

PARADE SPREADS CHRISTMAS CHEER — A cherub choir float entered by the Grace Lutheran Church won the sweepstakes prize in the annual Christmas parade held last Saturday in Ridgecrest, while the trophy for the entry which most closely followed the theme, "Christmas Memories," was awarded to a group of antique car owners who decorated their vehicles as they might have appeared if spruced up for such a parade many years ago. In this camera's-eye view of the procession can be seen (top row, from left) a car carrying NWC Commander RADM. R. G. Freeman III and his wife, Dottie, and Jan Edwards and her husband, Ted, who is Mayor of Ridgecrest; a float depicting the Nativity scene, and Barbara Jackson,

equestrian entry from Ridgecrest who will be riding in the Rose Parade on New Year's Day in Pasadena. In the next row of photos (l.-r.) Santa waves a cheery greeting to parade viewers; Jennifer Quinton, dressed as Santa's helper, rides in a miniature sleigh pulled by Frisco, an air-dale terrier; and Bob and Mary Cornelius rigged up their pony-drawn 100-year-old sleigh with wheels so that it could be pulled along the snowless parade route. Other participants in the Christmas parade included in this group of photos are the Burroughs High School band, a float entered by the Navy Recruiting Office, a marching unit composed of members of the Naval Sea Cadet Squadron, China Lake, and Christmas carolers from Brownie Troop 188.

Holiday hours of NWC business, recreation facilities

All business and recreation facilities aboard the Naval Weapons Center will be closed on Christmas Day—Saturday, Dec. 25—except Hall Memorial Lanes and its snack bar, which will be open from noon until 7 p.m.

The only such facilities which will operate on Saturday, Jan. 1—New Year's Day—will be, again, the bowling alley and snack bar, 11 a.m. to 11 p.m., and the China Lake golf course, 7:30 a.m. to 5 p.m.

For the information of patrons of the Commissary Store, it will be open during its regular hours of operation for the next two weeks, except on Friday, Dec. 24, and on Friday, Dec. 31, when it will be closed.

Special Services facilities that will be open on Dec. 24 and 31 are the golf course, from 7:30 a.m. to 5 p.m.; the gymnasium, 11 a.m. to 5 p.m., and the indoor pool, noon to 2 p.m.

The bowling center and its snack bar will be open from 11 a.m. to 11 p.m. on Dec. 24 and from 11 a.m. to 6 p.m. on Dec. 31. The hobby store will operate from 1 to 5 p.m. on

Dec. 24, but will be closed on Dec. 31, while all other Special Services facilities will be closed on both days.

Of the facilities controlled by the Employee Services Board, the Child Care Center, China Lake Propulsion Laboratory cafeteria and the catering trucks will not operate on either Dec. 24 or 31. On both days, however, the barber shop will be open from 9 a.m. to 2:30 p.m., the Station Pharmacy, 9 a.m. to 5 p.m., and the Fedco service station, 8 a.m. to 4 p.m. The beauty

shop will be open from 7 a.m. to 3 p.m. on Dec. 24 and from 7 a.m. to 5 p.m. on New Year's Eve, while Fazio's Market will open at 9 a.m. both days, closing at 7 p.m. on Dec. 24 and 9 p.m. on Dec. 31.

Navy Exchange facilities that will be closed on Dec. 24 are the service station, and the Naval Air Facility, Bennington Plaza and Michelson Laboratory snack bars. On Dec. 31, the only NEX facility remaining open (as mentioned above) will be the bowling alley snack bar.

Two popular cartoon features will be offered at Center theater matinees next week for the enjoyment of kids of all ages during the Christmas holiday from school. No admission will be charged to Monday afternoon's show, which will begin at 1:30 with a 53-minute epic entitled "Mr. Magoo's Christmas Carol," in which the worthy gentleman plays the role of Scrooge in a Broadway production of "A Christmas Carol."

Following this will be 40 minutes of cartoon shorts with such titles as "Shoo

Spy," "Double X Double Cross," and "Captain Kidd's Not Kidding."

The regular admission price of 75 cents will be charged all those who attend the 1:30 p.m. matinee on Thursday, Dec. 23, featuring a 79-minute cartoon musical entitled "Hugo the Hippo."

Hugo is one of a number of his kind imported to Zanaibar in order to discourage sharks. The idea works, but when the sharks are gone, so is the need for the hippos, and people begin to neglect their chubby river horses. A lesson for all follows.

SHOWBOAT

MOVIE RATINGS
The objective of the ratings is to inform parents about the suitability of movie content for viewing by their children.

- (G) - ALL AGES ADMITTED
General Audiences
 - (PG) - ALL AGES ADMITTED
Parental Guidance Suggested
 - (R) - RESTRICTED
Under 17 requires accompanying Parent or Adult Guardian
 - CS - Cinemascope
 - STD - Standard Movie Screen
 - Regular starting time—7:30 p.m.
- Program subject to change without notice—please check marquee.

The Center Theater will follow an abbreviated schedule (four days a week) throughout the holiday season. Only movies released in 1976 will be shown.

FRI. 17 DECEMBER

"RIVALRY" (104 Min.)
Joan Hackett, Scott Jacoby
(Suspense Drama) A precocious ten year old objects to his mother's remarriage and plans a deathtrap for his stepfather. But his mother dies instead and the boy withdraws into his own world. (R)

MON. 20 DECEMBER

"MR. MAGOO'S CHRISTMAS CAROL" (93 Min.)
1:30 p.m. Matinee - free admission

"THE SHOOTIST" (99 Min.)

John Wayne, Lauren Bacall
(Western Drama) In 1901, an aging gunfighter (Wayne) rides into Carson City to be examined by his old doctor-friend, James Stewart. The diagnosis is cancer with certain death in a short time. Wayne checks quietly into the lodging home of Bacall. However, his identity is soon revealed. Bacall's son, Ron Howard, is thrilled. Richard Boone and others have a grudge against Wayne. Mayor Harry Morgan is upset to have a gunman in his town and Wayne and Bacall develop a deep relationship. Wayne's enemies gather together in a saloon to meet him in a shoot-out. After killing them, Wayne is mortally wounded by the bartender. Enraged, Howard kills the bartender and then throws away the gun. Dying, Wayne pleases to see that Howard will not follow in his footsteps. (PG)

WED. 22 DECEMBER

"SILENT MOVIE" (87 Min.)
Mel Brooks, Marty Feldman

(Comedy) This Mel Brooks film proves that silence can be golden with its madcap array of zany characters, progression of gags and patented Brooks lunacy. Set in contemporary Hollywood, this film stars Brooks as a has-been director who drank himself into professional retirement. Finally he sobers up and decides to make a smashing comeback. Aided by loyal sidekicks Marty Feldman and Dom Deluise, Brooks convinces the current studio chief of a failing studio producer (Sid Caesar) to sponsor a silent movie with a half dozen of Hollywood's biggest names as a last attempt to avoid being taken over by a big conglomerate. (PG)

THURS. 23 DECEMBER

"HUGO THE HIPPO" (79 Min.)
1:30 p.m. Matinee — regular admission

"LOGAN'S RUN" (119 Min.)

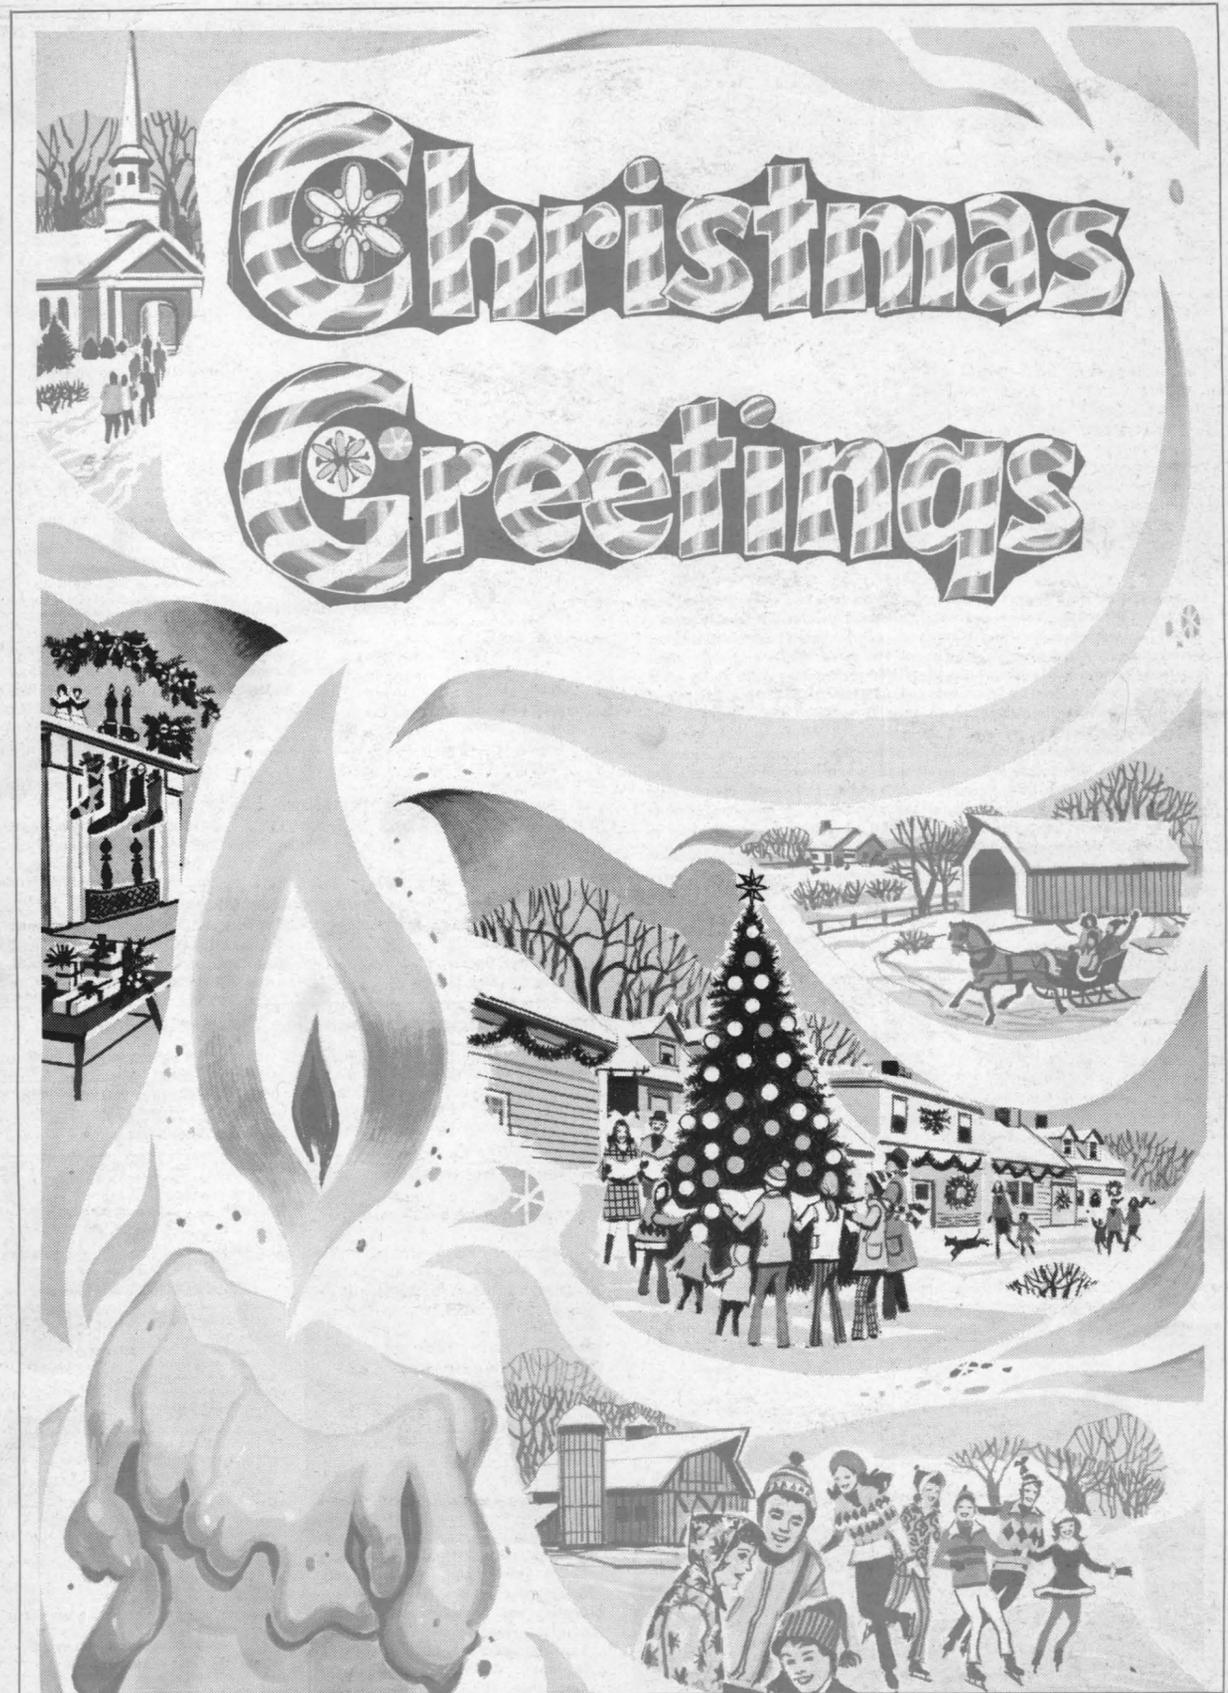

Michael York, Richard Jordan
(Science Fiction) This film takes place in the year 2274, after the holocaust of a global war. In this new society no one is permitted to live past 30. At that point they are put on a carousel and disintegrated by lasers. Michael York and Richard Jordan are known as Sandmen, who kill those who choose to escape and seek sanctuary from the deadly last day. York has reached 30 and after falling in love with Jenny Agutter decides to run away with her rather than submit to the carousel. They are pursued by his fellow Sandman Richard Jordan. After hazardous adventures they escape their pursuer and reach the outside world. There they encounter an old man (Peter Ustinov) who, with a horde of cats, lives in the remains of the U.S. Senate Chamber. York has proven that he can escape from a controlled society and that he and Agutter can look forward to a long life together. (PG)

IN THE CHRISTMAS SPIRIT — Approximately 200 new toys were received, and \$240 raised toward purchase of additional Christmas gifts, at last Sunday night's annual Toys for Tots country music and dance program held at Joshua Hall on the Desert Empire Fairgrounds in Ridgecrest. The drive, whose aim is to allow distribution of toys to all underprivileged children of the Indian Wells Valley area, is being jointly sponsored by the Marine Corps Liaison Office at NWC and the HI Desert Detachment of the Marine Corps League. In the photo, Tom Flynn (at left), league commandant, and Gy / Sgt. R. D. Baldwin, of the Marine Corps Liaison Office, are shown preparing to pack boxes of toys for distribution. According to Flynn, Western Auto Supply in Ridgecrest made a valuable contribution of a van load of toys to the drive. Until Monday, which is the final day of the Toys for Tots drive, local residents are asked to drop off used toys that are still in good condition either at the Daily Independent newspaper office or Hobo Joe's restaurant in Ridgecrest, or at the Inyokern Market. —Photo by Ron Allen

Christmas holiday greetings

Christmas 1976 finds the world at peace but not free of the anxieties that seem to perpetually stand between "Men of Good Will" and lasting "Peace on Earth." Here at the Naval Weapons Center, the holiday season is again working its charm. Indeed, this is the very nicest time of the year. Friends gather to share their feelings of good fellowship. The traditional music of Christmastime, and the giving — not only of gifts to loved ones and friends—but of oneself to the spirit of the season, makes this a very special time for all of us.

With families reunited, service personnel home on leave, students home from colleges and universities and grown children again with their parents and relatives, there is so much opportunity for enjoyment. With the greatly increased amount of travel, we urge all employees and their families to be most careful. Don't let an accident mar the holidays.

To all Naval Weapons Center military personnel, civilian employees and their families, we extend our best wishes for a most wonderful Christmas and the brightest of New Years. As we look forward to 1977, let us be grateful for our nation, our standard of living and our security. Remember, too, those Americans who are not able to be with their families and share in the pleasures of the Christmas season because duty requires their presence at far-flung stations and on ships throughout the world. The holiday season is better for every one of us because our military personnel are "on watch" on our behalf.

Merry Christmas and Happy New Year,

New contractor now handling CHAMPUS claims

The Department of Defense has announced new contractors for claims submitted under the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) for five southwestern states, effective Nov. 15.

CHAMPUS claims for care received in California should be sent to: California Physicians Service, P.O. Box 85020, San Diego, Ca., 92138. Each state has been assigned its own box number.

AT NCMA MEETING—Capt. Frederic H. M. Kinley (at right), Deputy Commander of the Naval Weapons Center, was introduced at Tuesday night's meeting of the China Lake/Ridgecrest Chapter of the National Contract Management Association. The Deputy Commander, who is a certified procurement contracts manager and member of NCMA, is shown with William N. Hunter, guest speaker of the evening. Hunter, who came here from Washington, D.C., is the Deputy Assistant Administrator for the Office of Federal Procurement Policy. He discussed the latest procurement policies in the areas of major systems acquisition and research and development, and their effects on field activities such as the Naval Weapons Center.

SHARP SHOOTERS — Top pistoliers in this year's Admiral's Cup competition in marksmanship were the team from Air Test and Evaluation Squadron Five. Team members were (l.-r.) Lt. Greg Averett, AQC John Meredith, PH2 Terry Miles, AT2 Levelle Baty and AE3 Bernardo Yabut. AQC Meredith, who was captain of the VX-5 pistol team, turned in the top score of the day in that event, shooting 265 out of a possible 300. —Photo by PH3 B. J. Beckman

First place in Admiral's Cup marksmanship competition won by NAF sharpshooters

Sharpshooters from the Naval Air Facility last week won top honors in this year's Admiral's Cup competition in marksmanship and moved to within two points of the Naval Weapons Center in the over-all standings.

The marksmanship competition is divided into three events: skeet, trap and .45 pistol, with each team consisting of five shooters for each match. In both the skeet and trap events, NAF placed first, NWC, second and Air Test and Evaluation Squadron Five, third. With pistols, however, these results were reversed as the marksmen from VX-5 came in first, NWC, second and NAF, third.

Scores from each event were then compared and added together to determine the over-all winner. NAF took first place, with NWC, second and VX-5, a very close third. ASC John Calhoun of NAF was the high skeet shooter of the day, hitting 24 out of a

possible 25 birds. His teammate, Lt. Bill Wilson, and AE2 Craig Hiller, of VX-5, tied for second with 23 birds each.

In trap shooting, ASC Calhoun, along with Lt. Phill Fossum, of NWC, tied for high honors with 23 out of 25. TM2 Steve Metzler, of NWC, and AEC Paul Brown and Lt. Wilson of NAF, all knocked down 21.

On the pistol range, VX-5's AQC John Meredith paced his team with a hot 265 out of 300, while Marine M/ Sgt. Shel Simonovich, of NWC, shot 255 and PR3 Randy Kilmer, of NAF, logged a 239.

Marksmanship was the fifth of 12 events in Admiral's Cup competition, and NWC holds a slim lead with 19 points. NAF is second with 17, followed by the 8 points for VX-5. Racketball competition, which will be next, is slated Jan. 11 to 13 on the newly completed China Lake courts, followed in February by basketball and volleyball.

Burros varsity hoopsters split pair . . .

(Continued from Page 6)

throws from the foul line and the game ended with the Drillers on top, 51-48.

In the exciting fourth quarter, the Burros outscored their rivals 18-7, but missed on three out of four one-and-one opportunities at the charity stripe that could have turned defeat into victory.

In addition to Silberberg's 12 points, Robert Campbell and Benny Vick each tallied 10 for Burroughs, while Bret Maddox of the Drillers was the only Bakersfield High player in addition to Busacca to hit in the double-figure scoring column, and he tallied 10.

In a nip and tuck battle on Saturday night against the East Bakersfield High School Blades, the Burroughs put together a much better all around game by outlasting the Blades, 73-70, in a frenzied overtime contest.

Both teams battled on even terms in the first two periods of play which ended with East Bakersfield on top by the slim margin of 35-33. The Burros (led by Silberberg's 8

points) got the jump on the Blades, outscoring them 19-14, in the first 8-min. of play, only to see this early lead evaporate as the East High cagers tallied 8 points to 2 for the locals in the first few minutes of the second quarter.

At the end of three periods of play it was still a toss-up, with East High in the lead by 4 points, 55-51. The Burros battled back, however, and as a result of three successive field goals by Jay Kovar and two free throws by Vick, took over the lead, 65-63.

Four seconds before the end of regulation playing time in the final period, Homer Pratt of the Blades tied the score on a tip-in to force the game into a 3-min. overtime.

This set the stage for the game's exciting climax in which Silberberg and Vick each hit quick field goals, and Campbell added another to boost the Burros' lead to 71-65 with just a little more than a minute remaining to be played in the overtime period.

The Blades weren't to be counted out yet, however, and cut the Burroughs High lead to 71-69 on a pair of free throws and a field goal before Campbell was able to break loose for a lay-in that clinched the 73-70 win for the Burros.

Vick and Gilbert scored 16 points each and Silberberg tallied 12 to lead the BHS quintet in the scoring department, while Campbell and Ed Kumpfman chipped in a valuable 8 points apiece. The Blades were led by Sam McGee, who tallied 23, and also got a 16 point scoring effort out of Pratt.

The Burros varsity hoopsters are currently competing in a three-day tourney which began yesterday at Rubidoux High School near Riverside. This will be followed Dec. 27-29 by the Kern County Basketball Tournament that is to be played in Bakersfield.

Wilt's Corner . . .

(Continued from Page 6)

primarily for intermediate players, but beginners are welcome, according to Hagist.

Classes for beginners (with intermediates welcome) will begin on Wednesday, Jan. 5, from 5 until 6 p.m.

Employee in the spotlight

Bob Green, head of the Materials Acquisition Branch of the Electronic Warfare Department, has handled this job (through its various name changes) for 25 years, and has been a member of Code 35 since 1946. Stuff for memories enough.

But Bob's association with the Navy began even earlier, and so do the reminiscences.

A native of Jamestown, Kan., a small farming community, Bob was in his sophomore year at the University of Wichita in 1941 when he decided that his finances would not allow him to continue his studies towards a degree in mechanical engineering. On Dec. 3 of that year he joined the Navy.

For 33 months he served on the USS Breton, a jeep carrier—really a converted cruiser—and eventually became an aviation boatswain's mate first class on the ship's flight deck, taking care of F-4 Corsairs and TBF-4 single-engine bombers. In 1943 the Breton made 13 crossings of the equator. In 1944 it was hit by five Japanese kamikaze planes during task force maneuvers off the Saipan-Tinian group of islands.

When Bob was discharged from the service at the end of the war he found a job as an electronics signalman for the Pacific Electric red car line of streetcars in the Los Angeles area. Nine months later, though, in June 1946, he and his wife, Pauline, visited her sister, who was an employee of China Lake's Naval Ordnance Test Station, as it was then known. He had a job interview and, soon, a job here.

Same Job Since 1951

Bob began working at the Naval Air Facility as an administrative assistant for the Experimental Section of Aircraft Projects. In 1951 he was attached to the Aviation Ordnance Division Office and placed in charge of its pre-procurement supply. He's had the same job ever since then.

"In the old days," recalls Bob, "we supported the flight tests and the aircraft ranges. We've grown into support of the Electronic Warfare Department and the Weapons Department."

The five equipment specialists in Bob's branch begin with a request from the technical community. They research commercial suppliers for suitable products, and return this information back to the engineering personnel. Once approved, the request is sent to the Supply Department for purchasing.

"I have been personally involved," reflects Bob, "in the development of the Sidewinder, SARAH, Walleye, SHRIKE, Condor and several other major missile programs on-Center over the years. I feel very good about my contributions to the over-all development of our weapons programs because I've been involved in most of the major ones."

Bob describes the secret of good procurement practices as "personal contact with industry, technical expertise in the various programs here and making jillions

of phone calls." He adds, "We're known as the 'can-do' group on-Center because we know where to go and how to get things within a specified time frame in order to make the program go."

Every job has its problem areas. During the Vietnam conflict, Bob recalls, his branch had to make on-the-spot substitutions for increasingly scarce war material. Today his biggest headache is "additional paperwork which serves to make things more frustrating in a business which demands that there be no delays."

Like most China Lake "old-timers," Bob has memories of the rather primitive living conditions early employees of the Center were subjected to. The first home which he and Pauline had here was a two-room contractor's barracks in the area where the Community Center is now located. "The wind came right through quarter-inch wide cracks in the floor during the winter time,"

Bob Green

he says fondly. The Greens eventually moved into their own mobile home in Ridgecrest.

Bob and Pauline have been avid square dancers for 14 years, and, although they don't belong to a club, they dance "whenever and wherever we feel like it, and travel across the country in the process. We probably know all the major callers in the U.S. and have made friends in every town we've been to."

Each September these two enthusiasts get together with square dancing friends in Fun Valley, Colo. They're a couple in their other activities, too, bowling together in the Mixed League in Ridgecrest on Tuesday nights and going on fishing expeditions in the Sierra Nevada (although Pauline usually stays in the trailer and reads while Bob hauls in the big ones.)

The Greens are the parents of two daughters, Kathy, who is married and lives in Seattle, Wash., and Pam, who makes her home in Corvallis, Ore.

Bob expects to retire early next year, and plans to use Ridgecrest as the family's base of operations for traveling around the country in a trailer or mini motor home and taking a boat cruise to Mexico.

Promotional opportunities . . .

(Continued from Page 2)

involve project management of assigned conventional weapon product improvement and basic design engineering tasks, and direct sustaining engineering support of conventional weapon components in the areas of production monitoring, procurement, technical, field and failure analysis. Major weapon systems involved include the 2.75 in. and Zuni rockets, FAE, SLUFAE, APAM, Rockeye and guided missile components. Job Relevant Criteria: Experience in weapon systems in the areas of production, pyrotechnics, explosives, fuzing and systems environment; ability to deal effectively with on-Center contractor and sponsor level personnel. Previous applicants will be considered without reapplying.

Engineering Technician, GS-002-9/10/11, PD No. 7432599, Code 3462 — This position is located in the Engineering Support Branch, Fleet Engineering Division, Engineering Department. Incumbent will be assigned to the Conventional Weapons Group and will review production quality of conventional weapons and components from test results and inspection information; recommend corrective action to contracting officers; perform mechanical design; and (as required) contract for and monitor development of prototype productions. In addition, incumbent maintains surveillance on data packages for technical accuracy and provides designers of new weapons with information on Fleet environment and production. Job Relevant Criteria: Experience in the field

of weapon systems, especially in the areas of propulsion, pyrotechnics, explosives, fuzing and system environments under use conditions existing in service use; ability to deal effectively with people of all levels; working knowledge of the Center, Naval Air and Sea Systems Commands, and DoD policies and regulations regarding all aspects of ordnance acquisition and usage. Previous applicants will be considered without reapplying.
File applications for the above with Janet Thomas, Bldg. 34, Rm. 204, Ph. 2725.

JOB OPPORTUNITY

Aerospace Engineer, GS-041-14 — This is not an NWC position. It is located in the office of the director of Advanced Weapons Systems Division (A-03P2), (A-03), Naval Air Systems Command, Department of the Navy, Washington, D.C. (Duty Station is Arlington, Va.). The incumbent of this position is responsible for the planning, programming and execution of advanced weapon systems concept studies and for the management and coordination of the block funded exploratory development effort in Strike Warfare Weaponry. The Strike Warfare Weaponry Block includes four major generic weapon system areas: (1) short range air superiority, (2) short range air-to-surface, (3) medium/long range air superiority, and (4) medium/long range air-to-surface. Applications for this vacancy must be postmarked no later than Dec. 22, 1976. Additional information and a copy of vacancy announcement may be obtained by contacting Marge Stanton, Bldg. 34, Rm. 204, Ph. 2723.

Intramural basketball races tighten up in play at Center gym

The races in all three divisions of the Intramural Basketball League tightened up considerably last week as some of the top teams locked horns at the NWC gymnasium.

In A Division action on Tuesday night, Dec. 7, the Naval Air Facility and Naval Weapons Center hoopers each put their 2-0 records on the line. The contest was a see-saw battle all the way until NWC opened a 5-point margin and held on to win, 54-49. Marvin Rowe dropped in 14 points for the winners.

The Net Knockers defeated Homestead 54-48 in a well-played B Division affair that evening which saw Homestead hoopers outshoot their opponents, 23 field goals to 22, but come up short at the foul line, 9-4. High point man was Dave Crandell, with 15.

In the C Division contest that night, the Lobos stretched their winning streak to two games by shunning the Outcasts, 33-19. Cindy Barber of the Lobos was the leading scorer for the second game in a row with 14 points.

The following evening's A Division matchup between FAC No. 1 and Kern River Tours failed to materialize since the latter team won by virtue of FAC's forfeit.

Gamecocks Crush Speedsters

The Gamecocks took over the lead early in a B Division contest against the Speedsters, and held on to chalk up a 42-18 crusher behind a 14-point performance by Rusty Lester. The Gamecocks led 19-10 at the half and then outscored their opponents, 23-8, after the intermission.

In a C Division game, the No Names and Royals, both previously undefeated, met in one of the more exciting games of the season which saw the Royals emerge on top, 36-33. The Royals had an eight point lead at half time and then held off the No Names' late surge to register the victory. Darrell West led the winners with 12 points.

On Thursday, Dec. 9, Loewen's No. 1 defeated Desert Motors in an A Division clash, 58-53, after managing a one point lead at the half and then outscored their foes, 30-26, when play resumed in the second half. Kevin Keith of Loewen's led all scorers with 20 points.

In the B Division game, Space Mud kept its record clean by downing Loewen's No. 2, 41-33. The Space Mud squad never trailed at any time in the game. High point man was Al Sorenson, who tallied 19.

In the final game of the night, the C Division WASPs broke into the win column by stinging the Gasbags, 29-19. Rick Booth led the winners with 8 points. His teammates led at the half, 18-9, and won handily.

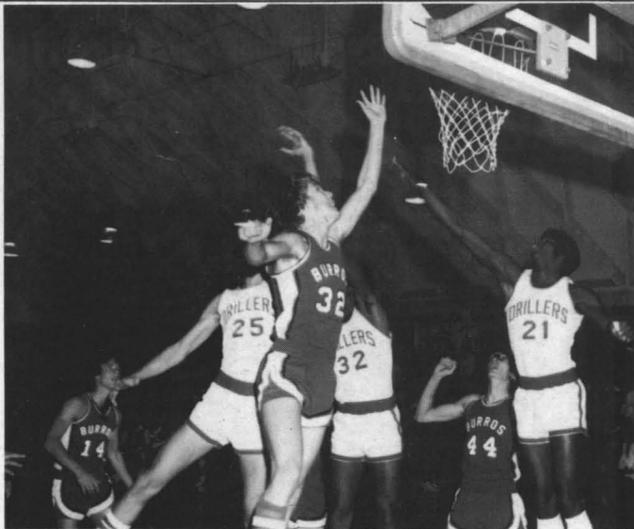

Local Judo Club members win awards at Barstow tourney

Seven of eleven members of the China Lake Judo Club returned home with trophies following their participation this past Sunday in a tournament held at Barstow. This event attracted more than 80 entrants from as far away as Las Vegas and West Covina.

The trophy winners, all youngsters between 8 and 16 years of age, were led by Jenny Edmondson, who garnered a first place award. In addition, Teresa Brown and Roger Butterfield won second place trophies, and Brenda Brandt, Denise Fletcher, Warren Harter and Kelly McCallister all received third place awards.

The China Lake Judo Club, an activity sponsored by the Special Services Division, is coached by Ernest Smith of Barstow, and classes, which are open to all interested persons, are held at the Youth Gym on Mondays and Wednesdays, starting at 5:30 p.m.

Additional information about enrolling in the local judo class can be obtained by calling Vicky Black at 446-6286. Good physical condition is all that is required since there is no upper age limit for taking part in this body building activity.

ACTION UNDER BASKET—Robert Campbell (No. 32 in dark jersey), battles for the ball under the basket in last Friday night's game between the Burros and Bakersfield High School varsity basketball teams. The Burros staged a fourth quarter rally, but came up on the short end of a 51-48 final score. In addition to Campbell, other Burroughs high cagers are Hugh Washburn (No. 44) and (at left) Steve Hamm (No. 14). Eddie Climos (No. 21) is the Bakersfield High player reaching in for the ball, and his two teammates (both partly hidden by Campbell) are Brian Busacca (No. 25) and Wally Sumlin (No. 32). —Photos by Tom Carter

Burroughs varsity hoopsters split 2 close contests in pre-season action

Burroughs High School's varsity basketball team broke even in two games played last weekend against the hoopsters from Bakersfield and East Bakersfield High School.

Coach Larry Bird's cagers waited until the fourth quarter of last Friday night's game here with the Bakersfield High Drillers to play up to their potential, but had to settle for a 3-point home court loss (51-48).

Then, on Saturday night in East Bakersfield, the locals took up where they left off in the final period of the preceding night's game and went on to win a thrilling overtime contest by a final score of 73-70.

Neither the Burros nor the Drillers from Bakersfield High were setting the world afire with their performance here last Friday night, but, until the fourth period heroics by the Burros, it was the Drillers from Bakersfield who had the best of it in a low-scoring game.

After outscoring the locals 12-8 in the first period of play, the Bakersfield High quintet

CHALK UP TWO—On a fast break, Kevin Silberberg got the jump on Walter Williams (No. 15) of Bakersfield, and drove in to score a basket for the Burroughs High varsity team. Silberberg's hot hand in the exciting final period play nearly enabled the Burros to knock off the visitors from Bakersfield.

Wilt's Corner

NWC's varsity volleyballers do well at UC Irvine

The Naval Weapons Center varsity volleyball team finished third in its division during the USVBA tournament held at UC Irvine last Saturday.

The team won four games and lost four, and according to player-coach Jerry Kissick, "We played well and are ahead of my expectations for this stage of the season."

Local players, in addition to Kissick, who participated in this event were Jim Bevan, Bob "the animal" Berry, Bob Smith, Duane Fojt, Dave Kurdeka and Rusty Bates.

Be a Sport—Conserve Energy

The NWC tennis court lights will be turned off at 10 p.m. during the months of April, May, September and October, and at 11 p.m. during June, July and August.

No lights will be used on the courts during the balance of the year.

Athletic facility lights will be secured during the winter months of November, December, January and February, and will be turned off at 10 p.m. during the remaining months of the year.

Special arrangements for use of the tennis court lights may be made, however, by contacting the gym or Special Services offices.

Holiday for Hoopsters

Play in the NWC Intramural Basketball League has begun a two-week intermission for the holidays, and will resume once again on Tuesday, Jan. 4.

During this break, the gymnasium can be reserved as usual by calling the gym office. The gym will be open for free play during other hours.

Turkey Shoot

A moonlight no tap tournament (turkey shoot) will be held at Hall Memorial Lanes on Monday at 6:30 and 8:30 p.m.

Entry forms and additional information about the tournament are available at the bowling alley desk.

Tennis Classes

The 1977 season of Special Services tennis instruction will begin on Tuesday, Jan. 4, at 10 a.m. and 5 p.m. when one hour classes under the direction of Fred Hagist will get under way.

These Tuesday lessons are designed

(Continued on Page 7)

Sounders, Apollos capture division titles in exciting end to Youth Soccer League season

As the NWC Youth Soccer League season came to an end last Saturday, the title in the National Division (for players 13 through 16 years of age) was won by the Sounders, while the Apollos captured the crown in the American Division, which was open to youths 7 to 9 years old.

In the morning's first game at Davidove Field, the Cosmos engaged the Stars, the only team in the senior circuit not in the title picture. In a rough match, the Stars held the Cosmos to a scoreless draw. This tie not only put the Cosmos one point ahead of the Sounders, who were slated to meet the Atoms in the second game of the day, but also eliminated the Atoms from contention.

In their final match of the season, therefore, a win by the Sounders would earn them the championship, while a victory by their opponents (the Atoms) would give the Cosmos the title. Since the Sounders vs. Atoms game ended in a tie, the Sounders emerged as champs as the result of having

a higher point total based on their greater number of victories during the season.

Midway through the first half of the Atoms vs. Sounders game, Steve Fry of the Atoms belted the ball from close range past Adam Halop, the Sounders' goalkeeper, and the Cosmos and their supporters went wild. Then, late in the second half, frustrated Atom fullback Walt Turner blatantly fouled Dave Murray of the Sounders inside the penalty area.

The Sounders selected Andy Haaland to take the shot from the 12-yard penalty line with only Atom goalie John Fry to protect the net. Haaland ran to the ball and neatly skipped it along the ground into the back of the goal past Fry. The result was a 1-1 tie that gave Haaland's club the league title.

The junior division was decided less dramatically as the Apollos prevailed over the Spirits by 2 points in the standings. The Comets were unable to field a team for matches against each of the top two teams.

Wide variety of activities held during observance of Federal Women's Week

A wide variety of activities was held from Tuesday through Friday of last week to mark the observance of Federal Women's Week at the Naval Weapons Center.

The itinerary for this four-day event, which began with the presentation of Federal Women's Awards to six employees and special awards to three supervisors, included lectures, panel discussions, workshops, film presentations and two luncheons.

Paula Nelson, author of the book entitled "Joy of Money," provided her audience with information on how to earn, spend, invest and enjoy the use of money. During her talk, which followed the Tuesday morning award presentations by Rear Admiral R. G. Freeman III, NWC Commander, and was continued during a luncheon held in honor of the award recipients,

Paula Nelson

she offered advice on such matters as asking for a raise and handling a business transaction such as the sale or purchase of property.

"Always think overnight about a contract or anything you sign. Don't rush anything," the speaker advised. She also mentioned the importance of being on an even keel emotionally when any kind of business negotiations are involved.

At the Tuesday afternoon luncheon, she outlined the need for everyone to have a realistic money plan which includes regular savings for a specific purpose.

Featured speaker on Wednesday morning, Dec. 8, was Elsie McGowan, a com-

Work of removing trees in housing area continues

Tree removal work, which is currently under way in the Capehart B and Wherry housing areas, will be continuing over the Christmas holiday period while children are out of school.

Because of this, parents are reminded to caution their children regarding the danger of loitering in the vicinity of any yard where tree removal work is in progress.

Even though the contractor has been directed to proceed with utmost caution, the cooperation of parents in making sure that their children do not endanger themselves by getting too close to such work is urgently requested in order to avoid a tragic accident during this holiday period.

Since the tree removal contractor will not be working over the Christmas weekend, his employees will make every effort to have all yards in which work has been done restored to their normal condition for the holiday.

If any problems or questions come up regarding this contract, China Lake residents are asked to contact the Housing Office by calling NWC ext. 2082 or 2093.

FEDERAL WOMEN'S WEEK PANELISTS—Four local women singled out for having done things that are considered outside the realm of what is expected of women took part in a Federal Women's panel discussion. The participants, who discussed what they have done, as well as how they handled any problems that may have occurred, are (l.-r.) Vicky Balz, Peggy Zulkoski, Florence Green and Glenna Williams.

puter operations project engineer with the National Aeronautics and Space Administration at Edwards Air Force Base. "An effective women's program will actually make life easier for the men," she stated during the prelude to a workshop on "Sexist Language."

A series of words or professional descriptions was mentioned—giving the usual sexist word and then suggesting a substitute. Examples of this were using the term "human resource" in place of "manpower" or "firefighter" instead of "fireman."

The audience was then divided into six groups to consider various aspects of sexist language, ranging from obscenity to terms of endearment.

All Male Panel Discussion

A panel discussion on the subject "How the Opposite Sex Feels About the Woman's Movement" was held on Wednesday afternoon. Karen Altieri, Federal Women's Program Coordinator at NWC, was the moderator, and members of the panel were R. H. Booth, Dr. John Forney, Al Hard, Dick Johnson, Steve Kaupp and Cdr. Richard Webber.

The panelists responded to a list of questions asked by Mrs. Altieri and also answered questions from the audience. The panelists' answers brought out the information that at least four of them would not like being beaten in a sports event by a woman, and the fact that employed women are seen as a threat in the field of law enforcement, but not so much in other fields.

In addition, no one was bothered by women over 40 joining the work force, and all of the

Housing rental rates, utility costs to go up

The annual adjustment, based on the Consumer Price Index, for civilian shelter and utility charges has been recently received from the Western Division, Naval Facilities Engineering Command, San Bruno.

The increase for shelter rents is based on the February 1974 survey and amounts to 13.9 per cent above that figure, while the utility increase is 11.4 per cent of the August 1974 rates.

In essence, this amounts to an increase over the present rent schedule of 6.1 per cent and a 5.9 per cent over the present utility schedule. The effective date for the increases will be Feb. 1, 1977.

Until about three years ago, rents were adjusted every three years based on a triennial review. Now, however, in order to provide rates on a more current basis between appraisals and to reduce the three year impact on civilians occupying government family housing units, the Office of Management and Budget keys rent increases and utility increases to the Consumer Price Index annually.

Active duty military personnel assigned to public quarters for which Basic Allowance for Quarters (BAQ) is deducted are not affected by this change in rental and utility charges. The BAQ adjustments were effective on Oct. 1, 1976.

All civilian personnel occupying Federal housing within the continental U.S., including those in bachelor quarters, are affected by this increase. An NWC Public Works spokesman stressed the fact that this change is nationwide. Maintenance costs and actual rental income from government housing locally has no effect on these shelter rate and utility charge increases.

The schedule of new rental rates for all NWC housing can be found on Page 4 of this issue of The ROCKETEER.

YN3 Betty Jelsma singled out as Sailor of Month by VX-5

Yeoman Third Class Betty Jelsma, a native of Worthing, S.D., has been named Air Test and Evaluation Squadron Five's Sailor of the Month for November.

Currently, YN3 Jelsma is secretary to the VX-5 Projects Director, and as such handles the office's typing, receptionist and telephone answering duties. When she first arrived at China Lake for her first duty

Jelsma "is the first contact many callers have with VX-5 and many compliments have been received on her alert, cheerful attitude and proper military deportment. . . She has managed to bring order to a normally chaotic office routine and has undertaken the difficult task of monitoring fiscal expenditures of the VX-5 Projects Department."

With travel and educational benefits in mind, YN3 Jelsma joined the Navy in November 1974 after working as a secretary for a doctor in Sioux Falls, S.D., for two years. Raised on a farm, she is the youngest of eight children in the family and has three brothers serving in the Air Force.

YN3 Jelsma, who is single and lives in the BEQ, intends to prepare for a career as an elementary school teacher. She is presently taking ("for fun") classes in auto maintenance and chemistry at Cerro Coso

Visitors' pass office to close Christmas Day

The casual visitors' pass office will be closed on Christmas Day. Because of this "Special Events" visitor visitor cards will be issued to visitors by guards on duty at both the main gate and at the south gate to NWC between the hours of 7 a.m. and 5 p.m. on Dec. 25.

During the period from 5 p.m. on Dec. 25 to 7 a.m. on Dec. 26, the guards will record the drivers' name, number of passengers, vehicle type and license number, as well as the address to be visited.

Visitors planning to remain on board the Center after Christmas Day must return to the pass office on Sunday, Dec. 26, to obtain a pass.

YN3 Betty Jelsma

assignment in April 1975, she worked as a clerk in the squadron's classified control office, and, a year later, put in a five-month stint as a typist in the VX-5 reports management office.

"I enjoy my job very much" says YN3 Jelsma, "because it's challenging and fun to meet people. And the China Lake area is nice, too, because the weather is so gorgeous and the people are so friendly."

According to LCdr. R. A. Bankson, Chief Operational Test Director of VX-5, YN3

Federal Women's Week observed at NWC . . .

(Continued from Page 1)

events; and Peggy Zulkoski, a section head who is the only female project engineer at Echo Range.

"Equality does not mean being the same. Equality is concerned with the dignity of being a woman and affirmation of what you are," Mrs. Green began. Self-esteem is a very important thing, she noted.

After discussing the background of the women's liberation movement, Mrs. Green stressed the point that men are not the enemy—women are their own worst enemies because of the things they either don't or won't do, and because of their attitude toward other women.

The Ridgecrest City Council member continued by outlining steps to personal growth, thoroughly explored the topic of

Florence Green

women's supposed inferiority to men, and (using audience feedback) surveyed the area of fears associated with attaining success.

The burden of working and being a housewife, too, has to rest on the individual who has to handle it the best way she can, depending upon the life style of her family, Mrs. Green said. In this regard, the most overwhelming problem to be faced by working women is how their children are affected and how this, in turn, affects the woman herself, the speaker added.

Mrs. Green agreed strongly with the theme of the Federal Women's Week program that "A Women's Place Is ... Everywhere."

During the panel discussion that followed the talk by Mrs. Green, each of the participants introduced themselves, described what they have done that is unusual, how they handled it and any problems related to it. In general, each of the panelists felt it is important "to like what you are and what you do."

Ann Brassier, a representative of the Civil Service Commission from the Los Angeles area, was the featured speaker at a luncheon meeting held last Thursday. The time is ripe for women to move upward, she stressed in her talk entitled "Room at the Top."

After pointing out that 70 per cent of the women who are employed by the Federal government are in the lowest five grades,

ON THE SPOT — A panel composed of six men responded to questions on the subject "How the Opposite Sex Feels About the Women's Movement" during the local observance of Federal Women's Week. Shown with Karen Altieri (in center), Federal Women's Program Coordinator at NWC, who served as the panel moderator, are (l.-r.) Steve Kaupp, Dick Johnsen, Cdr. Richard Webber, Al Hard, Dr. John Forney and R. H. Booth.

she offered suggestions on how to progress by setting goals, evaluating one's skills and abilities and then communicating this information to supervisors. She also recommended that employees know what the requirements are for taking that next step up.

Following lunch on Thursday, the Federal Women's Week program continued with a workshop on the subject of "Analyzing Attitudes" that was led by Dr. Allison Swift, director of the Learning Resource Center at Cerro Coso Community College.

This workshop began with the distribution of a set of 10 letters that a person might receive, and participants in the workshop were asked to write down their reactions to the letters. Thereafter, the attendees were divided into small groups to discuss and summarize the attitudes that were disclosed by the individual's comments to the letters.

The special Federal Women's Week program was concluded last Friday by talks presented by Dr. Clyde Aveilhe from the Educational Testing Service in Washington, D. C.

At the morning meeting, Dr. Aveilhe's subject was "Eradicating Sexism — a Management Responsibility," while in the final meeting he discussed "Coping With the Stress of Sexism."

Community Center to be closed daytime hrs. beginning Mon.

During the two-week period from Monday, Dec. 20, through Friday, Dec. 31, the Community Center will be closed daily between 7:30 a.m. and 4:30 p.m., Art Amos, the manager, announced.

The Community Center will remain open evenings during this time for all regular group meetings, as well as for any special events that have been scheduled, Amos added.

On the days that the Community Center is closed during regular working hours, discount coupons for holiday season activities at both Disneyland in Anaheim and Sea World in San Diego can be obtained at the Special Services office now located in the old post office next to the Center gymnasium.

Tournaments slated at Youth Center during Yule holiday

A series of tournaments in ping pong, pool and chess will be held during the Christmas holiday from school for members of the China Lake Youth Center.

Those interested in competing must register at the Youth Center prior to 9 p.m. Monday.

A fee of 25 cents per event will be charged each player, and the winner will receive a NWC Hobby Store gift certificate in the amount of the total registration for that event. All tournaments will be divided into age groups of players, and the entrant with the best score out of five games played will be the winner.

Wilt Wyman, NWC recreation director, has announced that effective Monday, the Youth Center will be open on weekdays from 2:30 to 4:30 and 6 to 9 p.m.; on Saturdays and Sundays from 1 to 5 p.m., and closed on holidays.

During the period of Dec. 20 to 30, the Youth Center will open at 12:30 for members. Memberships are available at a cost of \$6 for individuals or a maximum of \$18 per family.

Dispensary construction site remains off limits

Another reminder that the Naval Weapons Center's new dispensary and dental clinic is still off limits to all except contractor personnel engaged in the actual construction work was issued this week by Public Works Department's Contract Division.

Although the construction site is an area in which hard-hats must be worn as a safety measure, a number of persons have been observed using it as a short cut to reach other locations.

This, it was emphasized, is a practice that must be stopped.

Dr. Clyde Aveilhe

Rhymes of the Times

If you've been drinking at a party or bar
Think twice before you drive your car.
A trip home in a cab may cost you a fiver
But that's cheaper than an arrest as a drunk driver.
Is one evening of alcohol and a drive worth the rest of your life?

EEO OFFICIALS HOLD WORKSHOP — In his capacity as NWC's Equal Opportunity Officer RAdm. Rowland G. Freeman III, Center Commander, addressed EEO officials during a half-day workshop held last week. Stressing his personal commitment to EEO goals, RAdm. Freeman also emphasized the Navy's commitment to combat and eliminate longstanding problems of racial, ethnic or sexual discrimination. The workshop was arranged by Grant Williams, Deputy EEO Officer, and featured presentations by Williams, Karen Altieri, Federal Women's Program Coordinator; Joe Lopez, Spanish-Speaking Program Coordinator; Bill Porter, chairman of the EEO Committee, and Chaplain Rhodes Harper, representing the military EEO program that has recently merged with the civilian program to make one unified EEO effort at NWC. Other speakers were Al Cleland, representing the department EEO Coordinators; Len Gulick for the EEO Counselors, and Louise Mitchell for the Human Relations Workshop trainers. Attendees were NWC employees who work part-time for the EEO effort on-Center as trainers, department coordinators, counselors, or members of the EEO Committee or the Federal Women's Program Committee. —Photo by Ron Allen

Promotional opportunities

Unless otherwise specified in the ad, applications for positions listed in this column will be accepted from current NWC employees and should be filed with the person named in the ad. All others desiring employment with the Naval Weapons Center may contact the Employment-Wage and Classification Division, Code 092, Ext. 2609. Ads will run for one week and will close at 4:30 p.m. on the Friday following their appearance in this column, unless a later date is specified in the ad. Employees whose work history has not been brought up to date within the last six months are encouraged to file a Form 171 or 172 in their personnel jacket. Information concerning the Merit Promotion Program and the evaluation methods used in this promotional opportunity may be obtained from your Personnel Management Advisor (Code 094 or 097). Advertising positions in the Promotional Opportunities column does not preclude the use of alternate recruiting sources in filling these positions. As part of the rating process, a supervisory appraisal will be sent to the current supervisor and the most recent previous supervisor of those applicants rated as basically qualified. The Naval Weapons Center is an equal opportunity employer and selection shall be made without discrimination for any reason. The minimum qualification requirements for all GS positions are defined in CSC Handbook 26-116, while those for all WG, WL and WS positions are defined in CSC Handbook 26-118C.

INVENTIVENESS COMMENDED — In a recent ceremony, W. B. Porter, head of the Weapons Department, presented patent awards to Roy Kartzmark (left) and John Skoog. Kartzmark, an aerospace engineer in the Air-to-Air Systems Synthesis Branch, and Skoog, an aerospace engineer in the Simulation / Dynamics Branch, received their awards from the Naval Undersea Center in San Diego. The patent is for an improved rocket motor apparatus for producing a roll movement which is effective in reducing trajectory dispersion due to thrust and aerodynamic malalignment. This new device, which is simple and inexpensive to construct, is used in connection with a missile having a hinged airframe that splits apart at its front end to separate the airframe from the payload. —Photo by PH3 B. J. Beckman

Happenings around NWC

The Navy Exchange main retail store, annex and men's store will be open additional time in order to accommodate holiday shoppers.

These facilities will be open from 10 a.m. to 4 p.m. tomorrow, from 10 a.m. to 9 p.m. on Thursday, Dec. 23, and from 10 a.m. to 2 p.m. on Friday, Dec. 24.

Party Set at CPO Club
Tickets are on sale for the Chief Petty Officers' Club's New Year's Eve party at the club office between the hours of 8 a.m. and 6 p.m.

Entertainment by the Ron Chandler Explosion (a contemporary rock group from Newport Beach), champagne, a prime rib dinner with wine, hats, favors and an open bar are included in the admission price.

Les Brown To Be at COM
Les Brown and his Band of Renown will be featured at a dinner-dance Saturday night at the Commissioned Officers' Mess. The price of \$25 per couple includes a New Sailor of Month . . .

(Continued from Page 1)
Community College, and sings in the choirs of the college and the All Faith Chapel at China Lake. In addition, she sews, pitches for the VX-5 women's softball team, and recently made her first sport parachute jump.

For her selection as Sailor of the Month, YN3 Jelsma will receive a 72-hour liberty pass, one duty-free month, a parking spot near the hangar, a squadron plaque and a letter of commendation to be read at quarters, and her photograph will be displayed on the VX-5 bulletin board.

Airline flight schedule changed

A new schedule of Golden West airline flight service to and from Inyokern airport and the Los Angeles International Airport is now in effect. Since no government transportation is available between the Naval Weapons Center and Inyokern, airline passengers must make use of either private vehicles or call the Arrow Taxi Co. in Ridgecrest. The current schedule of flights is as follows:

Flight No.	Leave Inyokern	Arrive Los Angeles	Day
879	6:15 a.m.	7:05 a.m.	Monday
881	6:15 a.m.	7:20 a.m.	Tues. - Fri.
883	10 a.m.	11:25 a.m.	Mon. - Fri.
883	10 a.m.	11:05 a.m.	Sunday
885	5:40 p.m.	6:30 p.m.	Mon. - Fri.
875	10:20 p.m.	11:10 p.m.	Thurs. - Fri.
Leave Los Angeles	Arrive Inyokern		
882	8:15 a.m.	9:05 a.m.	Mon. - Fri.
882	8:30 a.m.	9:35 a.m.	Sunday
884	3:35 p.m.	4:45 p.m.	Mon. - Fri.
886	8:25 p.m.	9:25 p.m.	Mon. - Wed.
886	8:25 p.m.	9:15 p.m.	Thurs. - Fri.
876	9:10 p.m.	10:10 p.m.	Thurs. - Fri.

Clerk-Typist, GS-323-3/4, PD No. 7403005N, Code 03 — This is a career-conditional WAE position located in the office of the Laboratory Director. The incumbent assists in the clerical work of the office. The duties include typing a variety of documents, filing documents, answering the telephone, receiving visitors and performing clerical duties as assigned. Job Relevant Criteria: Familiarity with the Center organization and policies; ability to type accurately and efficiently; familiarity with time keeping procedures; ability to accurately record telephone messages and display telephone courtesy.

Contract Negotiator, GS-1102-7/9, PD No. 7525035-1, Code 2524 — This position is located in the Contracts Branch, Procurement Division, Supply Department. The incumbent prepares procurement plans, performs bid and proposal analysis, and meets with contractor representatives to negotiate formal contracts. Incumbent also prepares proposed contracts. Job Relevant Criteria: Knowledge of Armed Services procurement regulations and related regulations; ability to deal effectively with a wide variety of people and to communicate effectively both orally and in writing. Promotion Potential: GS-12.

Contract Administrator, GS-1102-7, PD No. 7425037, Code 2523 — This position is located in the Contract Administration Branch, Procurement Division, Supply Department. The incumbent will perform contract administration duties for service and support contracts (including contract modification, establishment and monitoring of suspense dates, follow-up on delay delivery, default action, contract termination and processing scope changes); prepare and disseminate task orders, work assignment and delivery orders; process contract modification and/or supplemental agreements. Incumbent is an ordering officer for multi-year contracts. Job Relevant Criteria: Knowledge of Armed Services procurement regulations; ability to deal effectively with a wide variety of people and to communicate effectively both orally and in writing. Promotion Potential: GS-11.

Engineering Data Management Specialist, GS-301-7, PD No. 7433086, Code 3272 — This position is located in the Design Documentation Branch, Design Services Division, Fuze Department. Incumbent prepares or reviews engineering change proposals, specification change notices and notices of revision in conformance with Navy and DoD format and policies; assists in preparation of document control plans; and is responsible for maintenance and control of all engineering data prepared or used in the Fuze Department. Job Relevant Criteria: Knowledge of Navy and DoD formats and guides for documentation, of engineering change proposals, specification change notices, notices of revision, etc.; and of document control plans. Promotion Potential: GS-9.

File applications for the above with Terry Rowell, Bldg. 34, Rm. 210, Ph. 2371.
Clerk (Typing), GS-301-5, PD No. 7423099, Code 232 — This position is located in the Presentations Division of the Technical Information Department. The incumbent performs a variety of secretarial duties such as receiving incoming telephone calls and visitors; maintains supervisor's calendar; acts as liaison between the supervisor and subordinates; and receives incoming correspondence, reports and instructions. Incumbent will also type scripts and scenarios for a variety of reports and presentations and will perform other clerical tasks as assigned. Job Relevant Criteria: Ability to type accurately and efficiently; knowledge of the Technical Information Department organization; experience in performing secretarial duties; ability to deal tactfully and communicate with people at all levels and to perform duties with minimum supervision.

Library Technician, GS-1411-5, PD No. 7423089N, Code 2324 — This position is located in the Descriptive Cataloging Branch, Library Division, Technical Information Department. Incumbent will perform descriptive cataloging of technical reports where the form of corporate entry, personal author, report series, or title has not been established or is obscure. Incumbent will use electronic data processing equipment and the Center's computer system to print, sort and alphabetize the catalog cards for various reports. Job Relevant Criteria: Knowledge of technical reports; ability to use electronic data processing equipment and to type; knowledge of descriptive cataloging practices.

Audio Visual Production Specialist, GS-1071-7, PD No. 7423100, Code 2322 — This position is located in the Presentations Development Branch, Presentation Division, Technical Information Department. The incumbent will write and plan visual presentations for Center personnel. Incumbent will conduct literature searches and interview various personnel to obtain required data; will work with photographers, illustrators, motion picture specialists, television production specialists and others. Job Relevant Criteria: Experience in planning, researching and writing illustrated presentations dealing with technical materials; experience in report writing and in developing visual material for printed media, television/video tape, slides or films. Promotion Potential: GS-11.

Archivist, GS-1428-7/9, or Librarian, GS-1410-7/9, Code 23 — This is an interdisciplinary position located in the Michelson Museum. The incumbent is responsible for examining a variety of documents, drafting accession forms and preparing reports on the collection of Michelsonian instruments and documents according to the prescribed format for archival collections; will assist in making archival-quality copies using color filters on half-tone screens; will be required to edit, correct and rewrite several rough transcripts; and will assist the curator in preparing and updating the inventory of hardware items and photographs. Job Relevant Criteria: Knowledge of acquisition, inventory, cataloging and indexing practices; familiarity with materials used in physical sciences; ability to read French and German; and the ability to type.
