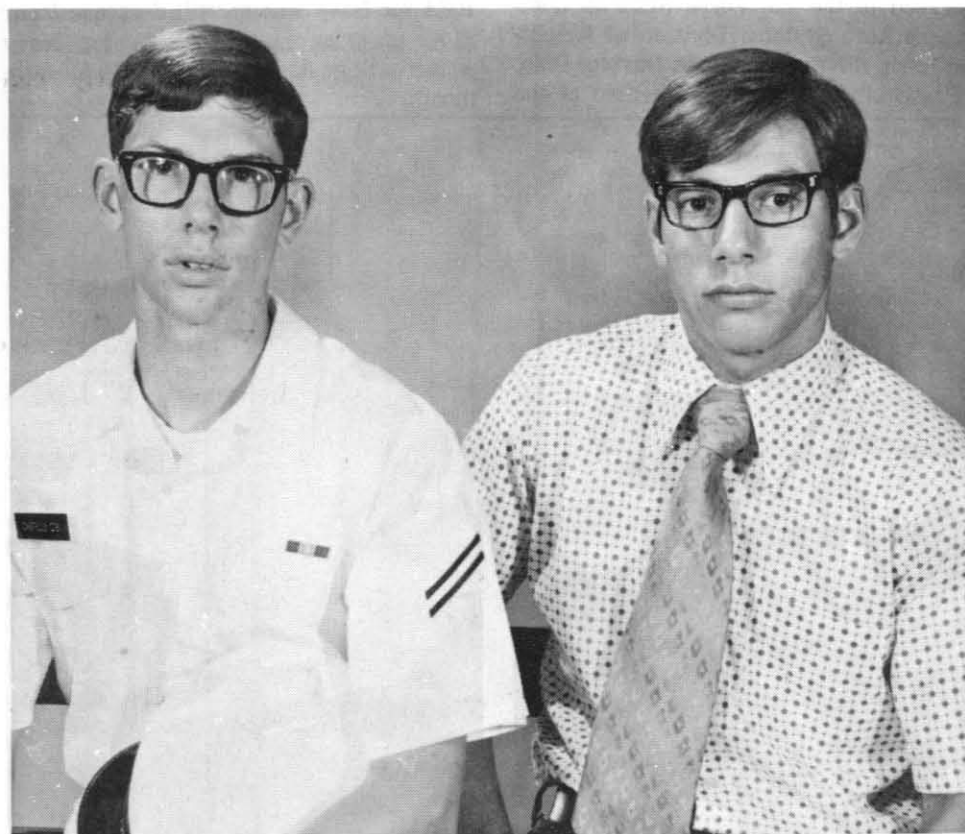

The future Navy officer was a 3.3 grade-point-average (gpa), student at Burroughs. While in high school he pursued the hobby of

photography and took a great many of the photographs featured in the 1973 Burroughs yearbook.

Joe, who was graduated last week from Burroughs, also was born in San Francisco. He had applied for entrance to both the Coast Guard and the Naval Academies, and accepted the appointment from the Coast Guard.

He will journey to New London, Conn., for entrance on June 24. The younger Castillo competed in football and track while at Burroughs and maintained a 3.6 gpa during his four years at the local high school.

Unlike his brother, Dave, who wants to join the Supply Corps, Joe has his eye on marine transportation management.

ACADEMY BOUND — Brothers Dave (l.) and Joe Castillo, sons of Mr. and Mrs. Floyd R. Castillo, Ridgecrest, were recently notified that they have won appointments to the U.S. Naval Academy and the U.S. Coast Guard Academy, respectively. The boys are following in the tradition of their father, a former lieutenant commander in the Navy, who was stationed at China Lake when he retired last year.

CONCLUDING EVENT—After a week-long visit to the Naval Weapons Center that is aimed at offering them a glimpse into possible vocational training opportunities, youths from the Bakersfield area receive certificates of participation during a brief graduation ceremony. Rear Admiral Paul E. Pugh, NWC Commander, is shown presenting one such certificate to a young man who was here with the first contingent of 20, while Lt. R. L. Dueringer, who has arranged the program for the visitors, looks on at right.

## Bakersfield Youths Spend Week Getting Glimpses of NWC Life

The Naval Weapons Center was host this week to the second group of 20 youths out of a total of 80 from the Bakersfield area who have been spending Monday through Friday at China Lake.

Purpose of the visits, which began on June 10 and will end on July 5, is to provide a glimpse for the participants into possible vocational training opportunities, as well as enable adults who accompany them as counselors to join them in "rap" sessions and recreational activities.

### Nationwide Program

The Naval Weapons Center is one of a number of military installations across the country that is taking part in this kind of a program. Locally, it is being carried out in cooperation with the Kern County Youth Service—an activity coordinated by the Military Affairs Committee of the Greater Bakersfield Chamber of Commerce. The visitors each week will be from a cross-section of various socio-economic groups.

Lt. R. L. (Pete) Dueringer, administrative assistant to the head of the Command Administration Department, has arranged a varied program for the youthful visitors, who are being accompanied by six adults during each of the four week-long visits.

Lt. Dueringer has called on Jack Mussler, from the office of the Technical Presentations Coordinator, to set up visits to Michelson Laboratory and the Microelectronics Laboratory, while Ltjg. Frank Santoni, assigned to the Project Office at the

Naval Air Facility, has made similar arrangements for tours of NAF and Air Test and Evaluation Squadron Five (VX-5).

The visitors also hear a lecture about work in the field of lasers, view orientation films covering a wide range of the Center's technical programs, become acquainted with the work of both Fire and Police Division personnel, visit the Supersonic Naval Ordnance Research Track (SNORT), and learn something about the aircraft survivability program.

In addition they are given a look at Technical Information Department's video projects branch and visit the Maturango Museum, as well as the Daily Independent newspaper office and printing plant in Ridgecrest.

### Medical Checkups Provided

During the week-long stay, each group of youths is housed in the Navy barracks and has its meals at the mess hall. Other scheduled activities include dental and medical check-ups at the NWC Dispensary and a presentation by the Chaplain.

Recreation facilities that are available for the visitors' enjoyment are the gymnasium swimming pool, the Youth Center, golf driving range and bowling alley.

After packing up following lunch each Friday, the young men take part in a brief graduation ceremony and then depart for Bakersfield.

## Money Being Raised for 22-Mile Fence To Enclose Preserve for Desert Tortoises

A group of California Garden Clubbers are working to raise money for a fence.

The fence, which will be 22 miles long and 6 ft. high, will surround the world's first desert tortoise preserve, near California City.

Once it is built, it will protect California's slow-moving, official state reptile from motorcycles, jeeps, and dune buggies. Not to mention people. "Increasing human encroachment on the desert is squeezing out the tortoise," said Jim St. Amant, of the California Fish and Game Department.

The proposed fence will cost approximately \$40,000. To raise the money, California Garden Club members are selling tortoise pins for \$1 each.

Experts estimate that about 900 tortoises per sq. mi. can be found on the preserve, compared to only 30 per sq. mi. in other areas of the Mojave Desert.

"It is against the law to possess a desert tortoise, without a proper permit, but we know that at least 100,000 of them are being kept as pets in Los Angeles alone," St. Amant said.

### Aetna Agent Visit Slated

Paul Wilhelm, representative of the Aetna Insurance Co., will be at the Community Center next Wednesday, June 26. Participants in Aetna's Federal Employees Benefits Program may consult with Wilhelm from 9 a.m. to 1 p.m.

## CAAC Moves to New Address; Counselor Added to Agency Staff

The Navy Counseling and Assistance Center (CAAC) has moved. Established one year ago at 406 Independence St., the center has been moved to 109-D Mitscher Rd.

Hours of the facility are from 8 a.m. to noon and 1 to 4 p.m., Monday through Friday. However, help can be obtained by calling the 24-hour Hotline at NWC Ext. 2054. This assistance is open to military personnel and their dependents, who are invited to drop in and talk over any problems they might have.

In addition to the new address, CAAC also has a new staff member — AN Stephen Green, who has replaced A03 Nick Mariani, of VX-5. Green joins PN3 Mike Neubecker, from the Naval Air Facility, and Esther O'Neill, CAAC director. Mariani has fulfilled his service commitment and has been discharged.

## HAIL AND FAREWELL

For the month of May 1974

### ARMY & AIR FORCE LIAISON OFFICE

Arrivals-LCol. James R. Gibbons, Maj. James R. Rozinek, Lt. Larry B. Cardinal, SSG. Don W. Edman.

## Golfers' Attire Should Meet Dress Standards

Persons using the China Lake golf course or clubhouse are reminded that rules exist regarding dress.

Wearing attire such as bare midriffs, abbreviated shorts, ripped soles, narrow-heeled shoes, etc., will not be permitted.

Undershirts as outer garments are not considered appropriate attire for male golfers. Tank shirts, tattered cut-offs, bathing shorts, or bare feet, are also not allowed in the clubhouse or on the golf course.

All cut-offs must be hemmed and be no more than six inches above the knee to meet approval.

Both Neubecker and Green will assist Mrs. O'Neill as para-professional counselors. In addition, Lt. Stuart Bell, of NAF, and Ltjg. L. D. Sirman, of VX-5, may be called upon for help. The latter represent their commands as drug exemption officers.

The counselors at CAAC are available to assist persons in a wide range of problems, such as alcoholism, homosexuality, drug abuse, suicide prevention, and financial and marital matters.

## Heliport . . .

(Continued from Page 1)

is currently restricted to daylight use only. As soon as lights (which have been ordered) are installed, it will be available for use on a 24-hour basis.

The heliport project was started by the Rotary Club of China Lake, and had its construction been performed by a contractor would have cost an estimated \$30,000, in addition to the purchase price of the land.

The Navy, however, donated the land and the heliport was designed at no cost by Cliff Harding, a Bakersfield architect, who worked closely on this part of the project with Capt. W. H. Sturman and Cdr. J. L. Uhe, NWC Public Works Officer and assistant Public Works Officer, respectively.

Local Seabee Reservists helped prepare the site for construction of the landing pad, while the Ridgecrest Concrete Co. provided the materials at cost. This expense was met by the local Rotary Club.

In addition, John Enriquez, of the S&E Construction Co. in Bakersfield, provided labor needed for both preparation and finishing of the heliport.

A four-way agreement covering operational responsibilities for the Stephenson Memorial Heliport was signed last September by RAdm. Pugh; Kenneth Smith, then mayor of Ridgecrest; Van Aken, on behalf of the hospital's board of directors, and Sandy Paulin, operator of the Ridgecrest Ambulance Service.

ESB CHILD CARE CENTER TO GET NEW DIRECTOR — Pauline E. Walsh will take over as the new director of the Employee Services Board Child Care Center in July. Shown introducing Mrs. Walsh (right) to some of the activities at the day care center are (l. to r.) Larinda Myers, one of the young students, and Lucille Dunn, a nursery teacher. Mrs. Walsh enjoys working with children and plans to expand the current program at the center, which is operated for the children whose parents must leave them while they work.

## More Than a Baby Sitter

## Lover of Children Appointed As Head of Child Care Center

The ESB (Employee Services Board) Child Care Center will have a new director come July. Her name is Pauline E. Walsh — better known to her friend's and family as "Polly." She will take over the position currently manned by Shirley C. Sims.

Mrs. Sims, after serving as Child Care Center director for seven years, has decided to give up the working girl's life and retire, with her husband "Bill," to West Los Angeles to enjoy restaurant row, the beaches, traveling throughout America, the Caribbean and Europe, and possibly

return to school, again.

When the word went out that Mrs. Sims was retiring and a new director was required, Mrs. Walsh quickly responded. When asked why she was interested in this type of work she replied, "This is an excellent opportunity, not only for me, but I feel that parents who must work and must leave their child with a day care center deserves much more than a baby sitting service."

"I like the programs setup at this center and I hope to expand on them, for the child's sake. I feel a child who must be left at a day care center should be more motivated, more enlightened than the child that has a home and mother all day," Mrs. Walsh added.

Not only are the thoughts she relates impressive, but her background for this job is outstanding.

A native of Munford, Tenn., she attended Munford High School and has a background in Montessori and early childhood education.

Since moving to the Ridgecrest - China Lake area, she has been involved in Boy Scouting as a den mother and den leader coach. She teaches religion at St. Ann's Catholic Church and has taught at the Ridgecrest Nursery School. In addition, she is a member of the St. Ann's School board and has served on the board of directors for the Desert Empire Fair, Inc.

Polly met her husband, David, a mortician at Lyons Mortuary, in Ridgecrest. Her family includes four boys, Patrick, 14; David, 13; Christopher, 6 and P. J. who is 5, and a dog named "Dutchess".

When asked what the P. J. stood for she blushed "Pesty Junk," that leaves a lot to be said about P.J.

She enjoys reading and writing. In fact, she likes to write children's stories and has had many published in the Children's Digest.

Mrs. Walsh likes the Ridgecrest - China Lake area and hopes it continues in its growth, "It's a nice place for kids to grow up in," she believes.

### SAFETY SEZ:

Think first, Lift second.

SCRAPBOOK WINS SECOND PLACE AWARD — The Desert Flowers Chapter No. 125 of the Navy Wives Club of America recently attended The Southwest Region convention, where the scrapbook entered by the local group won a second place award. Margaret and Frank Jackman proudly display the scrapbook. The book summarizes the activities of the club for the past year, and the Jackmans' were thanked a hundredfold by the chapter for their time and work on it.
